

## Quicken 2005 New User Edition\*

Included with your computer purchase!  
Track, balance, and budget your finances in minutes!

### Track

- See where your money goes. Sort your expenses by date, amount, payee, or category — like “groceries” or “charities.”
- Find answers fast. How much did you spend on dining? How does it compare to last month?

### Balance

- Balance your checkbook. Reconcile your bank statements in minutes. Quicken does the math, so records are more accurate.
- Stay on top of it all. Automatic downloads from credit cards and checking and savings accounts make reconciling a snap.\*

### Budget

- Create a budget. Answer questions about your goals. Quicken helps you set a budget that works.
- Pay bills on time. Avoid late fees and save time. Pay your bills from Quicken in just a few clicks.\*

\* Designed for new users, this version does not import previous Quicken data. Online features require Internet access. Services vary among financial institutions and may be subject to additional terms, conditions, and fees.

## 60-day Microsoft Office trial

### Try Microsoft Office for 60 days

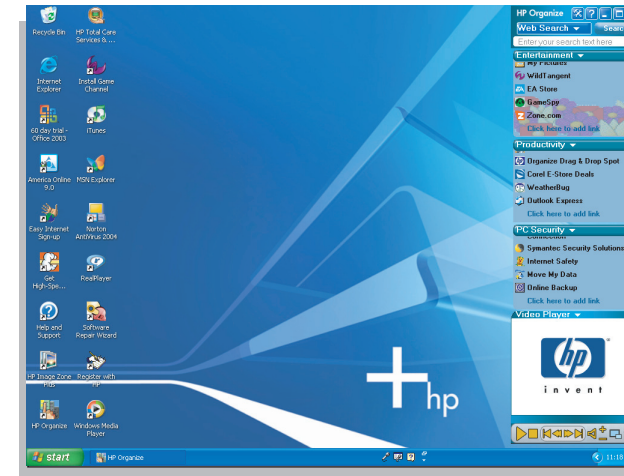

Here's your chance to try out the latest Microsoft® Office 2003 Edition for 60 days free of charge. This fully-functional trial version of Microsoft Office has these great features:

- Enhanced Microsoft Outlook and improved e-mail features
- Spam filtering and virus protection in Outlook
- Compatible with existing Microsoft Office 97, Microsoft Office 2000, and Microsoft Office XP documents
- Ease of use with task panes and online assistance and training
- Quick and easy sharing of your created documents on the go, at work, or at home

## Organize your desktop so it makes sense to you!

Customizing your PC just got easier with the HP Organize application. It's designed to manage all your files, programs, and favorite Web sites in one place. Arrange the look to reflect your own unique style. In addition to managing and accessing your favorites, you can search for files, listen to your music, view photos, and watch videos.

- Go to **your** Web destinations or access local PC files with one simple mouse click.
- **You** decide how Organize looks and which layout view is shown.
- Find **your** information using a fast and convenient Search bar and **your** choice amongst a group of the most popular search engines.
- Customize with ease — drag and drop new links into **your** categories, or change which categories show.
- Download fun skins and new content from the HP Organize Drag & Drop Spot into **your** Organize.
