- Blue tooth device can't be found: probably, the Speaker has been connected by other Blue tooth device. Press Pair button to search it again. If you still cannot find the speaker, please Turn Off the speaker for 5second then turn it on.
- Blue tooth signal intermittently: the effective distance between speaker and Device is 10M, the signal will be intermittent if the distance more than 10M.
- If there are more than 1 Speaker are switch on, the Bluetooth device will find more than 1 speaker, if you want to connect one of them please turn off the others
- If your Bluetooth device on searching and find many other Bluetooth device, please wait for the searching finished and select Speaker to pair.

※ Normal operation :

1. Power-on Operation:

Push the button【POWER】on the back for 1 second,the indicate light on the front panel is on, and then the vocal message says 【Bluetooth mode】(without connecting through 3.5mm Aux cable) . The speaker starts to search and connect the device that connected last time. The vocal message says【paired】. If the the speaker can't find the device which connected last time within 20s, it will be in the status of being searched by other devices and waiting for the connection.

2. Connecting by NFC:

1).Make sure the speaker is on and in Bluetooth channel.
2).Make sure the Cell phone has NFC communication which can activate the Bluetooth to pair and audio connection.
3).Make sure the screen of cell phone is unlocked.
4).Make sure the NFC and Bluetooth in your cell phone is on
5).Make the NFC part of your mobile and the speaker close to each other for 2 seconds (if you can't make sure where NFC part of your mobile is, please google it, or move your mobile on NFC part of the speaker until it is connected), the mobile will show on screen the reminding message of whether you want to connect the speaker or not.Press "yes", and then you can move the mobile and wait for 3-10s. The mobile will connect the speaker and the vocal message will says【paired】, and then you can play music from your mobile. (Note: If the mobile has paired with the speaker, it will not show the reminding message of whether you want to connect the speaker or not, but show the reminding message of having connected or disconnected).

3. Connecting through hand operation:

Turn on the speaker and make sure the speaker is in Bluetooth channel. Touch the button【Bluetooth Mark/M】on the top operating panel, and the vocal message says 【Waiting for pairing】. Search and find Mark 5 with your Bluetooth device , and connect it, the vocal message says 【paired】.Then you can play music from your Bluetooth device .

4.Music-playing operation in Bluetooth channel:

When the speaker has successfully connected to the Bluetooth device properly, select the music by touching the button【Previous Song】or【Next Song】on the top operating panel. Play the music or pause by touching the button 【PLAY/PAUSE/PHONE】.

5.Incoming-call operation:

When the speaker has connected the mobile through Bluetooth, and the call comes in , the speaker will have reminding message that the call is in. Answer the call by touching the button 【PLAY/PAUSE】;or hang up by touching the button 【PLAY/PAUSE】again.

6. Volume Control:

Touch the button【Volume +】or【Volume -】 on the top to control the volume of the speaker.

7. AUX IN mode:

1.) Connect the speaker and the device with 3.5mm Aux cable when the speaker is power off.

2.)After pushing the button 【Power】on the back for 1 second, the indicate light on the front panel is flashing. The vocal message says 【AUX IN mode】.The pay the music.

3.)When the aux cable is plugged into the speaker under the Bluetooth mode, the speaker will change to AUX IN mode automatically. The Bluetooth connection is off.

4.)The operation of volume control under AUX IN mode is the same as under bluetooth mode. Touch the button 【PAUSE/PLAY】and the speaker will be in the mute status , and the indicate light will be flashing. Touch the button 【PAUSE/PLAY 】again, and the speaker resume to normal status and the indicate light is constant on.

8. Micro SD mode:

1.)Insert Micro SD card (which has musics) into the Micro SD card slot, the vocal message says【TF mode】and then the speaker will play music automatically. (It can support maximum 32G Micro SD card, and support MP3、WAV and WMA music format).

2.)The operating control under TF mode is the same as under Bluetooth mode(See Step 4).

9. Mode Switch

Touch the button【Bluetooth mark/M】for 1 second to change the current mode. Repeat the operation, and Bluetooth mode, TF mode and Aux-in mode will come in a circular way.

10. POWER MANAGEMENT

1.)Charging: Use the supplied USB cable to connect USB port on adaptor (Output DC 5V, ⩾1A). The red indicator in front will be on while charging. When the battery is fully charged, the red indicator will be off. Battery charging time: 5-8hours.

2.)(Built-in battery) Low battery warning: When the voltage of the battery is low, the vocal message says【Low battery please recharge】. After warning, the speaker will be automatically power-off and will resume to normal use after recharging.

3.)Auto power-off: Under Bluetooth mode, without connection or without playing music for 15 minutes,the speaker will be in stand by status.Under AUX mode, without connecting audio cable, after 15 minutes, the speaker will be in standby status. Restart the speaker by pushing the button【Power】.

COMPLIANCE WITH FCC REGULATIONS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.These limits are designed toprovide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.However, there is no guarantee that interference will not occur in a particular install ation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. The antenna (s) used for this transmitter must be installed and operated to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with a n y o ther antenna or transmitter.Installers must ensure that 20cm separation distance will be maintained between the device (excluding itshandset) and users.

"batteries shall not be exposed to excessive heat such as sunshine, fire or the like.""the apparatus shall not be exposed to

dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus."

"CAUTION

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type."

where the MAINS plug or an appliance coupler is used as the disconnectdevice, the disconnect device shall remain readily operable
