If the Nunchuk is removed or disconnected from any active Wii Remote, the game will display an icon representing the missing Nunchuk. Plug the Nunchuk back into the Wii Remote to dismiss this icon.

PLAY CALLING

NOTE: that all control descriptions in this manual assume the presence of a GamePad. For Wii Remote and Nunchuk controls, please consult the controls tables on the following pages.

GAMEFLOW

GameFlow allows players to pick plays like a true NFL coach. By matching plays to situational game plans, plays can be tailor-picked automatically for each down. In the game settings screen you can choose a playcall style: GameFlow or Conventional.

You can even change your GameFlow to be heavy on run plays, heavy on pass plays, or balanced between the two. On defense, you can be conservative, aggressive, or balanced.

CONVENTIONAL

You may also choose to call plays in the traditional *Madden NFL* manner, or switch back and forth between the two Play Calling styles. You can filter your plays by Formation or Play Type, or view the most recently called plays. You can also make substitutions, flip plays and change Personnel Packages within the Conventional Play Calling style.

HURRY UP OFFENSE

You can call a no huddle offense at the conclusion of the previous play by holding the X Button on the GamePad. This will rush everyone to the line to repeat the previous play. Holding the A Button on the GamePad after the play will rush everyone to the line to spike the ball and stop the game clock.

HOW TO HOT ROUTE ON OFFENSE

In order to call a hot route on Offense, press Up on the +Control Pad to bring up the receiver buttons. Once you've chosen a receiver whose route needs adjusting, press the corresponding receiver button and then press the Right Stick on the GamePad in the direction that indicates the route you want that receiver to run, as shown by the on-screen callouts.

HOW TO USE TOUCH SCREEN OFFENSIVE HOT ROUTES

During Pre-Play, you may tap and hold on an eligible receiver and then draw them a new route. Eligible receivers feature a rotating icon around their body.

HOW TO PUT A PLAYER IN MOTION

Press the A Button to highlight an eligible player, and then move the Left Stick right or left to send that player in motion.

STRATEGY PAD QUICK LINKS

With the Strategy Pad Quick Link setting enabled, you can make preplay adjustments without using the +Control Pad. Strategy Pad Quick Links defaults off but can be turned on in Game Options. This feature will not work with the Wii Remote and Nunchuk controller.

HOW TO FLIP PLAYS

To flip a play after it is called, press the Y Button and then the ZR Button.

RECEIVER AWARENESS

The receiver icons will appear faded for the first few moments of the receiver's route. This indicates the awareness of the receiver. The receiver won't be looking to catch the ball within the first 5 yards of a long streak pattern, for example. Wait for the icon to be fully lit before attempting to pass to be sure that your receiver is actually ready to receive the pass.

HOW TO USE BLUFF PLAYCALLING

To bluff your playcalling during multiplayer games, press and hold the button that corresponds to the play you wish to select. This secretly selects the appropriate play. Continue holding the button while scrolling to other plays in order to bluff your opponent, and then exit the playcalling screen by releasing the button.

BALL HAWK

Going for an interception or swatting the ball out of the air is a great way to prevent the offense from gaining ground. After a pass has been thrown, press the **A** Button to switch to the defensive player closest to the ball. Once you're in control of the defender, hold the **X** Button to go for an interception or press the **R** Button or **L** Button to make an aggressive attempt to swat the ball. Be careful when using Ball Hawk! Your defender will take the most aggressive path to the football. If he is late, the receiver may have an open field!

HOW TO USE AUDIBLE COVERAGE

Calling a coverage audible allows you to adjust specific aspects of your coverage at the line of scrimmage. After calling a coverage audible, put your defensive backs into press or loose coverage, show blitz, or shift your safeties.

HOW TO USE DEFENSIVE HOT ROUTES

Defensive Hot Routes are great for making coverage decisions with pinpoint accuracy. You can access the Hot Route menu on defense by pressing **Up** on the **+Control Pad**. Press the direction on the **+Control Pad** or the **Right Stick** that represents the assignments you want to change. You can also press the **A** Button to go into Individual Coverage and change the assignment of a specific player. You can give individual players direction on the fly, instructing them to move to a hook or flat zone, blitz, curl to flat, go into deep zone, switch to man coverage, or QB spy/contain.

HOW TO USE TOUCH SCREEN DEFENSIVE HOT ROUTES

During pre-play preparations, tap and hold on a defender to activate a cursor. Drag the cursor around the field, into different zones, or onto offensive players in order to change your defender's assignment.

SPECIAL TEAMS

ON THE KICKING TEAM

Move the **Right Stick** down on the GamePad to start filling the kick meter. Move the **Right Stick** up on the GamePad while the indicator is at the top of the gauge for maximum power. To achieve the perfect kick, make sure that the **Right Stick** remains centered while performing the motion.

