5. Aftermarket

Hott has designed this appliance in order to guarantee the maximum reliability. However, if a problem occurs, by following the procedures suggested in this section you may be able to determine its cause. Do not attempt to open the appliance – there is a risk of electrical shock.

If you are not able to solve the problem, please contact your seller or manufacturer.

All users must be familiarized with this section. Knowing what could go wrong can help you avoid the occurrence of problems.

WARNING: any attempt of fixing the appliance without contacting the manufacturer will nullify the warranty.

In case the problem persists, take your appliance to an aftermarket section of any Worten, Modelo or Continente store in order to solve the problem.

Worten Equipamentos para o Lar ensures for a period of 2 years, counting from the date of purchase of this appliance, a warranty against any found manufacturing defect. The warranty supposes a correct use and maintenance of the appliance, namely according to the instructions expressed in this manual. In case otherwise identified, the malfunctions will not be under the warranty.

The repairing of electrical appliances must only be made by qualified technicians, as otherwise there may occur future complications on the appliances.

To avoid unnecessary risks, in case there are any malfunctions on the wires or on another type of components, repairing must be made on the specialized locations of technical assistance, as appropriate tools are needed.

6. Environment Conservation

Aiming to protect the environment, we try to reduce to a maximum the volume of the packages which are confined to three easy separation materials: cardboard, paper and plastic.

The appliance is made of recyclable material, once disassembled by a specialized company. Follow the local legislation concerning recycling of all materials.

7. FCC Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable condition without restriction.
