OWNER'S MANUAL

Thank you for purchasing this FUJIFILM product.
This manual explains how to use your FUJIFILM Printpix Digital Photo Printer CX-400.
Before using your printer, thoroughly read the "OWNER'S MANUAL".
After reading, store the "OWNER'S MANUAL" in a safe place.

SAFETY NOTES

Thank you for purchasing this FUJIFILM product. Before using your new product, thoroughly read the "Owner's Manual" and use the product correctly. After reading the "Owner's Manual" store it in a safe place.

The warning types explained below indicate the severity of the injury or damage that can result if a warning is ignored or the product is used incorrectly.

WARNNING Indicates that the subject of this warning may cause death or serious injury.

CAUTION Indicates that the subject of this warning may cause personal injury or material damage.

The icons shown below indicate the type of warning to be observed.

Triangular icons notify the user that care is required.

Circular icons with a diagonal bar notify the user that the action indicated is prohibited.

Filled circles with an exclamation mark notify the user that an action must be performed.

WARNNING

Do not use this product if the power cable is not plugged incorrectly.
Do not damage or modify the power cord.

Do not bend, twist or pull the power cord excessively.
Do not place heavy objects on the power cord or lay the power cord under objects with corners.
Do not place the power cord near heating appliances or expose the power cord to heat.
A short-circuit or heat discharge can cause an electric shock or fire.

Do not place the printer in an unstable location.

If the printer looses its balance and tips over or falls, it could cause injury.

Do not use voltages other than the specified power supply voltage.

This can cause a fire or electric shock.

Never attempt to disassemble or modify the printer (remove the casing, etc.).
Do not use the printer when it has been dropped or the casing is damaged.

This can cause fire or electric shock.
● Contact your Fuji dealer or authorized Fuji service facility.

Do not place metal objects or receptacles containing liquids on or near the printer.
Do not let water or foreign objects enter the printer.

If water or foreign objects enters the printer, turn off the power switch and unplug the power cable from the power outlet. Continued use of the printer in these circumstances can result in short-circuit and cause a fire or electric shock.
● Contact your Fuji dealer or authorized Fuji service facility.

If an abnormality occurs, turn off the power switch and unplug it from the power outlet.

Continued use when smoke or abnormal odor emanates from the printer can cause a fire or electric shock.
● Contact your Fuji dealer or authorized Fuji service facility.

Do not plug in or unplug the printer with wet hands.

This can cause electric shock.

CAUTION

Do not place the printer in location where oily smoke, steam, moisture, or dust is prevalent.

This could cause a fire or electric shock.

Keep out of the reach of small children.

Small children may stick their hand into the printer (paper compartment cover, paper cutting waste box slot, etc.) and be injured.

Do not block the ventilation slits.

Any blockage of the ventilation slits during use could result in a buildup of heat inside the printer, causing a fire or other damage.
■ Never do the following:
● Push the printer into a place that is narrow and poorly ventilated.
● Use the printer on a carpet or blanket.

Do not place heavy objects on the printer.

The object or the printer could loose its balance and tip over or fall, causing injury.

Always grasp the plug itself when unplugging the printer.

Pulling on the cord could damage the cord and cause a fire or electric shock.

Unplug the printer when cleaning it or not used for an extended period.

Unplug the printer for safety.

Request routine inspection and cleaning of the interior of the printer.

Accumulated dust inside the printer can cause fire or other trouble.

- Request your Fuji dealer or authorized Fuji service facility to clean the interior of the printer about once every three years.

Do not move the printer while it is still plugged in.

This could damage the cord and cause a fire or electric shock.

Do not stare for a long time at the light emitting from the printer.

Looking for short periods should not cause any harm, but staring at the light for lengthy periods could result in impaired eyesight.

MISCELLANEOUS NOTE

Installation site

- Do not use or store the printer where the temperature and humidity are high, where vibrations are present, where the printer will be in direct sunlight, where it is dusty or sandy, or where the printer may be exposed to rain.
- If the printer interferes with radio or television reception, install it away from the radio or television set.

Transporting

- Store the original packing material. It is needed when repacking and shipping the printer later.
- When moving the printer, always remove the memory card.

Data

- The memory contents cannot be compensated. If data cannot be written or read due to hardware or software trouble, Fuji film is not responsible for memory contents compensation.

Use

- Do not cover the printer with a cloth or blanket while it is in use. It may cause erroneous operation or a serious accident.
- Use the printer on a firm and flat surface.
- Do not move the printer while it is operating. It may cause trouble.
- Do not subject the printer to shock or vibration while it is operating. It may cause an error or destroy the data.

Safety

- If foreign matter or a liquid gets into the printer, immediately stop use, unplug the power cord, and contact your Fuji dealer or nearest Fuji service facility.

Copyright

- The use of prints other than those created or photographed by you without the permission of the copyright holder is prohibited by copyright law, except when the prints are for personal use.

Cooling Fan Operation

- When the temperature inside the printer rises to a certain level, a cooling fan automatically begins to operate.

  Similarly, when the temperature inside the printer drops below a certain level, the cooling fan automatically stops.

