FUNCTIONS

-2-

SPECIFICATION

The Transmitter

Frequency	2.421GHz ~ 2.460GHz (40 channel)
Operation Range	Max 100ft
Battery	2 x 1.5V Type AAA
Laser Wavelength	532nm (Class II), Green Color
Laser Output	less than 1mW
Size	115mm x 18mm x 19mm

The Receiver

OS System	Windows 98, Se, Me, 2000, XP, Vista, 7
Interface	IBM PC / AT & Laptop PC, Macintosh
Power	USB Spec 1.1, HID Spec 2.0
Working Power	USB Bus-powered
Size	10 - 12mA
	65mm x 23mm x 10mm

-6-

QUICK INSTALL GUIDE

Windows ME / SE / XP / VISTA / 7

1. Insert 2 AAA batteries on the transmitter, make sure the poles are in the correct direction, please check laser beam works properly.
2. Insert the receiver into the USB port of the PC.
3. LED light on the receiver starts blinking. Press any button on the transmitter for about two seconds until LED light stop blinking.

FCC ID : UP4-SP-800

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and
2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the users is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Cause: You are cautioned that any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Note: This unit was tested with shielded cables on the peripheral devices. Shielded cables must be used with the unit to insure compliance.

FEATURES

- **Mouse Mode & Presentation Mode Switch**
: You can switch the mode between Presentation mode & Mouse mode with simple clicking the slide switch.
: In Mouse Mode, you can control the mouse pointer in 8 directions, up / down / left / right.
: In Presentation Mode, you can control MS Power Point. Slide show start / finish / black screen / page up / page down are all available remotely.
- **Multimedia function**
: You can control the Windows Media player remotely. Playback / pause / rewind / fast forward / volume control can be controlled.
- **Plug & Play**
: No need to install any software.
- **Reliable 2.4GHz RF Transmission**
: Smart Pointer uses 2.4GHz RF data transmission, operating range up to max 100feet(30m).
: Each unit uses unique ID code from 65,000 ID code, so one Smart Pointer will not interfere with other Smart Pointers when Multiple Smart Pointers are used at the same time.
- **Intelligent Green Laser Pointer (Class II)**
: It is equipped with high quality laser module and 20 seconds auto off function.
- **Standard USB Port**
