Volume-
Microphone
LED indicator
USB charging port
3.5mm audio port

Power on and Bluetooth connection

---Follow the steps (Please confirm that your phone is built-in Bluetooth function)

1. ---Hold down the MFB for 2 seconds, till LED alternately flashes white and orange with a voice prompt after white LED flashing once.

(If headphone fails to automatically enter pairing, it may reconnect to its last paired

device.)

2. Activate the Bluetooth function and search for “HAVIT I18” referring to your phone instructions.

3. Manually click “HAVIT I18” to connect. If the LED stop flashing with a voice prompt, the connection is successful.

NOTE:

---Pairing mode can just last 180 seconds. if you miss the pairing time, you need to restart the device and operate follow the procedural steps mentioned above.

---The headphone can automatically connect the last device that you had paired
--- headphone will lose the connection when deviate the working range of Bluetooth. The headphone will reconnect automatically if you come back to the range in 3 minutes.

---The headphone will automatically turn off, if the headphone has no connection or lose the connection for 10min.

---The headphone will work better without any obstacles (include your body) between headphone and phone.

Power off

---Hold down the MFB for 4 seconds, LED flashes orange for a while.

Answering incoming calls:

---Short press the MFB to answer incoming calls.

---Tip: Since some mobile phones default to answer calls via their own receiver, please refer to the instructions of your phone and set on your phone.

Ending the call

---Press the MFB once to end the current call.

Refuse incoming calls:

--Press the MFB for 2 seconds when there comes a call.

Last number redial:

---Double press the MFB to redial the last calling number.

Siri

---In standby status or playing music, you can activate Siri by pressing the MFB for 1 second. (For IOS only.)

Call answer switch:

---Press the MFB for 2 seconds to switch answering the calls via the headphone or phone.

Music playing:

1. Play/Pause: Short press the MFB;
2. PREV: Long press + to select the previous song;
3. NEXT: Long press - to select the next song;
4. VOL+: Short press + to increase volume;
3. VOL-: Short press - to decrease volume.

Connect to two devices simultaneously

1. Connect the first phone according to the procedural steps mentioned above. Then disable the Bluetooth of the first phone. Restart the headset to pairing status and connect . Reactivate Bluetooth function of the first phone and click "HAVIT I18" in the pairing record to reconnect.
2. After connect two phones simultaneously, you can achieve the operation of following steps.
3. A phone is answering a call, while B phone rings:
 - Press the MFB for a second to reject the incoming call ;
 - Double press the MFB to retain the current call of A phone and answer incoming call of B phone
 - Short press the MFB to end the current call of A and answer incoming call of B
4. One phone is answering a call, while another has a call retained:
 - Double press the MFB to retain the current call and answer the call has been retained.
 - Short press the MFB to end the current call and answer the call has been retained.

Wired music mode:

1. Without turning on the headset, just connect the headphone to a phone or other Music player that comes with 3.5mm audio jack via the provided dual 3.5mm audio cable to play.
2. All the functions are invalid in this mode, including play/pause, volume adjustment, songs selection and microphone.

Information of charging and battery:

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
