

9 NVR, IPC parameter list

NVR parameter							
Operating System	Embedded linux OS						
AV(audio/video)input	Network Video				4CH		8CH
	Network v	input i	20Mbps				
AV (audio/video)	HDMI input 1ch, resolutio			n: 1024	x768, 1	366x768,	
output	1440x900,1920x1080p						
				n, resolution: 1024x768, 1366x768, 40x900,1920x1080p			
AV CODEC	Video Resolution			D1/720P/960P			
Specification	synch-playback		4CH 8CH				
Video Control	Video/Capture mode			Mauals Times Motions Alarm			
	Playback mode			Real time - Routine - Event			
	Backup			USB backup			
HDD	Туре			1*SATA interface			
	Max Capacity			4 TB at most for each			
External Interface	Network Interface			1 adaptable RJ45 10M/100M,			
				2 WIFI interface			
	USB Interface			2 USB 2.0			
Network Control	Protocol UPnP (play&plug) - SMTP (email survice)						
	PPPoE (dial-up) -						natically
		ain an	, etc				
Others	Power				DC 12V 3A		
	Consumption(excluding HI						
	Working Temperature			v	-10 C55 C		
	Working Humidity				10%90%		
	Size				257×210×45mm		
	Weight (excluding HDD)				≤lKg		

> Hardware description

A Statement

Sinserely thanks for purchasing our products, pls contact us if any problem or requirement. This manual is for network video recorder.

This user manual may contain incorrect place in technology, place not matching with product function or operation, or printing mistake.

We will update our user manual according too our updating in product, and will periodically improve or updating the product and programming. The updating content will add in the new user manual, we won't inform.

If the product's doscription in user manual is inconsistent with the real products, pls based on the real products.

- Z Safety Cautitions

 I Pis don't put a container with liquid on DVR(like Vase).

 2DVR should put at a ventilation place, and prevent clogged the ventilation hole.

 3.Clack the power voltage, in case of damage by swrong voltage.

 ADVR should work at the technical standard range of temperature and humidity.

 5.Place DVR on level, pls avoid installing at a sharp pounding place.

 6.Mostured start in PCR will cause short execution, for long-term use of the DVR, you can periodically remove dast in PCB by broads.

 7.1 will cause burst for place battery in wrong way, we don't suggest user to replace by himiself, if need replace, only use the same type or equivalent type battery, pls don't ny to open or maintain the battery.
- open or maintain the battery.

 8.DVR installation need according to specification, you can take the national or local standard

3 Open-package inspection

er receive product, pls open giftbox, remove NVR and put it on suitable place, check essories. If any damage or lack, kindly pls contact to the distributor.

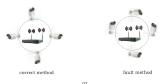

Wireless NVR kit Quick installation guide

PC Specification	
Operating System	Embedded linux
Image Sensor	1/4" Progressive Scan Sensor
S/N Ratio	> 39.1 dB
Resolution	1280 x 720 16 : 9 High Defination
Minimum Illumination	Color: 0.1 Lux
	B/W: 0.01 Lux
Lens	4mm
OSD	Date Time & Title
White Balance	Auto
Day & Night	Auto / Color / BW
3D-DNR	Auto
Mirror/Flip	On / Off
Privacy Masking	4 Zone Selectable
Frame Specification	Three Streaming at the Same Time:
	H.264 128x720@30fps or below
	H.264 640x480@30fps or below
Anti-thunder Level	Standard IEC61000-4-5
Power Input	DC12V-1A
Consumption	≤6W
Interface	RJ45 / WIFI 802.11b/g/n
	umidity -10 °C to +50 °C / 30% to 80% RH
Storage Temperature/Hu	
Size	205(L)×70(W)×55 (H)mm
Weight	500e

4 Installation diagram

5 Antenna location

Wireless NVR kit Quick installation guide

▷ Software operation

1 Add camera by matching code

is 172.25.123.X;

Note: The camera has been matched by factory, no need to add other cameras. If you need
to match one code, Firstly, take one network cable and connect to any NVR lan port and
power on the device to make sure there is still have any channel can add one camera.