Thermal Head Wear

- The thermal head will wear out, which results in diminished print quality. When this occurs, the thermal head must be replaced. Contact your Fuji dealer.

Condensation

- Note that the following can result in the formation of condensation in the printer:
  - Placing the printer in very humid or steamy locations
  - Moving the printer from a cold outdoor location into a warm room.
  - Moving the printer suddenly from an air-conditioned room into a very warm and humid environment.
- Using the printer when condensation has formed inside the printer can cause faults or abnormal operation, such as impaired image quality, uneven color distribution and paper jams.
- To dispel any condensation inside the printer, plug the printer power cord into a power outlet, turn on the power by pressing the POWER button, and leave the printer for approximately 2 hours. The inside of the printer will warm-up and dry out.

■Specifications subject to change without notice.

IMPORTANT Be sure to read this page before using the Software.

NOTICE

BEFORE OPENING THE PACKAGE OF CD-ROM PROVIDED BY FUJI PHOTO FILM CO., LTD., ("FUJIFILM") PLEASE READ THIS END USER LICENSE AGREEMENT CAREFULLY. ONLY IF YOU DO AGREE TO THIS AGREEMENT, YOU WILL BE ABLE TO USE THE SOFTWARE RECORDED ON THE CD-ROM. BY OPENING THE PACKAGE, YOU ACCEPT AND AGREE TO BE BOUND BY THIS AGREEMENT.

End User License Agreement

This End User License Agreement ("Agreement") is an agreement between Fuji Photo Film Co., Ltd. and you, which sets forth the terms and conditions of the license granted for you to use the software provided by FUJIFILM.
The CD-ROM contains third party software. **In case a separate agreement is provided by a third party supplier for its software, the provisions of such separate agreement shall apply to the use of such third party software, prevailing over those of this Agreement.**

1. Definitions.
   (a) "Media" means the CD-ROM titled "Software for Printpix Digital Photo Printer CX-400" which is provided to you together with this Agreement.
   (b) "Software" means the software which is recorded on Media.
   (c) "Documentation" means the operation manuals of Software and other related written materials which are provided to you together with Media.
   (d) "Product" means Media (including Software) and Documentation collectively.
2. Use of Software.
   FUJIFILM grants to you a nontransferable, nonexclusive license:
   (a) to install one copy of Software onto one computer in binary machine executable form;
   (b) to use Software on the computer onto which Software is installed; and
   (c) to make one backup copy of Software.
3. Restrictions.
   3.1 You shall not distribute, rent, lease or otherwise transfer all or any part of Software, Media or Documentation to any third party without FUJIFILM's prior written consent. You also shall not sublicense, assign or otherwise transfer all or any part of the rights granted to you by FUJIFILM under this Agreement without FUJIFILM's prior written consent.
   3.2 Except as expressly granted by FUJIFILM hereunder, you shall not copy or reproduce all or any part of Software or Documentation.
   3.3 You shall not modify, adapt or translate Software or Documentation. You also shall not alter or remove copyright and other proprietary notices that appear on or in Software or Documentation.
   3.4 You shall not, or shall not have any third party, reverse-engineer, decompile, or disassemble Software.
4. Ownership.
   All copyrights and other proprietary rights to Software and Documentation are owned and retained by FUJIFILM or the third party suppliers as indicated on or in Software or Documentation. Nothing contained herein shall be construed, expressly or implicitly, as transferring or granting any right, license, or title to you other than those explicitly granted under this Agreement.
5. Limited Warranty.
   FUJIFILM warrants to you that Media is free from any defect in material and workmanship under normal use for ninety (90) days from the date of your receipt of Media. Should Media not meet the foregoing warranty, FUJIFILM shall replace such defective Media with other Media bearing no defect. FUJIFILM's entire liability and your sole and exclusive remedy with regard to any defect in Media shall be expressly limited to such FUJIFILM's replacement of Media as provided herein.
6. DISCLAIMER OF WARRANTY.
   EXCEPT AS PROVIDED IN SECTION 5 HEREIN, FUJIFILM PROVIDES PRODUCT "AS IS" AND WITHOUT WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED. FUJIFILM SHALL MAKE NO WARRANTY, EXPRESS, IMPLIED OR STATUTORY, AS TO ANY OTHER MATTERS, INCLUDING, BUT NOT LIMITED TO NON-INFRINGEMENT OF ANY COPYRIGHT, PATENT, TRADE SECRET, OR ANY OTHER PROPRIETARY RIGHTS OF ANY THIRD PARTY, MARCHANTABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE.
7. LIMITATION OF LIABILITY.
   IN NO EVENT SHALL FUJIFILM HAVE ANY LIABILITY FOR ANY GENERAL, SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR OTHER DAMAGES (INCLUDING DAMAGES FOR LOSS OF PROFITS OR LOST SAVINGS) INCURRED FROM THE USE OF OR INABILITY TO USE PRODUCT EVEN IF FUJIFILM HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
8. No export.
   You acknowledge that neither Software nor any part thereof, will be transferred, or exported to any country or used in any manner in violation of any export control laws and regulations to which Software is subject.
9. Termination.
   In case you breach any of the terms and conditions hereof, FUJIFILM may immediately terminate this Agreement without any notice.
10. Term.
    This Agreement is effective until the date when you cease to use Software, unless earlier terminated in accordance with Section 9 hereof.
11. Obligation upon termination.
    Upon termination or expiration of this Agreement, you shall, at your own responsibility and expense, delete or destroy immediately all Software (including its copies), Media and Documentation.
12. Governing Law.
    This Agreement shall be governed by and construed in accordance with laws of Japan.

