## LET'S TAKE THE TRAILS!

To run your Polaris™ vehicle is very easy, just check the next image.

Turn ON the transmitter by moving the ON/OFF switch.  
The transmitter Syncs automatically with the vehicle

If the vehicle pulls left or right while driving straight ahead you must adjust the alignment wheel (located on bottom of the vehicle).

## TROUBLE SHOOTING

Problem	Solution
Vehicle doesn't move or moves too slow	<ul style="list-style-type: none"> <li>- If the vehicle doesn't move check the transmitter's batteries are placed with the correct polarity.</li> <li>- Check the vehicle or transmitter ON/OFF switch is in ON position.</li> <li>- Maybe it's time to recharge your vehicle or change transmitter batteries.</li> </ul>
The vehicle moves by itself or erratically	<ul style="list-style-type: none"> <li>- Make sure there's no outside radio interference, keep as far away as possible from radio towers, electrical lines, transmitter antennas or tall buildings.</li> </ul>

## FCC Statement Instruction Sheet

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
