Output Interface

Exterior Audio Input Interface

USB recharge interface

Product Parameters

Product Model	S09
Battery Type	Polymeter Lithium Battery
Battery Capacity	6000mAh
Input	2.0A
Output	2.1A
Temperature Span	Charge: 10℃~45℃ Discharge: 10℃~45℃
Bluetooth Solution	CSR4.0
Play Time	>24H
Auto Standby Feature	When in no-load mode, it will automatically turn off the light in 5 seconds; stop outputting in 15 seconds
Dimension	146mm*81mm*27mm

Using Guide

Charge

When the speaker with lower battery is turned on, an alert sound will be heard, meaning the speaker is required to be recharged immediately.

S09 Bluetooth Switch

Turning on: long press the power key and it turns on the bluetooth mode by default. LED indicator flashes in red light, along with an alert sound "Bluetooth model has been on", and it will search for bluetooth devices automatically. To turn off the bluetooth, long press it again. Short press the power key and it shows battery status.

Mode Switch

1.Insert "AUX IN" cable, it will read: now is aux in mode. When AUX IN" cable is unplugged, it will get back to bluetooth mode by default.
2.At any mode, you can play by manually pressing keys:short press "⏮" to play previous song, short press "⏭" to play next song, long press "⏮" to reduce volume, long press "⏭" to increase volume, press "⏸" to play/pause.

Bluetooth Function

1.Connect/Disconnect
When turning on the speaker, it will search for bluetooth devices automatically. The name of the speaker is S09. On first time of pairing, the name of speaker S09 will display in the list of bluetooth device, and it needs to be paired manually. An alert sound of 'paired' will be heard when paired. It will keep the record of the pairing information, so as to get paired with the device automatically next time.

This speaker has the function of bluetooth auto-pairing once the bluetooth device is detected. Bluetooth connecting is also prioritised.

Bluetooth Disconnect
A.Long pressing "play/pause" key, it will disconnect the bluetooth device, while an alert sound "Waiting for pairing" will be played.
B.S09 only supports one-on-one pairing. If you need it to pair with a new device, you need to disconnect the bluetooth first and manually pair the new device by following the instructions above.

2. Bluetooth Play
Once bluetooth is paired, you can operate with the keys to play/pause, increase/reduce volume and other functions.
If you use S09 to connect two music players (one bluetooth, another one AUX), and then play the music simultaneously, the S09 will first connect by Bluetooth. When you pause it, it will automatically connect with the AUX. When unplug the AUX IN cable, it will read:"paired"(Bluetooth connect). If bluetooth does not connect to the speaker in 10 minutes, bluetooth will be off automatically. You can wake up the device by short pressing the play/pause key.

3. Answering call
If a phone call comes in, the speaker will auto-connect S09. Answer the phone call by short pressing "📞", short press it again to end the phone call; long press the "📞" to reject the phone call. On bluetooth mode, double press the "📞" key to redial the number you dialled last time.