Do not attempt to play the CD-ROM enclosed with this product on an audio CD player. Doing so could damage your hearing or could damage your speakers or headphones.

Please note that this Guide is written on the assumption that you already have a basic understanding of how to use your PC (personal computer), Windows and Macintosh.
For basic information on using your PC, Windows and Macintosh, refer to the respective manuals supplied with your PC.

Feature/System Configuration

The CX-400 is equipped with a LCD (liquid crystal) monitor. By merely operating the printer in accordance with the directions displayed on the monitor screen, you can enjoy the following:

■ Easily print digital camera picture data!

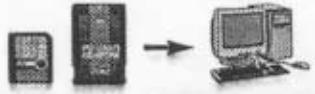
Memory card picture data can be directly printed.
When full-size prints are printed, borderless printing is possible.
When printing, various photo finishing can also be performed.

For more information, see page 10.

■ Connect the CX-400 to a PC and read the memory card data!

The CX-400 can be connected to a PC using a USB cable and the data of SmartMedia or PC card can be read.

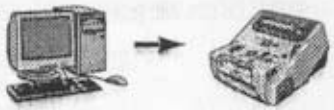
For more information, see page 52.



■ Use as a printer by connecting to a PC!

Use the CX-400 as a printer by connecting it to a PC using a USB cable.

For more information, see page 52.



■ All your family can enjoy pictures by connecting the CX-400 to a television set!

Picture data can be viewed on a big screen by connecting the CX-400 to a television set.

The viewing area may be different from that displayed on the LCD monitor depending on the television set.

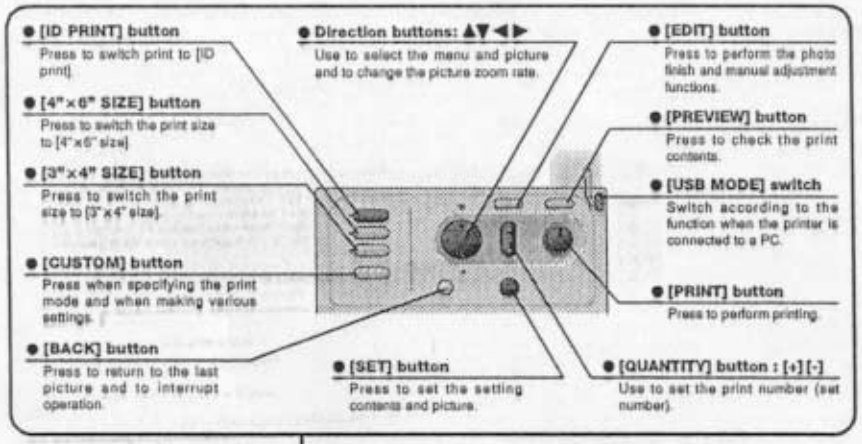
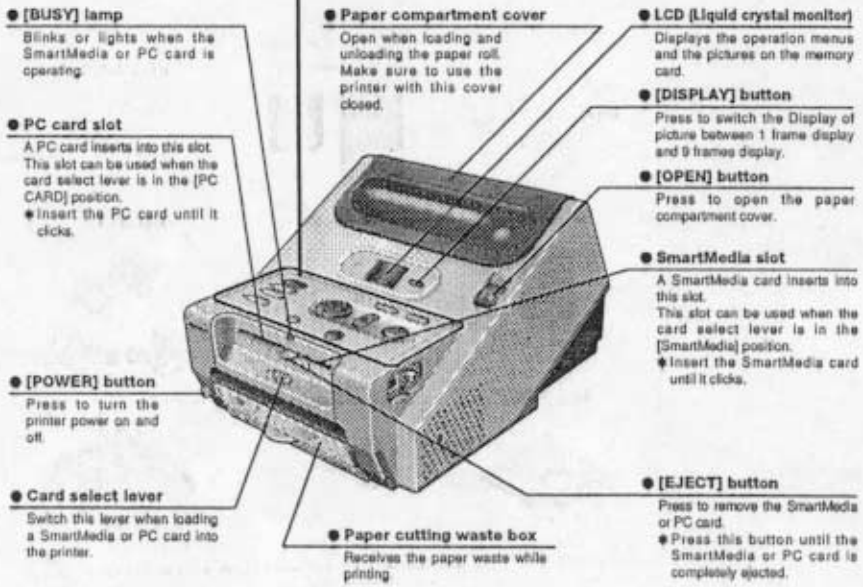
Introduction

