Mirabeau Parkway, Spokane Valley, WA 99216.

Disclaimer

General Dynamics Itronix Corporation reserves the right to revise the manual and make periodic changes to the content without a direct or inferred obligation to notify any person of such revision or changes. General Dynamics Itronix Corporation does not assume responsibility for the use of this help manual, nor for any patent infringements or other rights or third parties who may use the manual.

This document contains valuable trade secrets and proprietary information of General Dynamics Itronix Corporation.

This product is available for purchase under Itronix's standard terms and conditions of sale. Hardware products may be reconditioned, or be manufactured from parts and components that may be new, used, rebuilt, or recycled and in some cases, the hardware product may not be new and may have been previously installed. In any event, Itronix warranty terms apply.

Warnings and Cautions

WARNING It is important that only authorized personnel service and attempt repairs on the equipment.

Unauthorized service or repair may void the warranty and any maintenance contract in effect for the equipment. Unauthorized service personnel might be subject to shock hazard on some equipment if removal of protective covers is attempted.

Internal radio(s) may have an individual FCC Identifier which are not applicable to this configuration. Only one or more of the FCC Identifiers: KBCIX-MC5725, KBCIX-MC8775, KBCIX-4965AGN, KBCIX-BT-51 as shown on the label located on the bottom of the IX605 Laptop PC are applicable. The Radios in the IX605 Laptop PC must not be co-located or operating in conjunction with any other antenna or transmitter than specified in the above referenced FCC Certification filings .

Safety Information

This device may contain a WLAN radio transmitter, a Pan radio transmitter, and a WAN radio transmitter. To comply with FCC RF exposure requirements when using the WAN radio transmitter, a minimum separation distance of 20 cm must be maintained between the upper center edge of the display screen antenna and all users/bystanders. When using the WLAN transmitter, a minimum separation distance of 20 cm must be maintained between the upper right and left edges of the display screen and all users/bystanders. When using the PAN transmitter, a minimum separation distance of 20 cm must be maintained between the lower left edge of the Keyboard and all users/bystanders. The WAN transmitter, PAN transmitter and WLAN transmitter should be turned off before carrying the Laptop PC in order to comply with FCC RF exposure requirements

Do not proceed beyond a **WARNING** or **CAUTION** until the indicated conditions are fully understood and met.