2 Video playback

Step: Right click mouse in main menu — Video playback — choose channel No. — choose record mode — in Search time.input beginning time and end time — click search,recording will come outdrug time bar—click playback to start

Tips: Playback icon introduction: Li playback | frame previous Li playback | frame

Tips: Playback icon introduction:

playback 1 fr.

play

pause

fast forward x2,x4,x8

The signal coverage of Antenna is similar to a round circule. Antenna located in center of the round circule, signal of surrounding is much stronger, but much weaker if antenna endpoints backoff direction, according to the signal divergency characteristics of antenna, and in order to guarantee the video quality, IPC antenna should try to keep in parallel or tangent with NVR antenna.

6 HD Install Notice that the HDD had been used need supplier recommend, and need make sure already cut off the power.

Install Steps:

7 Rear Panel Description

Confirm that AC voltage accessible matches with DVR. Ensure that the DVR power outlet connect with a good middle ground grounding. After switching power, the device started, [POWER] light is on. Turn into system, if the panel status light flashing, if soromal conditions.

3 Video backup

Step: Right click mouse in main menu — Video backup — choose channel Norecord mode — in Search time, input beginning time and end time — click search,
come out — choose the video which need to backup — click video backup
Tips: Support 32G U disk backup max, recording will be packed every one hour

4 Video detection

5 Generate Esee ID

Precondition to generate Esse ID is that make sure video recorder is connected with network.am IP address is available Right click mouse in main menu— System setup — Network setup IT user is familiar with LAN-then no need to choose DICP which help to get IP address automa-tically.Manually input IP address and DNS address, video recorder will generate ID by network, once generate, will appear in menu

er is not familiar with LAN,or video recorder is in independent network,can choose DHCP to get available IP address After video recorder get IP address,it will generate Esee ID automatically

6 Access in LAN Accountly computer in same resizer or one same switch with video recorder

O ACCCESS III LAN

Step 1: Right cick mouse in main menus—System setup—Network setup—check video recorder IP address

Step 2:Access by computer in same LAN,input video recorder IP address and port[If port is 80, on need to input) in IE browser or any other browser. Then it will access LAN log in webpage, input user name and password, click log in

Step 3: One access successfully, one get video

Tips: Please make sure video recorder and computer in same network segement

11 Esee mobile application(Eseenet) —

Function introduction

Step 1: It will connect channel 1 video by default, tick "+" to add more channel Step 2: Click this is one to edit video recorder log in information Step 3: Add device group Step 5: Add device group Step 6: Play! Plass Supphor/Record Step 5: File management and more settings

12

7 Access in WAN

Step 1: Right click mouse in main menu — System setup — Network setup —check video

recorder IP address

Step 2. Access by computer in WAN.input www.e-scenet.com in IE browser or any other
browser. Then it will access log in webpage.input ID.user name and password.click log in

Step 3. Once access successfully,can get video

Tips: Video quality and fluency depend on video recorder side upload speed and computer side download speed, each channel need above 30KB

Packing list

S/N	Item	Quantity
1	NVR	1pcs
2	Screw bag (4 screws for HDD)	1pcs
3	USB mouse	lpcs
4	1 meter network cable (for IPC code match)	lpcs
5	DC 12V3A power supply (for NVR)	lpcs
6	NVR user manual - Installation Instructor	lpes
7	PE4010-W IP Camera	4/8 pcs
8	DC 12V2A power supply (for IPC)	4/8 pcs
9	Screw bag (for IPC)	4/8 pcs

Notes:

Notes:

1. Device will not in guarantee if caused by below reason:
A.Accident.psgligence.dissater_mis-operation.
B. Do not conform to the environment and conditions, such as power improper, working temperature too hight or too low, lightning stroke.ect.
C.Ever be maintained by other center which not belong to the real factory.
D.Goods already sold more than 12 months.

No. 1: Go to www.s-ecenet.com. in computer,click help—software download—find Andriod mobile application,click download to save in computer — copy to mobile to install No. 2: Scan two-dimension code by mobile directly,enter download page,click download to mobile If mobile do not spaper two-dimension scanca, mileny twww.s-scenet.com/help/download.php in mobile If mobile on stypont two-dimension scanca, mileny twww.s-scenet.com/help/download.php in mobile browser.center download page, click download to mobile
