

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense. (15.105)

Modifications to this equipment not expressly approved by Grayhill could void the user's authority to operate the equipment, as well as void any warranty provided by Grayhill. (15.21)

Should EZCom-IP be used for fixed point-to-point operation as defined in per FCC rule 15.247.(b).iii the equipment operator, or if the equipment is professionally installed, the installer, is responsible for ensuring the system is used exclusively for point-to-point operations.