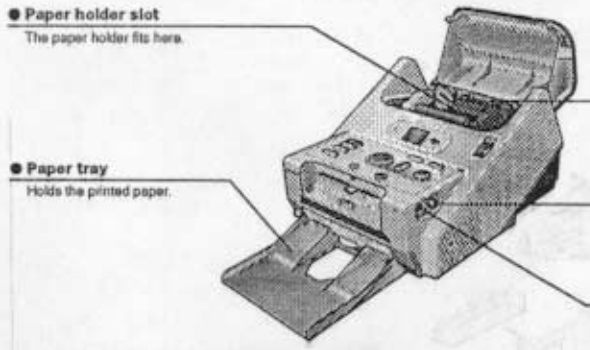
Name and Operation of Each Part



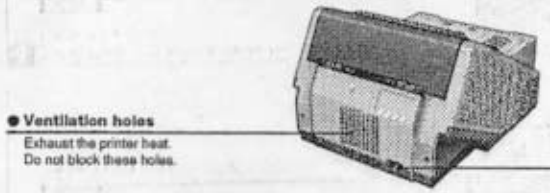
- **[ID PRINT] button** — Press to switch print to [ID print].
- **[4"×6" SIZE] button** — Press to switch the print size to [4"×6" size].
- **[3"×4" SIZE] button** — Press to switch the print size to [3"×4" size].
- **[CUSTOM] button** — Press when specifying the print mode and when making various settings.
- **[BACK] button** — Press to return to the last picture and to interrupt operation.
- **Direction buttons: ▲▼◀▶** — Use to select the menu and picture and to change the picture zoom rate.
- **[SET] button** — Press to set the setting contents and picture.
- **[EDIT] button** — Press to perform the photo finish and manual adjustment functions.
- **[PREVIEW] button** — Press to check the print contents.
- **[USB MODE] switch** — Switch according to the function when the printer is connected to a PC.
- **[PRINT] button** — Press to perform printing.
- **[QUANTITY] button : [+] [-]** — Use to set the print number (set number).



- **[BUSY] lamp** — Blinks or lights when the SmartMedia or PC card is operating.
- **PC card slot** — A PC card inserts into this slot. This slot can be used when the card select lever is in the [PC CARD] position.
  ✱Insert the PC card until it clicks.
- **[POWER] button** — Press to turn the printer power on and off.
- **Card select lever** — Switch this lever when loading a SmartMedia or PC card into the printer.
- **Paper compartment cover** — Open when loading and unloading the paper roll. Make sure to use the printer with this cover closed.
- **Paper cutting waste box** — Receives the paper waste while printing.
- **LCD (Liquid crystal monitor)** — Displays the operation menus and the pictures on the memory card.
- **[DISPLAY] button** — Press to switch the Display of picture between 1 frame display and 9 frames display.
- **[OPEN] button** — Press to open the paper compartment cover.
- **SmartMedia slot** — A SmartMedia card inserts into this slot. This slot can be used when the card select lever is in the [SmartMedia] position.
  ✱Insert the SmartMedia card until it clicks.
- **[EJECT] button** — Press to remove the SmartMedia or PC card.
  ✱Press this button until the SmartMedia or PC card is completely ejected.



- **Paper holder slot** — The paper holder fits here.
- **Paper tray** — Holds the printed paper.
- **Paper alignment position** — Use to align the top edge of the paper when loading the paper.
- **Picture output terminal (video output)** — Connects to a television set using a video cable.
- **USB terminal (PC connection)** — Connects the USB cable (commercial part) when connecting the printer to a PC.



- **Ventilation holes** — Exhaust the printer heat. Do not block these holes.
- **Power input terminal** — Connects the power cable.

■**Screen saver :** This function prevents burning of the LCD monitor screen. When the display does not change within 20 minutes, the monitor enters the screen saver mode. When any button is pressed, the monitor returns to the original window.

■OWNER'S MANUAL symbols

- Note : Precautions to be observed during operation.
- TIP : More suitable usage method and operation points.
- 5++ : Reference page No.
- "○○" : Represents the name of the menu or window displayed on the LCD monitor.
- [○○] : Represents the name of a printer button.

✱ In this manual, "memory card" refers to both SmartMedia and PC card.

PREPARING THE PRINTER FOR USE

Use the printer after checking the accessories (→P.7).

Procuring the necessary materials

Before starting to print, always procure the following items:

Printer

Paper cutting waste box

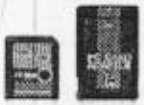
Paper tray

Paper holder

Retaining ring

Paper case

Power cord



Memory card
(SmartMedia™ (PC card))

Paper
(Sold separately)

Usable paper

Usable Digital Photo Paper (Sold separately)

This printer uses roll type paper.

- Photo Type (100mm/4 in. wide)
  This is normal photo type paper.

Note

- Be sure that the paper retaining ring is installed.
- After use, always place the paper into the paper case.
- After using the printer, always place the paper into the paper case and store it while avoiding the following locations:
  - Where it is dry, where the humidity is high, or where it is dusty.
  - In a vehicle in the summer, near heating equipment, and other places where the temperature is high.
  - Near a window or other places where the paper will be exposed to direct sunlight or strong light.
- Paper with the protective bag sealed cannot be stored for a long time. Use it as quickly as possible.
- Do not use paper whose effective date is expired.
- When the paper core knocks/dies after printing, it will flatten naturally if left alone.

