Getting Started

Plug the data cable to the power adapter to charge the unit.
Visit our website (www.gpsgolfbuddy.com) and check your course in our "course library" and download if necessary.
Please refer to the GB manager for the latest course and firmware updates.

Basic Operations

Power On/Off

Once you're at the course, simply power on to start playing as the unit will locate your course for you automatically.

Power On

Slide the button to ON position.

Power Off

Slide the button to OFF position.

Language Selection

Have the unit turned off. While holding down the ◎ button, turn on the unit to bring up the language selection.
Use the − + buttons to select your language.

Main Button Operation ◎

Pressing the ◎ main button gives you the voice information of the current screen.

◻ Voice Information of the Distance to the Green

Pressing the ◯ button will give you the distance to the center of the green.

Press ◯ button once: Voice information to the center.

Press and hold ◯ button: Voice information to the front.

Press and Hold ◯ button again: Voice information to the back.

◻ Switching to the Alternate Green

Press and hold the [−] button while on the play screen.

◻ Changing the Distance Unit (Yard/Meter)

Press and hold the [+] button while on the play screen.

◻ Volume Control

Use the [−] [+] buttons to control the volume.

◻ Mute

Press the [−] [+] buttons at the same time to mute.
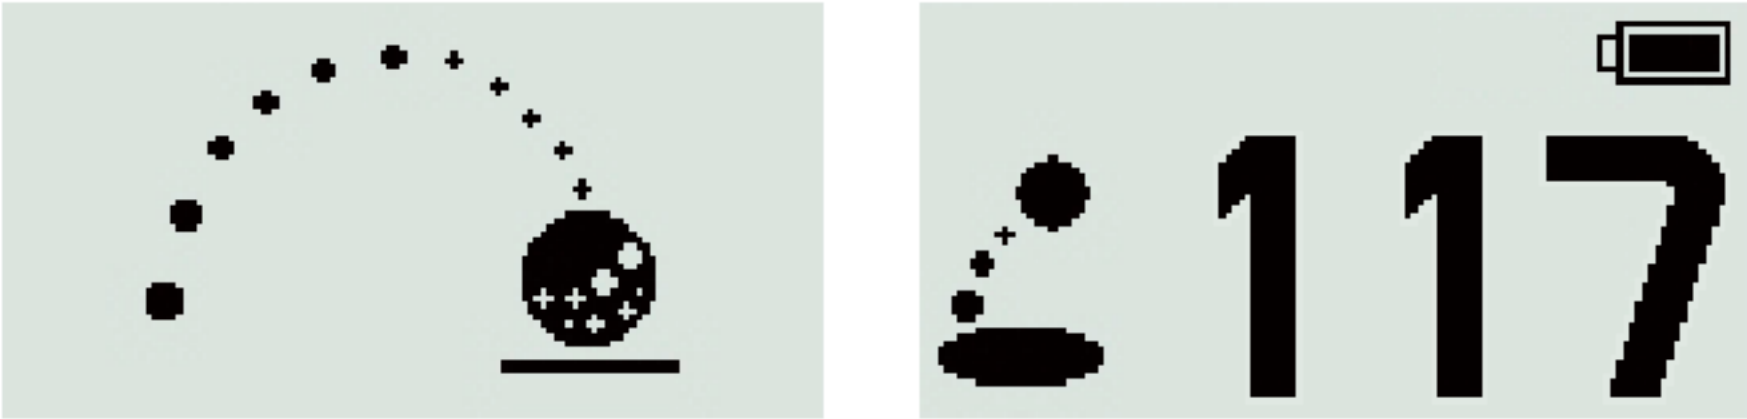

Green View Screen

Pressing the ⊙ button gives you the green view screen. The green shape changes as you move to the different sides of the green. The screen also provides the hole number, par information, and left/right green information.

1 `08` Hole No.