ON THE RETURN TEAM

The receiving team can call for a fair catch by tapping the **X** Button on the GamePad when the kick is in the air, meaning that the line of scrimmage is at the point where the receiver catches the incoming ball. If a fair catch is not signaled, then players proceed as normal.

SUPERSIM

Supersim allows you to simulate any part of the current matchup at any time. This option is available from the Pause Menu or from the Playcall Screen. You may cancel Supersim at anytime.

If you begin your career as a new player, you'll be able to choose your position and then select a team to play for. Before making your decision, you'll be able to view information about each team, such as their Offense and Defense rankings, overall ranking, previous season record, and how much salary cap room they have.

SELECT BACKSTORY

Determine your player or coach's backstory. There are three backstories to choose from, and each of them gives your player or coach a different personality, in addition to altering how hard you'll have to work to become number one. Your backstory determines your initial ratings and expectations when it comes to XP and goals.

EDIT CAREER/CAREER SETUP

Adjust the career settings before your character takes the field. Highlight any adjustable option to view a description. These settings can have a significant impact on your game. When everything is to your liking, select START CAREER to begin.

GOALS AND XP

PRIMA® PRO TIP

Not meeting your level 2 season goals will get you fired as a coach or cause your ratings to drop as a player, so make sure you work hard to achieve this level!

XP

XP is the currency you earn by achieving your goals and practicing throughout the season. XP will allow you to buy packages that will boost your players' attributes.

BUY PACKAGES

Packages contain attribute boosts that you may add to your player to improve his performance. You may purchase packages with the XP you earn.

WEEKLY GOALS

Goals assigned for that given week. There are three assigned each week.

SEASON GOALS

Goals that are generated based upon your draft status and previous success. There are 4 tiers of goals you can earn that get progressively harder, but earn you more XP.

TEAM GOALS

Team Goals are available when playing CCM as a coach. There are four tiers of goals, each more difficult and rewarding than the last. Keep your team's performance high to complete Team Goals.

MILESTONE GOALS

Work hard to reach long-term milestone goals. These goals will take skill and longevity to reach, but you'll be rewarded with more XP.

CAREER NAVIGATION

NEWS CENTER

No matter who you are, you're going to make the news over the course of your career, whether for accomplishments or trades. To truly stay in control of your career, you must keep on top of the news and rumors.

The news that appears over the course of your career will be relevant to your current status and future prospects. As you perform in games and gain the attention of the country, you'll appear in the news. Use the news to judge your progress in the eyes of the NFL and the fans. The Twitter feed and Main Menu will have all the latest news on scores, injuries, trades, and more. Check back often to stay abreast of any new developments.

Use the Scouting menu to view the players available for scouting in the upcoming draft. You'll have the opportunity to select the exact attributes you want to unlock with your scouting points. The first time you scout an attribute, you'll receive a letter grade. Scout again, and you'll get the true rating of that particular attribute.

Watch closely, as some rookies now contain branching storylines. One week, your top prospect may be on track to win the Heisman, but if he breaks his leg the next week, he may not remain a first round pick.

DRAFT

During the offseason, you will need to bolster your roster to account for players who've been traded or whose contracts have expired. Drafting players is a crucial part of building a franchise, so use your draft picks wisely. Watch as the tweets start flying in when a pick is made or use Trey Wingo to break down a rookie's long path to the draft.

If you are in an online Connected Career with multiple users, the Draft is treated as a real time event, so everyone will need to be in the Draft Hub ready to go all at once.

OFF-SEASON FREE AGENCY

Free agency is a key period during the off-season that should be used to improve your roster. Select the player you want to target carefully as you make your initial offer. After the first week, you'll find out if the free agent accepted your offer, took an offer from another team, or still hasn't made a decision. At this point, you'll have the chance to increase your offer, stay put, or pull your offer off the table.

PLAYER PROGRESSION

As you play games, your player will gain XP according to his performance. Spend your XP here to build up your player's attributes and customize his strengths.

COACH PROGRESSION

The XP you earn as a coach can go a long way into make your job easier. Buy packages that help your scouting department, make a player more interested in resigning with you, and much more.

In the hub, you'll also have the choice of how you want to progress the players on your team. You can choose to have this done automatically for you or do it manually.

RETIREMENT

You have the option to retire your character at any point in your career. By doing this, you'll also have the option to select a new player or coach and pick up at the same exact point in the season or year in which you left.

LEGACY SCORE

Every award, from MVP titles to Super Bowl championships, counts towards your legacy score. The legacy score measures your performance against the legendary players and coaches of the past. You'll need a high legacy score to end up in the Hall of Fame.

HALL OF FAME

The Hall of Fame is the greatest single achievement for a professional player or coach. Earn a legacy score worthy of being inducted into the Hall of Fame before you retire. You'll also be able to compare yourself to other users that have made the Hall of Fame for the ultimate bragging rights.
