FOMA terminal

- Because your FOMA terminal uses wireless transmission, it may not function in locations where it is difficult for radio waves to penetrate, such as tunnels, underground passages and some buildings, in areas where radio waves are weak, or out of service area. Even when you are high up in a tall building or condominium and nothing blocks your view outside, your FOMA terminal may not be able to receive or transmit signals. Also, communication may be interrupted even when the signal meter on your FOMA terminal indicates there are strong radio waves and you are not moving (traveling).
 - Use your FOMA terminal in a way that does not disturb others in public spaces, crowded locations or quiet places.
 - Because your FOMA terminal uses radio waves to communicate, it is possible that a third party may attempt to tap your calls. However, the W-CDMA, GSM/GPRS system automatically applies a confidential communication function to all calls, so even if a third party could somehow tap a call, they only hear noise.
 - Your FOMA terminal encodes voice communication as digital data. When you are operating your FOMA terminal while moving to a location subject to weaker radio wave conditions, the transmitted digital data may not be correctly decoded and as a result the decoded voice may differ somewhat from the actual voice.
 - Maintain a separate record of the data (phonebook, schedule, notepad, recorded messages, voice memos, moving picture memos, etc.) you registered in your FOMA terminal. Note that DOCOMO assumes no responsibility for any loss of saved contents of data resulting from malfunction, repair, changing of the model or other handling of FOMA terminal.
- You are recommended to save important data to microSD card. Using DOCOMO keitai datalink, you can transfer and save phonebook, mail, schedule and other data to a PC.
 - The user hereby agrees that the user shall be solely responsible for the result of the use of SSL/TLS. Neither DOCOMO nor the certifier as listed herein makes any representation and warranty as for the security in the use of SSL/TLS. If the data should be erased, DOCOMO assumes no responsibility for the loss of any data. Certifier : VeriSign Japan K.K., Cybertrust Japan Co., Ltd., GlobalSign K.K., RSA Security Japan Ltd., SECOM Trust Systems Co., Ltd., Comodo CA Ltd., Entrust, Inc.
 - This FOMA terminal supports FOMA Plus-Area and FOMA HIGH-SPEED Area.
 - FOMA terminal can be used only via the FOMA network provided by DOCOMO and DOCOMO's roaming area.

What you can do with F-04B

Style-flexible, Separatable Keitai

8

This FOMA terminal is separatable and you can choose the usage style according to the scene, for example, using only with display unit or calling with keypad unit while watching 1Seg, receiving mails, viewing sites, checking schedule, etc. with display unit. Furthermore, making videophone call without emitting sound from speaker and using keypad unit as remote controlled shutter when shooting camera are available. You can even enter characters with QWERTY keypad and perform i-αpli lightly in game mode.

AUTO-GPS

96

AUTO-GPS function allows you to use convenient services that deliver such information as weather, neighboring shops, sightseeing, etc. around your location.

使いかたガイド (Guide)

30

It is convenient function to check operations of function on FOMA terminal. You can check it immediately without Instruction manual at hand. (In Japanese only)

i-concier

117

A character on stand-by display (Machi-chara) delivers useful information (Information) and a schedule is automatically downloaded from sites (i-schedule) so that you can use the service for your convenience. (In Japanese only)

International Roaming (WORLD WING)

73

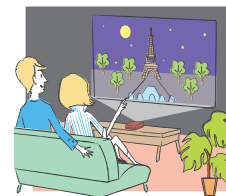

While staying overseas, you can use the same FOMA terminal, phone number and mail address as those used in Japan (3G/GSM Areas are supported).

