## Trouble Shooting

If your keyboard can not work after installation, please check followings:

- Make sure you have connected the receiver correctly to the computer. The receiver has been properly plugged onto computer's USB port.
- Make sure you have inserted two AA batteries into its compartment correctly.
- If without any interference, such as other computer peripherals, the working distance (the distance between keyboard and the receiver) is about 10 meters.
- If using more than two units and interfere occurred, please reset ID again.

## Notice

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## Important note

To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.

## FCC information

The Federal Communication Commission Radio Frequency Interference Statement includes the following paragraph:

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user should not modify or change this equipment without written approval form. Modification could void authority to use this equipment.

For Windows XP and Vista