Installing the printer

1 Install the printer.
Set the printer on a flat, wide surface.

Note

- Place the printer more than a half so that the ventilation holes are not blocked.
- When the paper is loaded, the front cover opens upward. Therefore, provide a free space of 30cm above the printer.

2 Connect the power cord to the printer.
Connect one end of the accessory power cord to the power input terminal on the back of the printer.

Note

- Do not turn on the printer power yet.

3 Plug the other end of the power cord into a power outlet.

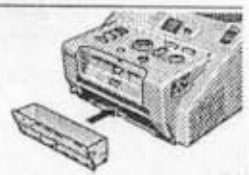
Note

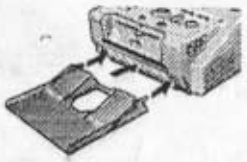
- Do not turn on the printer power yet.

4 Install the paper cutting waste box and paper tray to the printer.

Note

- Always install the paper cutting waste box.
- Do not turn on the printer power yet.





LOAD THE PRINTING PAPER

Place the roll type paper onto the paper holder before loading the paper into the printer.
The printer automatically recognizes the type of paper.

Loading the paper

1 Open the paper compartment cover.
Press the [OPEN] button at the upper right-hand side of the printer.

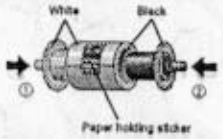
Note
- Do not turn on the printer power yet.

2 Remove the paper holders.

Note
- Do not turn on the printer power yet.

3 Remove the printing paper from the moisture-proof bag and insert the paper holders.
① Insert the white paper holder into the white end of the paper core.
② Insert the black paper holder into the black end of the paper core.

Note
- Do not peel the paper holding sticker from the paper yet.

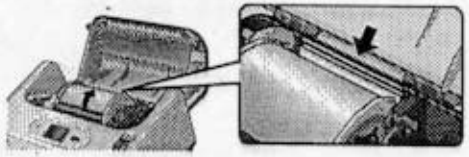


4 Grasp the paper holder knob and place the paper holder into the printer.
Insert the paper holder into the printer from the top and pull it gently to the front.

Note
- Do not peel the paper holding sticker from the paper yet.

5 Peel the paper holding sticker from the paper and adjust the paper position.
Turn the paper in the arrow direction, and align the top edge of the paper to the paper alignment position.

After loading the paper, close the paper compartment cover.

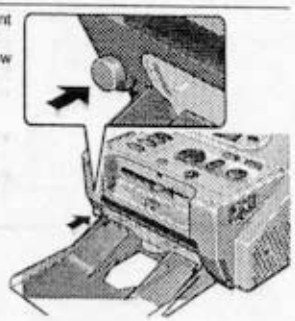


TURN ON THE POWER AND LOAD THE MEMORY CARD

Insert the memory card after turning on the printer power. The CX-400 can print the data of SmartMedia and PC card. Insert the memory card to be used.

Turning on the printer power

1 Press the [POWER] button at the bottom front left-hand corner of the printer.
The printer power comes on and a window appears on the LCD monitor screen.

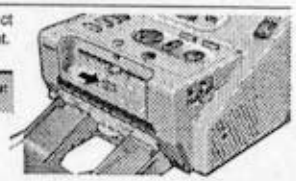


Loading SmartMedia™

Usable SmartMedia
Capacity: 2MB, 4MB, 8MB, 16MB, 32MB, 64MB, 128MB
Voltage: 3.3V
- The printer will not allow 5V SmartMedia cards to be inserted into the SmartMedia slot. Use a PC card adapter.
- Use a digital camera to format the SmartMedia.

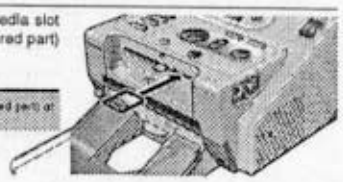
1 Select SmartMedia by sliding the card select lever at the front center of the printer to the right.

Note
- SmartMedia and PC card cannot be loaded into the printer at the same time.



2 Insert the SmartMedia into the SmartMedia slot with the power supply section (gold-colored part) upwards and push it in until it clicks.

Note
- Do not touch the power supply section (gold-colored part) of the SmartMedia card.



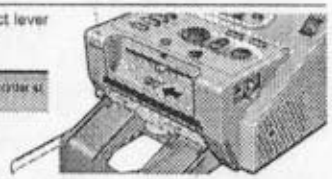
Loading a PC card

Usable PC cards

Always use a PC card corresponding to PCMCIA TYPE I/II Standard compliant ATA.
The following cards are automatically recognized.
Various memory cards can be used by using a PC card adapter matched to the memory card.

- Microdrive only PC card adapter (IBM, MELCO, FUJIFILM)
- PC card adapter (MAC-PC2 for memory stick (SONY)
- PC card adapter for CompactFlash (CONTEX)
- PC card adapter for SD card (MATSUSHITA ELECTRIC)
- PC card adapter PC-AD3 for SmartMedia (FUJIFILM)

* Use a FD is format SmartMedia.
- Windows 98/98 SE/Me: Normal format
- Windows XP: FAT
- Macintosh: DOS format

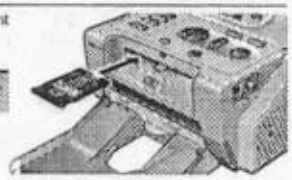


1 Select [PC card] by sliding the card select lever at the front center of the printer to the left.

Note
- SmartMedia and PC card cannot be loaded into the printer at the same time.

