1. Connect an audio cable (not included) to your audio device, then connect to your speaker's **AUX IN** jack.
2. The speaker will play your audio source and disconnect the Bluetooth connection automatically.
3. Use the playback controls on your audio device.
4. Unplug your audio device, the speaker will return to the previous Bluetooth connection.

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged

- to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit **not expressly approved by the party responsible for compliance** could void the user's authority to operate the equipment.
