

Autodesk ReCap Breakfast

September 10, 2013
7:00am - 9:30am (EDT)
Louisville, KY

Description

Autodesk Factory Design specialists will walk through the newest solutions for 2014. Representatives from FARO will demonstrate the latest in laser scanning equipment and show how point cloud data can be integrated with Autodesk tools.

Who Should Attend

Manufacturing engineering, industrial engineering and facilities engineering managers and engineers, and executives interested in improving project performance in the factory.

Why Attend

Learn about the latest technologies for laser scanning and factory design, and how they can help you save time and reduce errors for manufacturing projects ranging from reconfiguring production equipment to relocating or consolidating entire facilities.
