

## Course Release Roadmap

*All information regarding titles and projected release dates is subject to change.*

*As of 11/7/2014*

| Course Title                                                                                                  | Projected Release Date |
|---------------------------------------------------------------------------------------------------------------|------------------------|
| <b>ARCHITECTURE</b>                                                                                           |                        |
| BIM Coordination for Construction                                                                             | January 2015           |
| Reality Capture                                                                                               | January 2015           |
| BIM for Manufacturing: Revit 2015 to Inventor 2015                                                            | January 2015           |
| <b>MANUFACTURING</b>                                                                                          |                        |
| Inventor: Introduction to Solid Modeling 2015                                                                 | November 2014          |
| AutoCAD Electrical Essentials 2015                                                                            | December 2014          |
| Best CAD Practices for Mechanical Simulation                                                                  | January 2015           |
| DFM Simulation                                                                                                | January 2015           |
| Vault: Beginner to Advanced                                                                                   | TBD                    |
| Fusion 360                                                                                                    | TBD                    |
| <b>INFRASTRUCTURE</b>                                                                                         |                        |
| Introduction to Vehicle Tracking                                                                              | November 2014          |
| Custom Template Creation in Civil 3D                                                                          | January 2015           |
| Making Civil Real with 3ds Max                                                                                | January 2015           |
| AutoCAD Tools Every Civil Users Should Know                                                                   | January 2015           |
| Introduction to Hydraflow                                                                                     | TBD                    |
