FCC Compliance Statement (For US)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

For CE:

Operating temperature: **+5°C to +40°C, 20 to 95% RH**

***CAUTION

BATTERY SAFETY INFORMATION

- Exhausted batteries are to be removed
- Do not dispose of product or batteries in fire; batteries may explode or leak - If this product will not be used for an extended period of time, remove the batteries from the product
- The supply terminals are not to be short-circuited
- Batteries are to be inserted with correct polarity
- Clean the battery contacts and also those of the product prior to battery installation
- As always dispose of batteries in an eco-friendly manner

This product is compliant with Directives 1999/5/EC.

Below, you will find some information about dealing with BATTERIES:

- Warning! Danger of explosion if the battery is replaced incorrectly. Only replace with the same or equivalent battery type.
- Batteries may not be charged or reactivated by other means, taken apart, thrown into fire or short circuited.

- Always keep batteries out of the reach of children. Batteries can be life threatening if swallowed. Therefore, keep the batteries and scale out of the reach of small children. If a battery is swallowed, medical assistance should be obtained immediately.
- Never expose the batteries to excessive heat such as sunshine, fire or similar! There is an increased risk of leakage. Non-adherence to these instructions can lead to damage and sometimes even explosion of the batteries.
- Remove the battery from the scale when not being used for long periods of time.
- Remove a drained battery from the scale promptly, otherwise it can leak. In this case avoid contact with skin, eyes and mucous membranes. Rinse any areas affected by battery acid immediately with plenty of clear water, and seek medical assistance immediately. If necessary, clean the battery contacts and also the counter contacts in the device. Keep the instruction manual for reference about battery details. The non-adherence with these instructions can lead to damage to the transmitting unit and in some cases, lead to the battery exploding.

WARNING: To prevent battery leakage

Be sure to insert batteries correctly and always follow battery manufacturer's instruction. Never mix old and new batteries (replace all batteries at the same time). Never mix Alkaline, standard or re-chargeable batteries. Use only batteries of the same or equivalent types as recommended. Do not recharge non-rechargeable batteries. Always remove exhausted or dead batteries from the product, do not dispose of batteries in fire, battery may explode or leak. Do not short circuit the supply terminals. Remove batteries from product before extended storage.

Risks for children and individuals requiring assistance:

This device is not intended for use by children aged ten (10) downwards and individuals with limited physical, sensorial or emotional capacities or limited experience and / or knowledge unless they are supervised by an individual responsible for their safety or receive instructions from the latter as to how the device should be used and have understood the dangers arising from it. Children should be supervised in order to ensure that they do not play with the device. Cleaning and user maintenance may not be performed by children without supervision. For more information, please visit www.produktservice.info.

The scale should not be used by individuals with medical implants (i.e. pacemakers). The function of the implanted device may be impaired. The scale is not to be used during pregnancy. Not intended for use by children under 10.

Declaration of conformity

EMC Directive 2004/108/EG, R&TTE Directive 1999/5/EG, RoHS Directive 2011/65/EU:

Short text of the conformity declaration: Krippel-Watches hereby declares that the Bluetooth scale (RUNSCA1) complies with the basic requirements and the other relevant provisions of the EMC Directive 2004/108/EG, RoHS Directive 2011/65/EU and the remaining relevant conditions of the R&TTE Directive 1999/5/EG. You can access the full text of the conformity declaration on our homepage: <http://www.runtastic.com>
