Drive safely!

Thank you for purchasing an original BlackBerry® accessory. Before you use your BlackBerry accessory, please read the *Safety and Product Information* booklet that is located at www.blackberry.com/go/accessories.

WARNING: Driving a vehicle requires your full attention to road conditions, weather, and vehicular traffic. It is important to set up your BlackBerry Wireless Headset prior to driving. Using this hands-free accessory may cause you to be distracted and may put you, your passengers, and occupants of other vehicles at risk of suffering bodily injury, death and/or loss of property. You should only use the hands-free accessory where permitted by law and when you will not be distracted from the proper operation of your motor vehicle.

Getting started

Components

About the BlackBerry Wireless Headset

The BlackBerry® Wireless Headset is designed to enhance the use of your BlackBerry® device by providing you with hands-free calling using Bluetooth® technology. The headset features independent voice recognition, text-to-speech capabilities, and voice commands. With the headset, you can also listen to audio files on your BlackBerry device. You can pair the headset with two Bluetooth enabled devices at the same time.

The headset is designed to be compatible with BlackBerry micro-USB charging accessories.

The headset is designed to be compatible with third-party Bluetooth enabled devices. For more information, see the documentation that came with your Bluetooth enabled device.

About automatic volume control

When you use the BlackBerry® Wireless Headset for the first time, you can use the volume controls on your BlackBerry device to set the volume to a comfortable listening level. When the noise level of your environment changes, the headset volume is designed to increase or decrease to a comfortable listening level automatically so that you do not have to adjust the volume manually. You can also increase the volume or decrease the volume when your headset is connected to your BlackBerry device by pressing the voice command key and saying "Volume up" or "Volume down."

About using the BlackBerry Wireless Headset with a GPS enabled BlackBerry device

If your BlackBerry® device supports GPS technology and there is a third-party location-based application that is installed on your device that provides driving directions, the BlackBerry® Wireless Headset is designed to announce those directions after you pair it with your device.

For more information about using GPS technology with your BlackBerry® Wireless Headset, visit www.blackberry.com/placeholder.

Turn on or turn off the BlackBerry Wireless Headset

You can use the earpiece and the ear hook together or an earpiece with a stabilizing loop. Choose the components that feel the most comfortable and secure in your ear.

1. Rotate the earpiece until you feel it click into place in the **On** position.

2. Insert the BlackBerry® Wireless Headset into your ear so that the headset points toward your mouth.

3. To turn off the headset, rotate the earpiece in the opposite direction so that the headset points down and you feel it click into place in the **Off** position.

Pairing the BlackBerry Wireless Headset

Connect the BlackBerry Wireless Headset with your BlackBerry device

Before you can connect and pair your BlackBerry® Wireless Headset with your BlackBerry device, Bluetooth® technology on your BlackBerry device must be turned on.

1. On your BlackBerry device, on the Home screen, click the **Manage Connections** icon.
2. Press the **Menu** key.
3. Click **Set Up Bluetooth**.
4. Rotate the earpiece to turn on the headset and insert the headset into your ear.
5. Complete the instructions that you hear through the headset. At any time, say "Continue", "Repeat", or "Cancel."
6. If you receive a prompt for a passkey, on your BlackBerry device, type **0000**.

After you pair your BlackBerry device with your headset for the first time, you can add your headset to the list of **Paired Devices** on your BlackBerry device so that you are not prompted to connect to the headset each time. For more information, click the **Help** icon on the Home screen of your BlackBerry device.

For information about how to pair a third-party Bluetooth enabled device with your headset, see the documentation that came with the Bluetooth enabled device.

About pairing the BlackBerry Wireless Headset with two Bluetooth enabled devices

You can pair the BlackBerry® Wireless Headset with two Bluetooth® enabled devices such as two mobile devices at the same time. The headset transmits audio for only one of the Bluetooth enabled devices at a time. For example, if you are using the headset for a call on your BlackBerry device and you receive a call on another mobile device that you pair with your headset, the second call is not directed to the headset.

Using the BlackBerry Wireless Headset

You can perform the following tasks when your BlackBerry® Wireless Headset is connected with your BlackBerry device and you are not on a call. Press the **Voice command key** and say a voice command.

Action	Voice command
	
List available voice commands	"Help" or "What can I say?"
Open the Options menu	"Options"
Check the battery power level	"Battery"
Prepare to pair your device with the headset	"Pairing mode"
Repeat an instruction	"Repeat"
Turn up the volume	"Volume up"
Turn down the volume	"Volume down"

Call tasks

You can perform the following call tasks when your BlackBerry® Wireless Headset is connected and paired with your BlackBerry device. You can perform the tasks either by pressing the voice command key and using voice commands or by pressing the call control key.

