

### MP3xx Wires Assignment

Color	Symbol	I/O	Description
Red	VCC	IN	Power Input: Typical with a 12V supply A linear regulator is recommended .
Black	GND	IN	Power Ground + Singal Ground
Yellow	D1	OUT	Clock (ABA TK2) ; Data 1 (Wiegand)
Blue	D0	OUT	Data (ABA TK2) ; Data 0 (Wiegand)
Green	CP	OUT	Card Present (ABA TK2)
White	RX	IN	RS232 RXD (To Host TXD)
Orange	TX	OUT	RS232 TXD (To Host RXD)
Brown	Boot	IN	Reboot (While this line wired with GND at power on,MP3xx will enter boot phase.)
-	-	-	
-	-	-	

To configure the MP3xx reader you must connect the MP3xx to the PC by RS232C interface using our software.

Remark:

MF700KIT is a kit for MP3xx to connect with PC. It is an optional accessory for purchasing.

#### CAUTION:

The crossed out wheeled bin label that can be found on your product indicates that this product should not be disposed of via the normal household waste stream.

To prevent possible harm to the environment or human health please separate this product from other waste streams to en-sure that it can be recycled in an environmentally sound manner.

For more details on available collection facilities please contact your local government office or the retailer where you purchased this product.

This information only applies to customers in the European Union.

For other countries, please contact your local government to investigate the possibility of recycling your product.

## **Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

***FCC Caution:*** To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
