User Manual

Introduction

Thank you for your choosing the new AIO.

This guide serves to enable users to get to know and familiar with our product as soon as possible.

Here we have made a brief introduction to the key layout and definitions in figures and words.

Contents

Ⅰ. **Precautions before Use**

This production is suitable for use in non-tropic areas below 2,000 meters, and the mark in the nameplate indicates the product is suitable for use in non-tropic areas.

2. Prevent the AIO from falling to the ground or being strongly impacted otherwise.

3. Do not use it in the long term in any environment where the air is too cold, too hot (<35℃), too humid or with too much dust. Do not expose the AIO to sunlight.

4.

Avoid using it in the strong magnetic and strong static environment as much as possible.

5. Once any water or other liquid splashes onto the AIO, close it immediately and do not use it until it dries out.
6. Do not clean the AIO with any detergent containing chemical element or other liquid to avoid causing damage due to corrosion and becoming damp. If cleaning is really necessary, clean it with dry soft cloth tissue paper.

7.

Our company shall not bear any and all responsibilities for loss or deletion of material inside the machine caused due to abnormal software and hardware operation, maintenance or any other accident.
8. Please back up your important material at any time to avoid loss.

9. Please do not disassemble the AIO by yourself; otherwise you will lose the right to warranty.

10. Quick Use Guide and the relevant software shall be updated at any time. If any anything is found to be inconsistent with the Quick Use Guide, the material object shall prevail.

11. Replacement with incorrect type batteries may cause explosion. Make sure to use original batteries.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

o Reorient or relocate the receiving antenna.

o Increase the separation between the equipment and receiver.

o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To comply with FCC RF exposure compliance requirements, this grant is applicable to only mobile configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