Action	Voice command	Call control key
		
Answer a call	"Answer"	—
Ignore an incoming call	"Ignore"	—
Redial a phone number	"Redial"	Press twice
Make a phone call	"Call <Phone number> or <Contact name>"	Press and hold for 2 seconds
Answer a second call	After the beep, say "Answer"	Press once
Ignore a second call	After the beep, say "Ignore"	Press once
Mute a call	"Mute"	Press once
Turn off mute	"Unmute"	Press once

Music tasks

You can perform the following tasks when your BlackBerry Wireless Headset is paired with your BlackBerry device and you have saved media files to your BlackBerry device.

Action	Voice command
	
Play the next song in a playlist	"Next track"
Play the previous song in a playlist	"Previous track"
Play a media file	"Play"
Pause a song	"Pause"
Resume playing a paused song	"Resume"

Charge the BlackBerry Wireless Headset with a USB cable

Your BlackBerry® Wireless Headset comes partially charged and ready for use.

1. Connect the small end of the micro-USB cable to the charging port on the headset.
2. Connect the larger end of the micro-USB cable to the USB port on a computer.

When the LED flashes red to indicate that the battery power level is low, charge the headset.

Charge the BlackBerry Wireless Headset with a vehicle power adapter

1. Connect the small end of the BlackBerry® Micro-USB Vehicle Power Adapter - 12V to the charging port on the BlackBerry® Wireless Headset.
2. Plug the large end of the vehicle power adapter into your vehicle's power outlet.

Change the earpiece

1. Gently pull off the earpiece at its edges.

2. Replace the earpiece with a new earpiece.

If the new earpiece includes a stabilizing loop, you can remove the ear hook from the BlackBerry® Wireless Headset.

Troubleshooting

I cannot pair the BlackBerry Wireless Headset with my device

You might have accidentally deleted the pairing options that you set for your headset. Complete the steps for connecting and pairing your headset with your BlackBerry® device.

I cannot hear anything when I use my BlackBerry Wireless Headset

Try performing the following actions:

- Turn up the volume on your BlackBerry® device.
- Make sure that your headset is turned on and is connected to your device.

I hear static noise when I use my BlackBerry Wireless Headset

If there are any large objects, such as a wall, between your headset and your BlackBerry® device, the sound quality of the headset might diminish. The headset is designed to be used within 10 meters (33 feet) of your device, without any large objects in between.

Try performing the following actions:

- Move away from any large objects that might cause interference.
- Keep your headset on the same side of your body as your device.

Safety information

Important safety information

This accessory contains either a lithium-polymer or a lithium-ion battery that might present a fire or chemical burn hazard if mistreated. Do not disassemble, attempt to repair, crush, puncture or otherwise misuse the accessory and battery. Keep the accessory and battery away from heat sources. To reduce the risk of fire, electric shock, or malfunction, do not expose this accessory at any time to water, rain, moisture, explosive fumes, or magnets. Keep the accessory out of the reach of children. Follow local regulations for information about the disposal of electronic products and batteries in your area.

This accessory is safe for use with chargers or power adapters that are approved by Research In Motion.

Clean the accessory only with a soft dry cloth.

This accessory transmits radio frequency (RF) signals. RF signals can potentially disrupt medical devices and other equipment. If you have a medical device such as a pacemaker or hearing aid, prior to use of this accessory, consult your physician and the manufacturer of your medical device to determine if this accessory is safe for your use. This accessory has an LED light that flashes as a notifier. If you are susceptible to epileptic seizures or blackouts, consult your physician before using the accessory.

Do not use your BlackBerry device while driving unless you are permitted by law to use the BlackBerry device in hands-free mode. Using your BlackBerry device while driving could put you and others at greater risk of an accident causing serious injury, death, or property loss. Store your BlackBerry device safely before driving your vehicle.

You should not rely on any wireless device for essential communications, including medical emergencies. Emergency numbers may vary by location and emergency calls may be blocked or impeded by network, environmental, or interference issues.

RIM is not responsible for use of this accessory in a manner prohibited by regulations in your area and any consequences arising from misuse. Improper use might invalidate any warranty and might be dangerous.

Caution for the BlackBerry® Visor Mount Speakerphone VM-605: Do not connect this accessory to a computer using a USB cable.