Projector unit

144

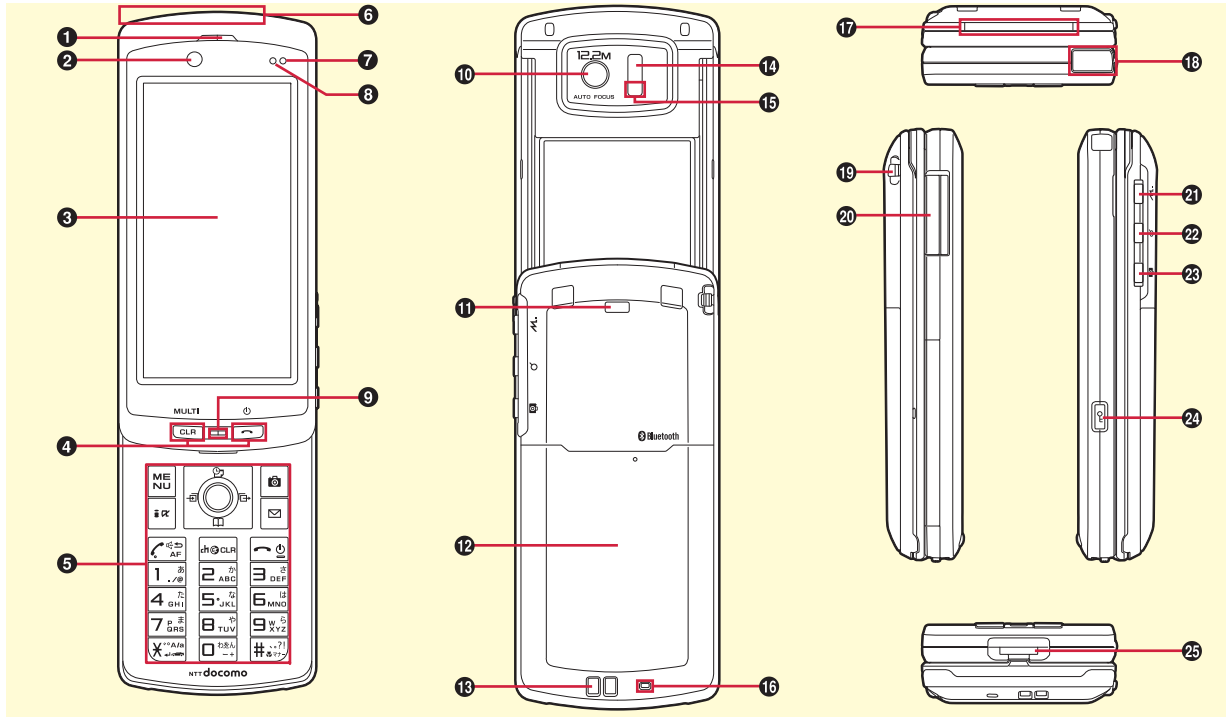

By using Projector unit F01 (optional), 1Seg, i-αpli, images, document data, etc. can be projected widely.

Part names and functions

Part names of F-04B and major functions assigned to each part are as follows.

Introduction

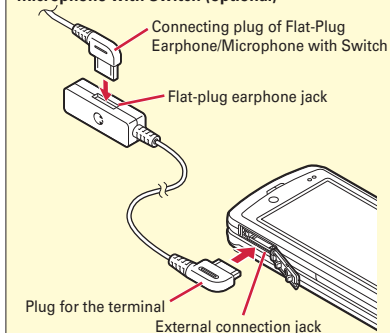

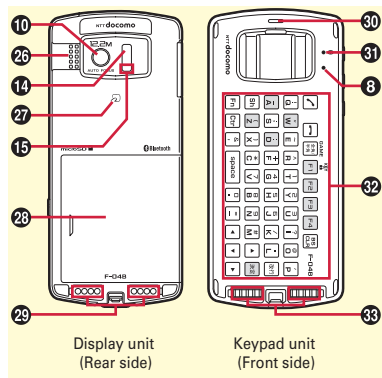

- 1 Earpiece**
Hear other party's voice from here.
- 2 In-camera**
Send your image via videophone.
- 3 Display (touch panel) ⇒P26, 29**
- 4 Front keypad⇒P6**
- 5 Numeric keypad⇒P6**
- 6 FOMA antenna (built into FOMA terminal)**
For a call in better conditions, do not cover the antenna with your hand.
- 7 Light sensor**
Sense the ambient luminance to automatically adjust the brightness of the display. Do not cover the sensor with your hand or a sticker.
- 8 Indicator light**
The indicator light turns on or blinks when there is any incoming call, mail or during a call.
- 9 Microphone**
Send your voice from here. Do not cover the microphone during a call or sound recording.
- 10 Out-camera**
Shoot still images or moving pictures.
- 11 Light**
Use as camera light.
- 12 Back cover (keypad unit)**
- 13 Charging jack**

- 14 Infrared data port**
Use the port for infrared communication or infrared remote control function.
- 15 Shooting indication light**
The light turns on when camera shooting.
- 16 Microphone (keypad unit)**
Send your voice from here when talking with keypad unit.
- 17 Arch light⇒P27**
It turns on or blinks when detaching/ attaching unit, charging or checking battery level of keypad unit.
- 18 1Seg antenna**
Pull out for better signal reception when watching 1Seg.
- 19 Strap opening**
- 20 External connection jack**
Available to connect an optional AC adapter, DC adapter, FOMA USB Cable with Charge Function, Earphone Plug Adapter for External connector terminal etc.
- 21 i-Widget/TV key**
Start/Exit i-Widget or start 1Seg.
- 22 Search key**
Start Quick search.
- 23 Camera key**
Start/Stop camera shooting, save still image on 1Seg, or stop ring alert.

- 24 Lock key**
Activate Operation lock or turn off the screen.
- 25 Separating button**
Press the button when detaching unit.

Example of connecting Flat-Plug Earphone/ Microphone with Switch (optional)

Display unit
(Rear side)Keypad unit
(Front side)**26 Speaker**

Hear ring alert or voice of the caller using the handsfree function.

27 Mark

Use Osaifu-Keitai or send/receive data by iC transmission.

28 Back cover (display unit)

* To access the UIM slot and microSD card slot, remove the back cover and then remove the battery pack.