2 Insert the PC card fully into the slot with the front of the card facing upward.

Note
- When using a PC card adapter, install the memory card to the adapter in advance.



■ The following files cannot be printed in the full print and multi print modes:

Destroyed file
Files of supportable format, but since the picture was destroyed, they cannot be displayed.
Supportable formats : Page 98 (Specifications)

Unknown file
File other than supportable format.
Cannot be displayed.
Supportable formats : Page 98 (Specifications)

Voice file
Cannot be printed.

Picture file with voice memory
Can be printed.

Picture file (AVI)
Cannot be printed.

PRINT ALL PICTURES (→P.21):
The number of prints is counted for files that cannot be printed, but the files are not printed.

INDEX PRINT (→P.27):
Icons are printed depending on the kind of picture. See page 27.

SELECTING THE PHOTOGRAPHS AND PRINTING

Select the picture to be printed

1 When a memory card is loaded, the "Frame Select Setting" window is displayed. Use ▲▼ to select "Each Frame", and press the [SET] button.

Select

EACH FRAME:
The pictures on the memory card are displayed on the monitor screen one frame at a time. Each frame can be selected.

ALL FRAMES:
The pictures on the memory card are displayed on the monitor screen in batches of 9 frames each. All the frames can be selected (→P.20).

TIP
- When there is DPOF data, pictures are printed in accordance with the DPOF data (→P.36).

2 The "Selection of picture" window is displayed. Use ◀▶ to select the picture you want to print.

TIP
- When ◀▶ is pressed for 2 seconds or longer during 1 frame display, the pictures are rapidly scrolled.

TIP
- When the LCD monitor is difficult to view, adjust the brightness by pressing the [DISPLAY] button two consecutive times.

Setting the print quantity

1 Use the [QUANTITY] [+] [-] buttons to set the print quantity.
After setting the print quantity, press the [SET] button.

TIP
- You can specify any number of pictures to be printed. If you want to print more pictures, select consecutive pictures and set print quantity.

TIP
- To cancel the number of prints (number of sets), press the [BACK] button.

Printing

Note: Do not touch the paper cutting waste box while printing.

1 Press the [PREVIEW] button and check the pictures to be printed and the number of prints.
If the preview contents are correct, press the [PRINT] button.

The Printing window is displayed and printing is started. At the end of printing, the paper is ejected from the printer. Printing finished window (window related to the print number setting and the format of photo finishing setting) is displayed.

Note
- Do not touch the paper while printing.
- Do not remove the memory card while printing.
- Do not touch the paper cutting waste box while printing.
- The print settings remain until the memory card is removed.
- When an error window is displayed, refer to page 40 to 44.

TIP
- When ◀▶ is pressed when multiple pictures were selected, only the picture being printed is displayed.
- To halt printing during multi-picture printing, press the [BACK] button.

AT THE END OF PRITNING

Removing and storing the printing paper.

Removing the memory card

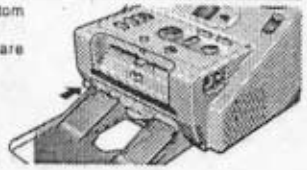
1 Press the [EJECT] button and remove the memory card.

Note

- Do not remove the memory card while the [BUSY] lamp is lit or blinking.
- Do not touch the power supply section (gold colored part) of the SmartMedia card.
- When using a PC card adapter, always remove it by pressing the [EJECT] button. (Do not remove only the memory card in the PC card adapter.)

Turning off the printer power

1 Press the [POWER] button at the front bottom left-hand corner of the printer.
The LCD monitor and the printer power are turned off.



Removing and storing the paper

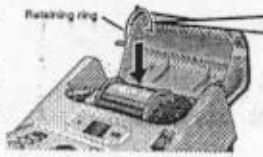
Remove the paper from the printer and store it in the paper case.
When the paper is not in use, always store it in the paper case.

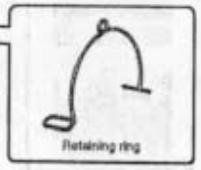
1 Press the [OPEN] button at the top right-hand side of the printer.
Open the paper compartment cover.

2 Installing the retaining ring to the paper.
Install the retaining ring by pressing it firmly onto the paper so that it will not become detached.

Note

- Always use the retaining ring to prevent the paper from becoming loose. If the retaining ring is not used, the paper will come loose and create jamming the next time the printer is used.
- Do not remove the paper holder yet.

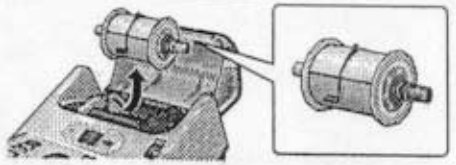




3 Grasp the paper holder knob and remove the holder from the printer.
Remove the paper holder after gently pushing it to the back.

