ASSISTANCE FOR NEW PLAYERS

You don't have to be a pro to make impressive moves when you're out on the pitch. If you're new to *FIFA*, go to **CUSTOMISE > SETTINGS & CONTROLS > CUSTOMISE CONTROLS** to turn on assistance for specific moves. This makes passes and saves easier, without the need for perfect timing or positioning. When you're ready for more of a challenge, choose **SEMI** for less assistance or **MANUAL** to earn every one of your goals without aid.

LEARNING THE BASICS

LEARN TO PLAY

If you're new to the *FIFA* series, select LEARN TO PLAY from the Play panel to get started learning the basics. This is a great place to break in your boots with drills, one-on-one practice, set pieces, and practice matches.

The Basics	Learn specific skills such as ground passes, shooting, dribbling, and defending through drills—the choice is yours. As you meet practice goals, you'll accumulate points toward completing the challenge. You can then choose to retry a challenge for a better score or continue to the next challenge, until you've successfully mastered all four basic skills.
Create Set Piece	Customise your own set piece to practice the skills you most want to master.
Practice Set Piece	Practice a set piece, such as penalty kicks, corner kicks, free kicks, or throw ins. Then adjust settings such as the number of attackers and defenders, which team and side of the pitch you will play as, and the camera angle.
Practice Match	Play a practice match to put your new skills to the test with full teams of players out on the pitch.
One-on-One	Play some one-on-one in a quiet field—just you against the goalkeeper. From the pause menu (START button), you can also choose to practice a set piece, jump into a practice match, create a set piece, or choose to play the other side.

Select Arena Player

Select the arena player you would like to be when you're practicing. After making your choice and returning to the Learn to Play menu, the game auto-saves your selection.

Select Arena Goalkeeper

Select the arena goalkeeper you would like to be when you're defending the net. Your choice will auto-save when you return to the Learn to Play menu.

SKILL GAMES

Practice your moves on the pitch and challenge yourself against the global *FIFA 15* community! Start off with Bronze drills that teach you specific skills, such as ground passing, shooting, defending, crossing, free kicks, and how to defend the net as goalkeeper. Once you complete a drill, you'll unlock a more challenging one in the next level.

Make it through Bronze, Silver, and Gold drills to unlock Skill Challenges, where you can take on a special drill or game to put your new moves to the test. As you rack up points, you'll progress past Amateur Level and can compare yourself to your Friends on the Friends Leaderboard—or even the Global Top 100 players! Do you have the skills to be a World Class level player?

FIFA ULTIMATE TEAM

Create your own Ultimate Team, fine-tune it to perfect Team Chemistry, and try to reach the top of the FIFA Ultimate Team (FUT) leaderboards. Choose Players to build Squads with high Chemistry, buy or sell items on the 24/7 live Transfer Market, and play in a variety of both single-player and online game modes.

GETTING STARTED

When you first start Ultimate Team, you'll learn how to swap and link Players to improve Team Chemistry before playing a starter match. From there, you can start your own Squad and explore the Transfer Market, Pack Store, and your Club.

CHEMISTRY

Chemistry is at the core of what makes your Ultimate Team successful. Having a team of star Players can help you shine on the pitch, but your Squad must also have the right Chemistry to allow you to maximize its performance. The higher your Chemistry, the better your team performs during matches—and that means a better chance at winning games.

Your team's Chemistry Rating appears in the upper right corner when viewing your Active Squad. Placing players in their preferred positions can improve Chemistry. You should also encourage stronger Chemistry by matching Nationality, League, and Club Chemistry—green lines indicate strong links between Players.

Swap your players around on the Active Squad screen and add new ones from your Club or the Transfer Market to find the ideal balance for your team!

CHEMISTRY STYLES

Every player in Ultimate Team has a Chemistry Style. This affects which attributes will be improved based on the Player's Chemistry Rating. Arrows appear beside the attributes that a specific Chemistry Style affects, and as you start building up Chemistry, they will turn from white to green.

To get the most out of your Squad, you can apply new Styles to Players to upgrade different attributes and, in turn, the team's overall tactics. The effects remain on a Player until a new Style is applied. You can find these Styles in Packs and on the Transfer Market.

CONTRACTS

Before players can excel out on the pitch, they need Contracts to play matches. When viewing your Active Squad, highlight a Player and access the Actions menu, then select APPLY CONSUMABLE to apply a Contract to a Player. Move the right stick to switch to the status view, which shows the amount of remaining Contracts for every player.

To give you a head start, the Players from your Starter Pack will come with special long-term Contracts (45 matches). All Players found in Packs start with seven Contracts, and each match they play reduces the number of Contracts by one. If a Player is in your subs or reserves but doesn't head onto the pitch at all, he does not lose a Contract for that match.

MATCHES, TOURNAMENTS, AND SEASONS

Challenge your team and reap the rewards in Matches, Tournaments, and Seasons.

Tournament matches are always single-round knockout matches, and can be played online or as single-player games. Win matches to earn Coins, or take your team to the top and win a Tournament to gain Trophies, Coins, and sometimes even Packs.

Seasons consist of 10 games, playable Online or in Single Player mode. Try to make it through and win the Season or gain promotion! In this mode, the promotion, hold, and relegation system means that losing a match doesn't eliminate your team from the season, giving you the opportunity to bounce back from defeats.

