

USER MANUAL

FOR

Wireless Thermometer

MODEL: AT-01

Get to know the Device

Probe with cable

Probe Wrap

AAA Battery

The device provides 2 sockets for probes, which enable you monitor 2 items at once.

Put in the Battery

2 AAAsize batteries are needed for this device. Make sure they are put in the right direction by following the icons on the unit.

- ❶ Push to open the battery cover on the top of the device
- ❷ Put in batteries, noticing the icons which show directions.
- ❸ Put back the battery cover.

Install the probes

The device will keep scanning the sockets when its power is switched on, the Probe icons on LCD will be displayed in sequence where probes are plugged in.

Then insert the probes into the food, make sure the front tip of the probe is in the center of the food to get accurate temperature.

 **END**

Download the APP

Search the keyword '*TempBBQ*' in Appstore or Google Play, or scan the following QR code with your phone.

Download and install it for free.

Make sure your phone meets the requirements:

iPhone 4S, and later models;

iPod touch 5th, iPad 3rd generations and later models,

all ipad mini;

Android devices running version 4.3 or later, with blue-tooth 4.0 module.

Power ON/OFF

Press and hold the button for more than 3 seconds when it is in OFF mode, it will be powered on. And the LCD display will show 'ON' with a beep sound. If you do the same when it is in ON mode, it will be powered off. When this is no probe inserted in the device, it will powered off automatically.

Pair with your phone

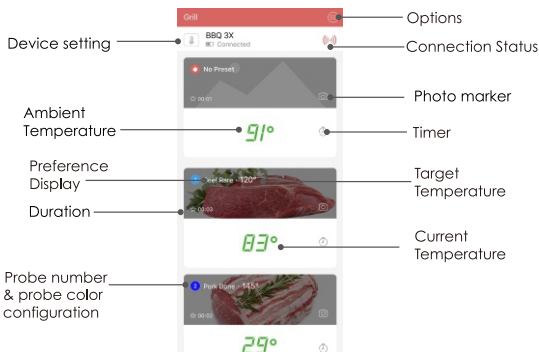

- ➊ Switch on your device and keep the blue-tooth switch of your phone on.
- ➋ Launch the app, and follow the instructions in the app to pair and activate the device:
Press the Pairing / Stop Alarm Button (on the right of the device).
- ➌ Connected successfully.

Once Paired the device with your phone, you don't need to do it again, unless you change to other phones.

Enjoy Your barbecue time

Choose food type and preference for the food where each probe is inserted, the app and the device will display its current and target temperature.

When the food is ready, the app and the device will alarm.

**The user interface of the app may be changed when upgrade.
Please follow the instructions in the app.**

Probe color configuration

It's getting difficult for you to distinguish different probes when you have several probes in use.

The app provides 6 colors for each channel, which enable users set them to be identical to the color of the probes.

WARNING

The heat resistance varies in different components of the probe,
DO NOT put the probes directly in fire flame.
DO NOT put the wrap into oven, or it will melt!
And probes are NOT dishwasher safe.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

RF exposure compliance statement:

This device has been evaluated to meet the general RF exposure requirement, it can be used in portable exposure condition without restriction.