Note

- Be sure the retaining ring does not become detached from the paper.



4 Remove the printing paper from the paper holders.

① Remove the black paper holder.
② Remove the white paper holder.

Note

- Be sure the retaining ring does not become detached from the paper.

TIP

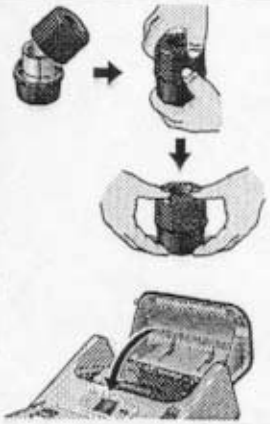
- Leave the paper holder in the printer in preparation for the next use.

5 Store the paper in the paper case.
Completely close the cover of the paper case and store it in a cool, dark place.

Note

- Be sure that the paper retaining ring is installed.
- After use, always place the paper into the paper case.
- After using the printer, always place the paper into the paper case and store it while avoiding the following locations:
  - Where it is dry, where the humidity is high, or where it is dusty.
  - In a vehicle in the summer, near heating equipment, and other places where the temperature is high.
  - Near a window or other places where the paper will be exposed to direct sunlight or strong light.
- Paper with the protective bag sealed cannot be stored for a long time. Use it as quickly as possible.
- Do not use paper whose effective date is expired.

After removing the paper, close the printer paper compartment cover.



TIP

- Empty the scraps in the paper cutting waste box in preparation for the next use.

* Close the cover of the paper case completely.

6 From the second printing, remove the retaining ring after loading the paper into the printer.

This completes the basic operation.
To enjoy various printing, refer to page 18 to page 39.

DISPLAY OF PICTURE SWITCHING/PRINT SIZE SETTING

Display of picture switching/Print size setting
This section introduces the Display of picture switching function. Enjoy printing of various sizes using this printer.

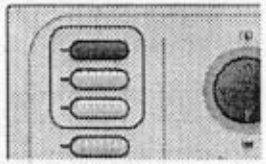
Switching the Display of picture

When the [DISPLAY] button is pressed, the Display of picture is switched to 1 frame or 9 frames.

Setting print size by printer button

1 The print size can be changed by pressing the printer buttons.

Button	Photo Type 100mm wide (Units mm/inch)
4"×6" Size	100mm×148mm/4 in.×6 in.
3"×4" Size	100mm×74mm/3 in.×4 in.
4"×7" Size	100mm×178mm/4 in.×7 in.



Setting print size by window operation

Various print sizes can be set by window operation.

1 Load the paper and memory card into the printer, and press the [CUSTOM] button at the top of the printer.
Use ▲▼ to select the preferred print mode, and press the [SET] button.

2 The set print mode window is displayed.
Use ▲▼ to select "SIZE", and press the [SET] button.

Select

Note
- The items that are displayed vary depending on the print mode

3 Use ▲▼ to select the preferred print size, and press the [SET] button.

Note
- The items that are displayed vary depending on the print mode and the type of paper loaded into the printer

Type of Paper	Print Size (Units mm/inch)	
Photo Type	4" x 6" Size	100mm x 148mm/3.9 in. x 5.8 in.
	3" x 4" Size	100mm x 74mm/3.9 in. x 2.9 in.
	CD Jacket Size	100mm x 120mm/3.9 in. x 4.7 in.
	Digital Camera Size 3:4	100mm x 133mm/3.9 in. x 5.2 in. 100mm x 148mm/3.9 in. x 5.8 in.
	4" x 7" Size	100mm x 178mm/3.9 in. x 7.0 in.

Note
- When the selected picture is to be photo finished, the message "Format setting of photo finishing." is displayed.

4 The display returns to the Set print window.
Select "Finish with print mode setting" and press the [SET] button. The Selection of picture window of each mode is displayed.

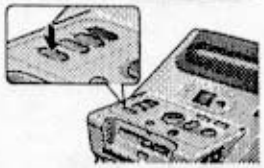
Note
- The items that are displayed vary depending on the print mode

Select

ALL PICTURES PRINT

Print setting

1 Load the paper and memory card into the printer, and press the [CUSTOM] button at the top of the printer.



2 Use ▲▼ to select "FULL", and press the [SET] button.

Select

3 Use ▲▼ to select "SELECT FRAME", and press the [SET] button.

Select

4 Use ▲▼ to select "ALL FRAMES", and press the [SET] button.

Select

5 Use ▲▼ to select "FINISH WITH PRINT MODE SETTING", and press the [SET] button.

Select

Setting print sets

6 The picture (9 frame) is displayed. Use ◀▶ to select the picture in the memory card.

TIP
- When ◀▶ is pressed for 2 seconds or longer during 1 frame display, the pictures are rapidly scrolled.

7 Use the [QUANTITY] [+] [-] buttons to set the print quantity.
After setting the print quantity, press the [SET] button.

8 Press the [PRINT] button.
The Printing window is displayed and printing is started. At the end of printing, the paper is ejected from the printer. Printing finished window (window related to the print number setting and the format of photo finishing setting) is displayed.

