### Specification

BT-300 can make and answer calls hands-free with your compatible mobile phone and listen to music from a compatible music player, but they should be within 10 meter(33 feet) of each other.

The headset is compliant with the bluetooth Specification 2.1 + EDR support the following profiles. Headset Profile(HSP)V1.2, Hands-Free Profile(HFP)V1.5, Advanced Audio Distribution Profile(A2DP)V1.2, and Audio Video Remote Control Profile(AVRCP)V1.0.

### Keys and parts

The headset contains the following parts:

1. Indicator lights
2. Charger connector
3. Volume key
4. Forward key
5. Play / Pause key
6. Multifunction key
7. Rewind key
8. Microphone

Before using the headset, you must charge the battery and pair the headset with compatible device.

### Charge the battery

The headset contains the following parts:

1. Connect the charger to a wall outlet.
2. Connect the charger cable to the charger connector.  
The red indicator light is displayed during charging.
3. When the battery is fully charged, the green indicator light is displayed. Disconnect the charger from the headset, then from the wall outlet.  
The fully charged battery has power for up to 7 hours and 30 minutes of talk time, up to 90 hours of standby time, or up to 7 hours and 30 minutes of music playing time.

Warning: 1. Attention should be drawn to the environmental aspects of battery disposal.

2. Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

### Switch on

To switch on, press and hold the multifunction key about 2 seconds. The headset beeps, and the green indicator light is briefly displayed.

When the headset tries to connect to the last used phone or music player, the green indicator light flashes slowly. When the headset is connected to a device and is ready for use, the blue indicator light flashes slowly. If the headset has not been paired with a device, it automatically enters the pairing mode.

### Switch off

To switch off, press and hold the multifunction key for about 3 seconds. The headset beeps, and the red indicator light is briefly displayed. If the headset is not connected to a device within 10 minutes, it switches off automatically.

## Pairing

1. Ensure that your phone or music player is switched on.
2. To pair the headset if it has not been previously paired with a device, switch on the headset. The headset enters the pairing mode, and the blue indicator light starts to flash quickly.  
To pair the headset if it has been previously paired with another device, ensure that the headset is switched off, and press and hold the multifunction key (for about 5 seconds) until the blue indicator light starts to flash quickly.
3. Activate the Bluetooth feature on your phone or music player, and set it to search for Bluetooth devices.
4. Select "BT-300" from the list of found devices on your phone or music player.
5. Enter the passcode 0000 to pair and connect the headset to your device.

## Disconnect the headset

To disconnect the headset from your device, switch off the headset, or disconnect it in Bluetooth menu of your device.

## Reconnect the headset

To connect the headset to the phone or music player that you have last used with it, switch on the headset, or make the connection in the Bluetooth menu of your device.

## Adjust the volume

To adjust the headset volume, press the volume up or down key during a call or while listening to music. To adjust the volume quickly, press and hold either key.

Warning: Excessive sound pressure from earphones and headphones can cause hearing loss.

## Calls

To make a call, use your mobile phone in the normal way when the headset is connected to it.

To redial the number you last called (if your phone supports this feature with the headset), when no call is in progress, short press the multifunction key.

To active voice dialing (if your phone supports this feature with the headset), when no call is in progress, press the multifunction key twice quickly until the phone starts voice dialling, and process as described in the phone user guide.

To answer or end a call, press and hold the multifunction key for about 2 seconds, or use the phone keys.

To reject a call, press the multifunction key twice quickly.

To mute or unmute the microphone during a call, press the play / pause key.

To switch a call from the headset to the connected phone, press and hold the multifunction key for about 2 seconds. To switch the call from the phone to the headset, press and hold the multifunction key for about 2 seconds.

## Listen to music

To listen to music, connect the headset to compatible music player that supports the A2DP Bluetooth profile.

The available music functions depend on your music player.

If you receive or make a call while listening to music, the music is paused until you end the call.

To play a song, select in the music player, and press the play / pause key.

To pause or resume playing, press the play / pause key.

To stop playing, press the play / pause key twice quickly.

To select the next song during playback, press the forward key twice quickly. To select the previous song, press the rewind key twice quickly. To scroll through the current song quickly, press and hold either key.

## Clear settings or reset

To clear the pairing settings from the headset, switch off the headset, and press and hold the multifunction key and the volume down key (for over 8 seconds) until the red, green, and blue indicator lights alternate three times.

To hardward reset the headset, connect the headset to a charger, and both press and the multifunction key and the volume up key.