Friendly Seasons allows you to challenge your Friends in a five-match season format. Keep track of your record and other stats against every one of your Friends, and win seasons to earn the Current Title Holder position and the bragging rights that come with it.

TRANSFER MARKET

The Transfer Market is the hub for purchasing, listing, and selling items. Here, you can find new Players to increase your Squad's overall rating and Chemistry Rating. If you're looking for a new Player, use the search filters such as Quality, Position, Chemistry Style, and Pricing to quickly find the ideal footballer to complement your Active Squad.

SEARCH BY NAME

If you want to search for a specific Player to fill out your Squad, use the first option in Player Search to type in his first or last name. This lets you easily select the Player you want based on the search results that appear.

CONCEPT SQUADS

Concept Squads is a powerful new Squad Planning tool that lets you put together Squads using every Player available in FUT.

To use Concept Squads, select a Player or empty slot in the Active Squad screen, and then access the Actions menu to choose SWAP/ADD PLAYER. Use Concept Squads to plan out your next moves. Find replacements for a Player, test out the Chemistry of an entirely new midfield, or try a whole new Squad before investing in the Transfer Market.

LOAN PLAYERS

Loan Players are Players that you can sign to your Squad for a limited number of matches, allowing you to try out some of the most highly sought after Players in the game. When you first create your club in FUT 15, you'll be given the opportunity to sign one Loan Player for free. More Loan Players are available in the Football Club Catalogue.

PACK STORE

Purchase Packs from the store to find new Players for your Squad. You'll also sometimes earn Packs from winning Tournaments or as a special reward at the end of a Season.

MY CLUB

As you gain new players through the Transfer Market and from Packs you have purchased or won, you will have more than enough for one Squad. My Club contains all of the Players not in your current Squad, as well as your Consumables and other Items.

LEADERBOARDS

Check out the leaderboards to compare yourself to your friends or the top 100 FUT users across the globe as you build your Ultimate Team, play Tournaments and Seasons, and grow your Club.

TOURNAMENT

Play an official league or tournament, or create a tournament and play matches to see who wins your fictional cup. Choose how many teams will participate and set the rules and fixtures to fine-tune the events.

Once you get started, you can play matches or simulate them. A screen with a calendar, team statistics, match results, records, and tournament brackets keeps you up to date as teams compete in hopes of becoming the tournament victors.

BE A PRO

Play to win and bring the crowd to its feet in Be A Pro mode. You can take control of a specific player or goalkeeper on the field and follow all the action with the player-focused 3rd Person Cam. Select BE A PRO PLAYER or BE A PRO GOALKEEPER from Play panel to get started.

NOTE: The 3rd Person Cam is only available when playing as a single player in Be A Pro modes. When playing with your Friends, the normal Be A Pro camera is used.

BE A PRO PLAYER CONTROLS

If you're going to play as a pro, you've got to think like one. When your team is on the attack, time your runs and call for the ball at the right time. When defending, ensure you cover any dangers posed by your opponents. Teamwork is everything in football, and communication with your teammates is the key to success. Wherever you are on the field, make sure you use the following controls to increase your chances of victory.

INDICATORS

Be A Pro Player provides many of the same challenges faced by real players. Use the indicators provided to ensure you're in the best position on the pitch.

POSITIONING

Knowing where to be on the pitch at any given moment is a must, whatever position you've adopted. In order to improve your positional sense, use the arrows as a guide. Follow them until they disappear to make sure you're in the right place at the right time.

OFFSIDE

To ensure the assistant referee doesn't bring a swift end to another attacking move, make sure you keep an eye out for his flag. When you stray offside, a flag icon appears. To avoid being pulled up, run back past the last defender to get into an onside position.

MARKING

Goals are often scored when opposing players are left unmarked, and it is your responsibility to make sure that doesn't happen. A red ring appears underneath any player with open room that you should be marking. Close in on them as soon as possible!

BE A PRO GOALKEEPER CONTROLS

Goalkeeper is one of the most important positions on the pitch. In Be A Pro Goalkeeper, you take control of the goalie and must keep your team's net secure! Maintain good positioning in front of the net, make saving shots, cut off crosses, and distribute the ball to your teammates after saves. Stay alert! You cannot afford to fail.

NOTE: There are two camera modes in Be A Pro Goalkeeper. One allows you to follow the ball as the action takes place on the pitch. The other allows you to focus on the goalkeeper and prepare for oncoming attacks. Press the **SELECT** button to switch between them in order to maintain appropriate positioning on the pitch.

ONLINE PLAY

SEASONS

Enjoy ranked online play at its best and most competitive with Seasons. As you play through 10 games per season, try to earn enough points to avoid relegation and gain promotion to the next division—or even win the division title. It won't be easy! Higher divisions mean tougher competition and promotions, so get ready for a true football challenge.

CO-OP SEASONS

Dominate the pitch with a friend as you play through Seasons mode on the same team. Co-op Seasons is the next evolution in online play, allowing you and a friend to team up online and play 2v2. Take up the challenge of reaching Division 1 and fill up your trophy cabinet.

ONLINE FRIENDLIES

Invite a Friend to play a match online, and track your rivalry to prove who has the most skills on the pitch in five-game seasons. Earn the most points in five games to hoist the trophy, and then keep the competition going with the next season as you try to defend your title!

MATCH LOBBIES

Select MATCH LOBBIES to find online matches. You can choose to play ranked or unranked matches.