Note
- Do not touch the paper while printing.
- Do not remove the memory card while printing.
- Do not touch the paper cutting waste box while printing.
- The print settings remain until the memory card is removed.
- When an error window is displayed, refer to page 45 to 46.

TIP
- To halt printing while printing multiple prints, press the [BACK] button.

■ Cancelling the print quantity (set number)
When the [BACK] button is pressed at the "AFTER PRINT QUANTITY SETTING" window, the "SET QUANTITY" window is displayed.
Use ▲▼ to the select the desired item, and press the [SET] button.
ALL FRAMES: Switches from the Each frame to the All frames mode.
EACH FRAME: Switches from the All frames to the Each frame mode.
CANCEL THIS FRAME: Cancels the selected frame from the specification.
CANSEL ALL FRAMES: Cancels all the frames from the specification.
NUMBER OF SETS IS 1 SET: Makes the number of sets to be printed 1 set.

Note
- When the print number is canceled, the finish photo settings are also cancelled.

MULTIPLE PRINT

[Multiple print] prints the selected number of frames (2UP, 4UP, 9UP, 17UP, 25UP) on one sheet of paper. When the print size is [3" × 4" Size], only 2UP and 4UP multiple printing are possible.

Setting multiple print

1 Load the paper and memory card into the printer, and press the [CUSTOM] button at the top of the printer.
Use ▲▼ to select "MULTIPLE", and press the [SET] button.

Select

2 Use ▲▼ to select "MULTIPLE", and press the [SET] button.

Note
- "BORDER" cannot be set in the multiple print mode. Pictures are printed with a border.

Select

3 Use ▲▼ to select the preferred number of frames, and press the [SET] button.

Note
- At this time, the number of frames cannot be selected to ①.

4 Use ▲▼ to select "PICTURE", and press the [SET] button.

Select

5 Use ▲▼ to select the preferred picture arrangement type, and press the [SET] button.

The following steps vary depending on the picture arrangement type. See the next page.

The following steps vary depending on the picture arrangement type.

"Same picture": Prints the same picture at all frames. (Page 23)

DPOF PRINT

"DPOF print" prints according to the DPOF information on the memory card. DPOF print can be performed by loading the paper and a memory card containing DPOF data.

DPOF print

1 When there is DPOF information on the memory card, the "Define DPOF print" window is displayed.

Note

- The DPOF settings on the memory card cannot be changed with this printer. The DPOF information on the memory card can only be checked either.
- "DCIM" is print specification.

When performing DPOF print:
Press the [PRINT] button.

When there is DPOF information not corresponding to the printer, a message is displayed.

Note

- Do not touch the paper while printing.
- Do not remove the memory card while printing.
- Do not touch the paper cutting waste box while printing.
- The print settings remain until the memory card is removed.

When not performing DPOF print:
When the [BACK] button is pressed, the printer advances to normal printing operation. (Step **1** on page 15.)

FINISH PHOTO/PICTURE QUARITY

Enjoy picture finishing using such functions as [ZOOM RATE/MOVE POSITION] that magnifies the picture, [ROTATE] that changes the direction (vertical, horizontal) of the picture, and [EFFECT] that changes the picture to sepia or monochrome.

Setting the finish photo menu

1 Select the picture to be finished in each mode, and press the [EDIT] button.
The "Finish photo menu" window is displayed.
Use ▲▼ to select the preferred picture finish, and press the [SET] button.

ZOOM RATE/MOVE POSITION:
Magnifies the picture and adjusts its position. This function prints the picture so that the parts you do not want to see are cropped. (Page 35)

ROTATE:
This function sets the direction (vertical, horizontal) of the picture in 90o steps. (Page 36)

EFFECT:
This function let's you enjoy printing with a different atmosphere, such as sepia and monochrome, than the original picture. (Page 36)

CANCEL EDIT:
This function formats "Zoom rate/move position", "effect" and other photo finishing.(Page 37).

PRINT QUALITY:
This function allows adjustment of the brightness and density of the color of all the pictures to be printed. Adjusted print quality can also be formatted (Page 37).

Note

- Photo finishing cannot be performed in the [Index print] mode.
- When [ROTATE] is performed after [ZOOM RATE/MOVE POSITION], the [ZOOM RATE/MOVE POSITION] settings are canceled.
- When the number of prints is 0, photo finishing setting can be canceled.
- When finishing is performed, the number of prints of the picture is automatically set to 1.

Zoom rate/move position

1 The "ZOOM" window is displayed.
Use ▲▼ to adjust the picture zoom rate.

▲ [🔍]: Raises the picture zoom rate.

▼ [⊞]: Lowers the picture zoom rate.

After adjusting the zoom rate, press the [DISPLAY] button.

TIP

- For 1 frame display, [Zoom rate/move position] picture finishing can be performed by means of ab at the "Selection of picture" window.
- When you want to return the picture to its state before finishing, press the [BACK] button.

2 The "MOVE" window is displayed.
Use ▲▼◀▶ to adjust the part you want to print.
After adjustment, press the [SET] button.
A picture with ✛ is displayed.

POINT

- When you want to return to the picture to its state before finishing, press the [BACK] button.
