背面

Installation

- 1 Switch the ON/OFF button to OFF and open the battery cover.

- 2 Insert one AAA battery as the diagram on the battery tray indicates. Close the battery cover.

- 3 Switch the ON/OFF button to ON.

- 4 Plug the USB receiver into an available USB port on your computer. Press any key to start.

ON/OFF switch

On the bottom of the mouse, there is a ON/OFF switch.
When you are traveling or on a plane or stop using it for a long time, please switch it to OFF to save power. Switch it to ON, you can reuse the mouse.

Set Wireless Connection

The A21G mouse and USB receiver is pre-paired before packing.
you can use it after installing the battery.

- Turn on the computer.
- Plug the USB receiver into an available USB port on your computer.
- Install the battery into the mouse. Press any key to start.

! If your wireless mouse will not pair with the USB receiver, you will need to download the Pairing Software tool to your computer from the Fuhlen website: <http://www.fuhlenstyle.com/download.jsp>, and pair the mouse and receiver according to the instruction.

Finished setting the wireless connection of the mouse, you can enjoy the wireless freedom.

Mouse Feature

Receiver Build-in design

The mouse is with build-in design, when you stop using the nano USB receiver, it can be stored in the bottom of mouse. It is more convenient for storing.

Federal Communications Commission (FCC) Notice:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