29 Attaching terminal (display unit)

For attaching keypad unit or Projector unit F01 (optional)

30 Earpiece (keypad unit)

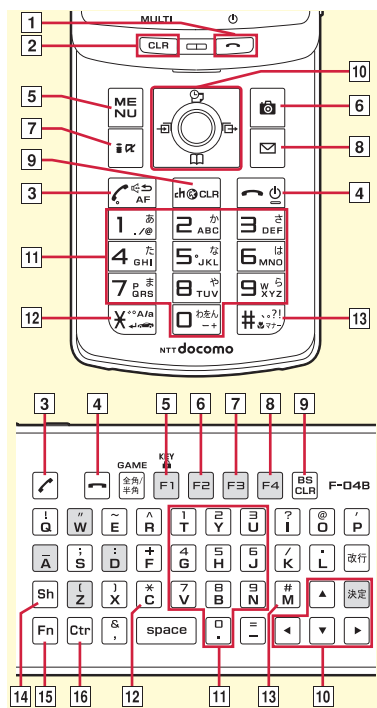

Hear other party's voice from here when talking with keypad unit.

31 Bluetooth light

Check Bluetooth connection status on the unit.

32 QWERTY keypad⇒P6**33 Attaching terminal (keypad unit)**

For attaching display unit

Front/Numeric/QWERTY keypads

1 

Turn ON/OFF FOMA terminal, or exit an operating function.

2 

Return to the previous screen or activate/perform other function.

3  **(Start a voice call key)** / 

Start a voice call.

4  **(Power/End key)** / 

End talking or exit an operating function.
Use  to turn ON/OFF the power.

5  **(MENU key)** / 

Display a menu.  to activate QWERTY keypad lock.

6  **(Camera key)** / 

Shoot still images or moving pictures.

7  **(i-mode/i-appli/Character key)** / 

Display i-mode menu or i-appli folder, or switch character input modes.

8  **(Mail key)** / 

Display the mail menu.

9  **(ch/Clear key)** / 

Display i-Channel or return to the previous screen.

10  **(Multi-cursor key)** / 

Move the cursor, or operate a menu.

 /  : Perform an operation.

 /  : Display Scheduler or adjust sound volume.

 /  : Display Phonebook or adjust sound volume.

 /  : Display Received calls.

 /  : Display Redial.

11  **(Keypads)** / 

Enter phone number or characters, or select an item.

12  **(*/Public mode (Drive mode) key)** / 

Enter "*" or start/cancel Public mode (Drive mode). Use  to add voiced/semi-voiced sound mark.

13  **(#/Silent mode key)** / 

Enter "#" or start/cancel Silent mode.
Use  to enter punctuation.

14 

Press an alphabet key or  at the same time to enter capitalized character or select range.

15 

Press an alphabet key or a symbol key at the same time to enter symbol or number indicated on upper section.

16 

Press a specified key at the same time to activate a function.

Usage Styles

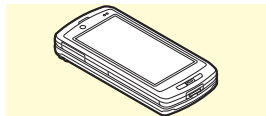

You can use FOMA terminal in three styles.

- Unless otherwise noted, operations in slide style are explained in this manual.
- The terminal supports motion sensor in basic style and separated style. ⇒P25

❖ Basic style

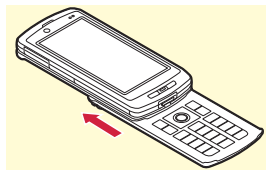

Touch operation is available with FOMA terminal closed.

- * Only in-camera is available to shoot still image/moving picture. To shoot with out-camera, change the style.

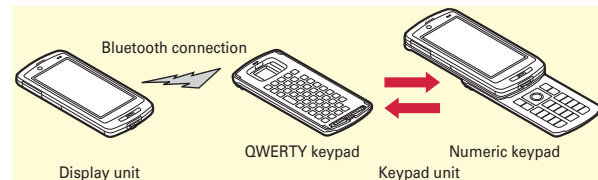

❖ Slide style

Numeric keypad operation and touch operation are available with FOMA terminal opened.

❖ Separated style

Separate FOMA terminal into display unit and keypad unit (⇒P20) and then operate the terminal with keypad unit via Bluetooth communication or use only display unit. While talking with keypad unit, watching 1Seg, sending/receiving mail, viewing sites, etc. are available with display unit. When keypad unit is closed, entering characters in Roman letters or operating i-αppli in game mode are available with QWERTY keypad.

- * Use Osaifu-Keitai or perform iC communication in this style. ⇒P116、 127

Point

- Do not apply excessive force when opening/closing the terminal or detaching/attaching unit, or opening/closing keypad unit. It may cause damages on keypad or display.
- Before carrying FOMA terminal, activate Operation lock or QWERTY keypad lock to prevent inadvertent operations or to save battery power consumption.
- Vibrator operates in display unit. Please be careful not to drop the terminal from a desk etc. by vibration.
