The Federal Communication Commission Statement

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures: -

- **Reorient or relocate the receiving antenna.**
- **Increase the separation between the equipment and receiver.**
- **Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- **Consult the dealer or an experienced Radio/TV technician for help.**

Use only shielded cables to connect I/O devices to this equipment. You are cautioned that change or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERECE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRE D OPERATION.

1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Bluetooth GPS Quick Tips

After acquiring your Bluetooth GPS Receiver, proceed with the following steps

1. Install Battery.

Fully charge the battery for at least eight hours before your first use.

Battery Low : When “LED 1” flashes green light, it signals battery low. Connect Bluetooth GPS Receiver to a power source for continue operation and recharge simultaneously.

Charging : When battery is being charged, “LED 1” turns to red light. When the battery has been fully charged, “LED 1” will shut off automatically.

2. Turn on Bluetooth GPS Receiver

Press the “Power Button” for 2 seconds, “LED 1” turns into steady orange light, and “LED 2” turns into blue flashing light. This is to activate Bluetooth pairing; it’s required only once for the first use.

3. Activate Bluetooth function of your PDA / PC

Prior to activating the Bluetooth function of your PDA / PC, make sure the device is equipped with Bluetooth function, and the driver software has been installed.

4. Activate Bluetooth Manager & Established New Connections

Illustrations using HP 2100 PDA as follows:

1. First, find the device with which you wish to establish connection.
2. Open "Bluetooth Manager" on your pocket pc.
3. Press "New".
4. Press "Connect".

4.1

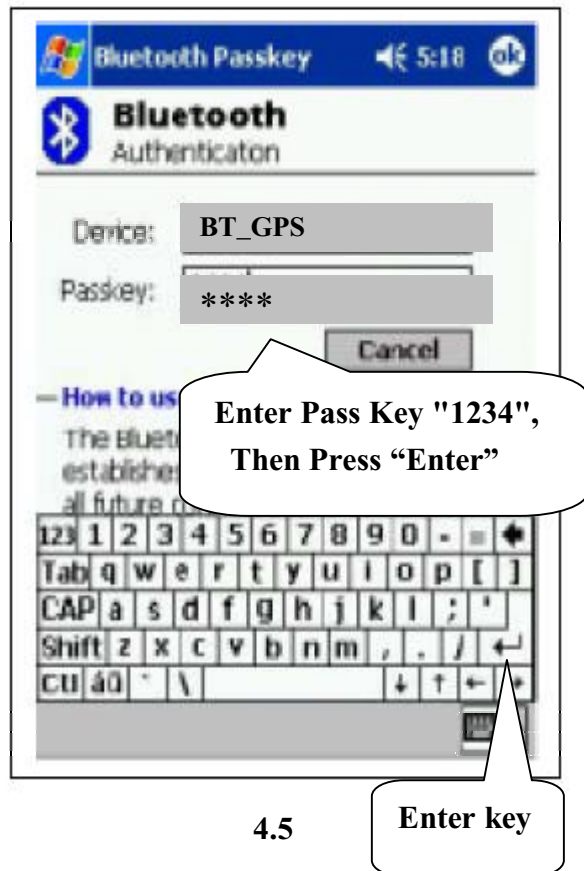

4.2

4.3

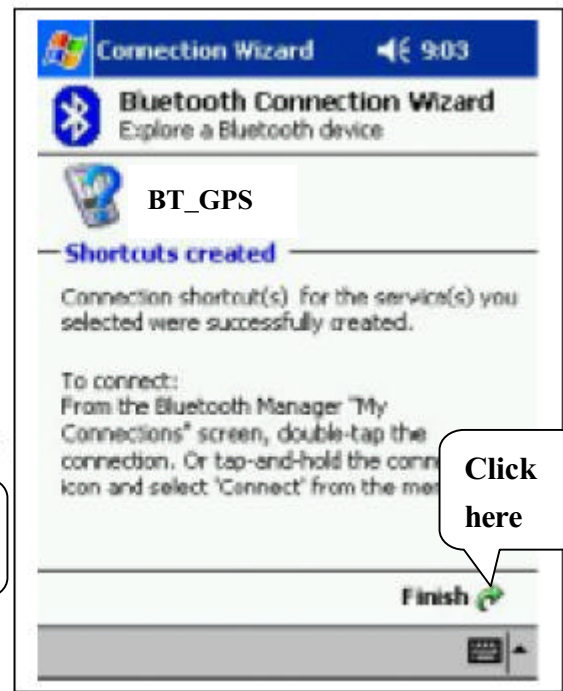

4.4

4.5

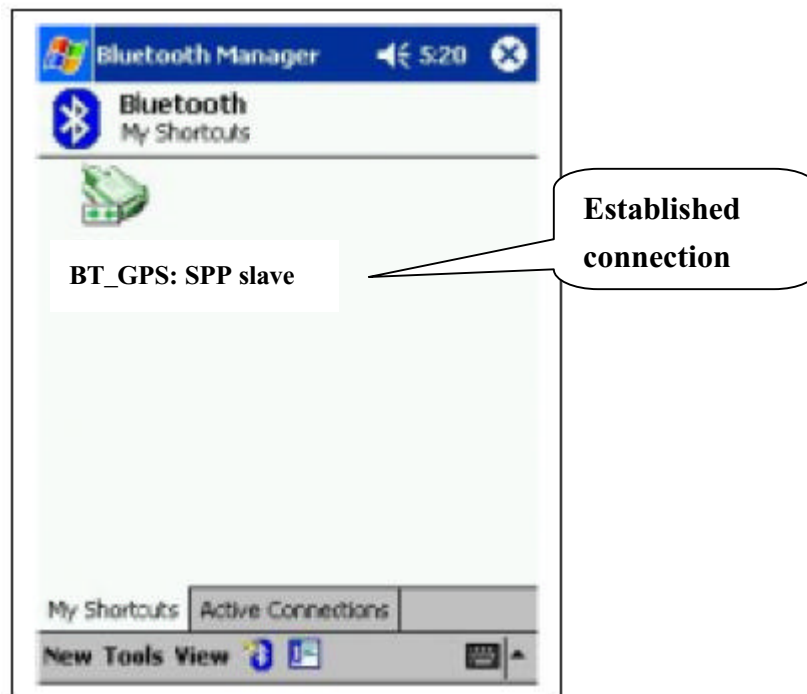

4.5

4.6

At this point, Bluetooth GPS connection has been successfully established

4.7

When "LED 1" flashes orange light twice a second, it's indicating the BT devices have been paired.

6. Turn off Bluetooth GPS Receiver

Press “Power Button” for 2 seconds, “LED 2” will shut off; and the unit will be turned off.

It is suggested to close the electronic navigation map before GPS, to avoid possible PDA /PC freeze.

7. About Signals

- LED 1 :**
- a. Red light indicates Bluetooth GPS Receiver is being charged.
 - b. Steady orange light indicates Bluetooth GPS Receiver has been turned on, but not yet get a position fix. It flashes once per second, after BT GPS receiver gets a position fix.
 - c. Flashing green light indicates battery low.
- LED 2 :**
- a. Blue light flashing swiftly, signals pairing. It flashes twice a second, signals PDA/PC and Bluetooth GPS Receiver have been paired successfully.
