1. Mount the device (page 3).
2. Charge the device (page 5).
3. Acquire satellites (page 5).

Mounting your Device

WARNING

This product contains a lithium-ion battery. To prevent the possibility of personal injury or product damage caused by battery exposure to extreme heat, remove the device from the vehicle when exiting or store it out of direct sunlight.

NOTICE

Before mounting the device, see the *Important Safety and Product Information* guide for information about laws pertaining to windshield mounting.

1. Remove the clear plastic from the suction cup. Place the suction cup on the windshield.
2. Flip the lever back toward the windshield.
3. Plug the vehicle power cable into the back of the cradle.
4. Snap the cradle onto the suction cup arm.

6. Fit the bottom of your device into the cradle.
7. Tilt your device back until it snaps into place.

Your unit should turn on automatically if it is plugged in and the vehicle is running.

5. Plug the other end of the vehicle power cable into a power outlet in your vehicle.

Charging Your Device

Charge your device for at least 4 hours before using it on battery power.

Your device can be powered three ways.

- Connect the vehicle power cable to the mount while the device is in the mount.
- Connect the USB cable.
- Connect an AC adapter (available on some device models).

Acquiring Satellites

1. Go outdoors to an open area, away from tall buildings and trees.
2. Turn on your device.

Acquiring satellite signals can take a few minutes. The  satellite icon indicates signal status. When at least one of the lines is green, your device has acquired satellite signals.

Using Traffic

NOTICE

In no event shall Garmin be liable for any incidental, special, indirect, or consequential damages, including, without limitation, damages for any traffic fines or citations, whether resulting from the use, misuse or inability to use the product or from defects in the product. Some states do not allow the exclusion of incidental or consequential damages, so the above limitations may not apply to you.

NOTE: nüLink! Services may not be available in all areas or countries. To use this feature, you must have a current nüLink! subscription, and your device must be receiving a nüLink! signal.

When you are receiving traffic information, a traffic icon appears

in the upper-left corner of the map page. The traffic icon  changes color to indicate the severity of traffic conditions on your route or on the road you are currently traveling. If a severe traffic delay occurs on your route while you are navigating, the device automatically recalculates the route.

Using Weather

WARNING

The weather information provided through this product is subject to service interruptions and may contain errors, inaccuracies or outdated information, and consequently should not be relied upon exclusively. Always use common sense while driving or navigating and check alternate weather information sources prior to making safety-related decisions.

You acknowledge and agree that you shall be solely responsible for use of the weather information and all decisions made with respect to driving or navigating in weather.

NOTE: nüLink! Services may not be available in all areas or countries. To use this feature, you must have a current nüLink! subscription, and your device must be receiving a nüLink! signal.

1. Touch **Tools > Weather.**

The weather for your current location appears.

2. Select an option to view weather:

- Touch a day in the forecast to view the weather information for that day.
