FUJITSU Scanner Control SDK Request Form (fi Series)

Thank you for your interest in the fi Series TWAIN SDK. The SDK is free of charge. As we want to make sure you are successful in your implementation, please take the time to fill out this form. There are many reasons to use the OCX SDK including branding, barcode recognition, patch code recognition, fast development times. As our SDK focuses on scanning, you may still wish to use some additional third party software like LeadTools for thumb nails, trees, OCR, specialized file output. Our SDK only works with Fujitsu Scanners. For ISIS development, please use standard ISIS tools.

All information provided below is confidential.

We want to have a close relationship with you to make sure that our products evolve to fit your needs with either easier customization. Again, we are glad to help you get the most out of our Scanners.

1. **Which fi Series Scanners do you currently own? We request you have at least one current model.**

--

2. **Are you looking for the development kit for the fi Series Scanners, Network Scanner, or ScanSnap?**

fi Series Network Scanner ScanSnap

3. **What are your target Countries?**

--

4. **Do you have engineers who know C++ or C#?**

YES NO IN-TRAINING OUTSOURCED

5. **How many scanners do you plan to attach to over the next year?**

Number of Scanners
