Package Contents:

User manual   **Remote control**   **FM antenna**

For Your Attention

Safety precautions

The information you need to prevent danger to the user and other people as well as property damage is described below. "Descriptionof signs" shows different levels of danger or damage that may occur due to wrong handling.

Important notes

This book is only a guide for user's operation, not a criterion for configuration.
Only use attachments/accessories specified by the manufacturer.

The lightning flash is intended to alert the user to the presence of dangerous voltage within the product'senclosure, and touching the internal components may result in a risk of electric shock to persons.

The exclamatory mark is intended to alert the user to the presence of important operating instructions.

To reduce the risk of electric shock or fire, do not open the cover. Refer servicing to qualified service personnel.

This mark indicates this unit belongs to class 1 laser product. The laser beam may produce radiation harm to the directly touching human body.

Important Safety Instructions

1. Read these instructions.

2. Keep these instructions.

3. Heed all warnings.

4. Follow all instructions.

5. Do not use this apparatus near water.

6. Clean only with dry cloth.

7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produceheat.

9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider thanthe other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided foryour safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where theyexit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer.

For Your Attention

12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in anyway, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatushas been exposed to rain or moisture, does not operate normally, or has been dropped.
15. ▣ This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not requirea safety connection to electrical earth.
16. No naked flame sources, such as lighted candles, should be placed on the apparatus.
17. Attention should be drawn to environmental aspects of battery disposal.
18. The product is designed to use in moderate climates.

FCC STATEMENT
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

Troubleshooting

Before resorting to maintenance service, please kindly check by yourself with the following chart.

Symptom	Cause(s)	Remedy
No Power	●The AC power cord is not connected to the power supply or is not connected to a power supply securely.	●Please check that the AC power cord is connected securely.
Sound There is no sound or the sound is distorted.	●The audio cables aren't connected securely. ●The volume is set to the minimum level. ●The sound is switched off.	●Connect the audio cables securely. ●Turn up the volume. ●Press [MUTE] on the remote control to switch on the sound. ●Press [PLAY/PAUSE].
Unable to play a disc	●The disc is placed in the disc tray in a wrong way. ●The unit isn't compatible with the disc. ●The disc is dirty.	●Check that the disc is placed in the disc tray with its label side upwards. ●Clean the disc.
The player stops when a USB drive is inserted into the player.	●The connected USB drive is probably not a certified one.	●The player cannot play any uncertified USB drive. In case the player breaks down, turn it off, disconnect the power cord from the AC outlet and unplug the USB drive from the player. Then, power on the player again. The player will resume the normal functions.
The buttons on the unit do not work	●The unit is being interfered with static electricity etc.	●Switch off and unplug the unit. Then connect the plug to the power supply and switch it on again.
The remote control does not function.	●There is no battery in the remote control. ●The batteries are out of charge. ●The remote control isn't pointed to the remote sensor. ●The remote control is out of its operating area. ●The unit is shut down.	●Install one AAA/1.5V battery in the remote. ●Replace the batteries with new ones. ●Make sure that the remote control is pointed to the remote control sensor. ●Make sure the remote control is within the operating area. ●Switch off the unit and disconnect it from the AC outlet. Then power on the unit again.

Specifications

Power supply		AC ~100-240V,50/60Hz
Power consumption		120W
Working environment	Temperature	-10~+35℃
	Relative humidity	5%~90%
Disc output	S/N(A weight)	＞80dB(1kHz)
	Dynamic Range	≥70dB(1kHz)
	THD+NOISE	≤ -60dB(1kHz)
	WOW FLUTTER	Below the limit of apparatus measure
Tuner	FM band Range	87.5MHz~108MHz
Power output (Max)		200WX2
Frequency response		±3dB(20Hz~20kHz)
