### 1. Introduction

- ◆ This 2.4GHz RF Wireless Presenter will offer you increased control for more effective presentations. Please read this manual to learn valuable information about the proper use and installation.
- ◆ With this Wireless Presenter, you don't need to stand beside your computer or have an additional person click the slide for you, nor do you need to aim at the receiver of the remote control.
- ◆ It is a special design presentation tool, its USB receiver is designed slim enough to snap into the main body of the Wireless Presenter.
- ◆ It is the mixed of RF wireless control of PowerPoint keyboard shortcuts and the laser point. This device enables the user to control presentation slides wirelessly up to 30 meters away indoors, while the laser pointer up to over 50 meters from the target.
- ◆ It is a USB plug-and-play device with no additional software required. The safety switch provides protection against unintentional laser beam into human eyes.
- ◆ There's no software to install. Just plug the receiver into a USB port to begin. And when the show is over, you can store the receiver in the presenter.
- ◆ The 2.4 GHz wireless allows you to enjoy the freedom to move around the room and mingle with your audience for greater impact.
- ◆ Buttons are easy to find by touch. And the smooth contours feel great in your hand. You'll be in control from the first slide to the last.

## II. Functions

Operating System

- ✓ Windows® xp
- ✓ Windows® Vista
- ✓ Windows® 7
- ✓ Windows 8
- ✓ MAC OS

### **IV. Technical Specifications**

- ◆ Built-in slideshow buttons
- ◆ 30meters effective range with 2.4 GHz wireless technology
- ◆ Red laser pointer with LED indicator
- ◆ Plug-and-play, no software required
- ◆ Storable receiver AAA battery
- ◆ On/Off switch

### **V. Package Contents**

Before installation, please check the items in the package. The package should contain the following items:

- 1) 2.4GHz RF Wireless Presenter PTM-100 (With USB receiver)
- 2) AAA Battery
- 3) User's Manual

### **VI. FCC Compliance Statement**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two condition:

(1) This device may not cause harmful interference

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
