<b>Failure to get the access to internet</b>	<ul style="list-style-type: none"><li>▪ Reset network connection.</li><li>▪ If Ethernet, select "Settings" — "Ethernet" — "Tick".</li><li>▪ If WIFI, select "Settings"—"Wireless &amp; networks" —"Wi-Fi setting" —"Tick".</li><li>▪ Make sure the WIFI signal is good.</li></ul>

<b>Problem</b>	<b>Solution</b>
Movable HDD cannot work	<ul style="list-style-type: none"> <li>▪ Make sure movable HDD is available.</li> <li>▪ Try to supply power to the movable HDD alone.</li> </ul>
TV display position incorrect	<ul style="list-style-type: none"> <li>▪ “4.6.3 Display” for your reference</li> </ul>
Cannot play the video on the website or not smooth.	<ul style="list-style-type: none"> <li>▪ Change browser type to “Desktop” or “Android”.</li> <li>▪ “4.4 website” for your reference</li> </ul>
Could not enter the android system	<ul style="list-style-type: none"> <li>▪ Reset the system as below:             <ol style="list-style-type: none"> <li>① Take off the power adapter.</li> <li>② Connect the TV.</li> <li>③ Keep pressing the reset button on the unit.</li> <li>④ Connect the power supply.</li> <li>⑤ The unit reboot automatically and shows the recovery menu.</li> <li>⑥ Release the reset button on the unit.</li> <li>⑦ Select by ▲ ▼ and <b>OK</b> of the remote: “wipe data/factory reset”—“yes--delete all user data”,</li> <li>⑧ reboot system.</li> </ol> </li> </ul>

**FCC Statement:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For a Class B digital device or peripheral, the instructions furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual: Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement: This equipment complies with FCC's radiation exposure limits set forth for an uncontrolled environment. The antenna(s) used for this transmitter must be installed and operated to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter. Installers must ensure that 20cm separation distance will be maintained between the device (excluding its handset) and users.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
