## Warnings

Park the vehicle before operating the device.

- Do not disassemble, assemble, or modify the Multimedia system. Such acts could result in accidents, fire, or electric shock.
- Heed caution not to spill water or introduce foreign objects into the device. Such acts could lead to smoke, fire, or product malfunction.
- If you use phone related functions while driving, you will find it difficult to concentrate on operating the vehicle and the current traffic conditions, so the possibility of an accident may increase. Please use phone related functions only when parked.
- Do not stop or park in parking-restricted areas to operate the product. Such acts could lead to traffic accidents.
- For most Audio and multimedia modes, the display will not operate when the vehicle is in motion. For your safety, first park the vehicle to watch or view the screen. (The screen will only operate when the parking brake is ON for manual transmission vehicles and when the parking brake is ON or the gearshift is in the P (PARK) position for automatic.)
- Some functions other than the one mentioned above cannot be used while driving. These functions operate only when the vehicle is parked.

## Cautions

Turn on the car ignition before using this device. Do not operate the Multimedia system for long periods of time with the ignition turned off as such operations may lead to battery discharge.

Pay attention to traffic conditions while driving.

- Upon using the Multimedia system for more than 10 minutes with the car engine turned off, the following warning will be displayed. After 10 minutes, the warning will be displayed for 5 seconds every 1 minute.
- Do not subject the device to severe shock or impact. Direct pressure onto the front side of the monitor may cause damage to the LCD or touch screen.
- When cleaning the device, make sure to turn off the device and use a dry and smooth cloth. Never use tough materials, chemical cloths, or solvents(alcohol, benzene, thinners, etc.) as such materials may damage the device panel or cause color/quality deterioration. When experiencing product concerns, inquire with your place of purchase or service maintenance center.
- Prevent caustic solutions such as perfume and cosmetic oil from contacting the dashboard because they may cause damage or discoloration.

# Starting the System for the First Time

---

## Turning the System On/Off

---

Press the engine start button or set the ignition key to On or ACC. Each time you turn on the system, a boot logo and safety warning will appear.

Pressing the power key on the head unit will display the safety guide. To change the system language between English, French, Spanish and Korean, select the **Language** button.

---

### NOTICE

---

- You cannot operate the system while it is booting up. It may take some time for all of features of the system, particularly the voice recognition system, to be ready for use.
- 

Pressing and holding the power key on the head unit will turn off the system.

---

### Information

---

- If you turn off the system during a phone call using the Hands-free feature, then the call will automatically switch to your mobile phone.
- 

---

### NOTICE

---

- Check the volume when turning on the system. Before turning on the system, adjust the volume to a reasonable level.
- 

---

## System Reset

---

The System Reset function restores the system when it is not operating correctly. Press and hold the RESET key for a second or longer. (It is recommended that you press the RESET key using a tool, such as a pin or a clip.)

---

## Battery Warning Message

---

Always use the system while the car engine is running. If you turn on the system while the engine is off, a battery warning message will appear. When the engine starts, the message will disappear.

---

## NOTICE

---

- If you use the system for a long time with the engine off, the battery may become completely discharged.
- 

---

## Restrictions on Features for Safety Measures

---

Several features are limited while driving. The restriction screen will disappear when shifting gears into P or putting the parking brake on.

---

### **⚠ WARNING**

---

#### **- Blank Screen**

- Refrain from use if the screen is blank or no sound can be heard as these signs may indicate product malfunction. Continued use in such conditions could lead to accidents (fires, electric shock).
- 

---

### **⚠ WARNING**

---

#### **- Touching the Antenna During A Thunder Storm**

- Do not touch the antenna during thunder or lightning as such acts may lead to lightning induced electric shock.

## Before Playing a USB MP3

---

Connect the USB device after turning on the engine. The USB device may become damaged if it is already connected when the ignition is turned on.

- Files that are not standard format music/image files will not be played.
  - For MP3/WMA/OGG files, only music files with compression rates between 8Kbps ~ 320Kbps can be played.
  - Heed caution to static electricity when connecting/disconnecting external USB devices.
  - Encoded MP3 Players will not be recognized when connected as an external device.
  - When connecting an external USB device, the device may not properly recognize the USB in some states.
  - Only products formatted with byte/sectors under 64Kbyte will be recognized.
  - USB devices, formatted to the FAT12, FAT16, or FAT32 file system are recommended. File systems other than FAT12, FAT16, FAT32, exFAT, and NTFS are not supported.
  - Some USB devices may not be supported due to compatibility issues.
- Take caution so that the USB connector does not come in contact with body parts or objects.
  - Repeated connecting/disconnecting of USB devices within short periods of time may result in product malfunction.
  - Make sure to connect/disconnect external USB devices with the audio power turned off.
  - The amount of time required to recognize the external USB device may differ depending on the type, size, or file formats stored on the USB.
  - The use of USB devices for purposes other than playing music and image files is prohibited.
  - Do not use the USB I/F to charge batteries or USB accessories that generate heat. Such acts may lead to worsened performance or damage to the device.
  - The device may not recognize the USB device if separately purchased USB hubs and extension cables are being used. Connect the USB directly with the multimedia terminal of the vehicle.
  - When using mass storage USB devices with separate logical drives, only files saved to the root drive can be played.
  - When application programs are installed to specific USBs, files may not properly play.

- The device may not operate normally if MP3 Players, cellular phones, digital cameras, or other electronic devices (USB devices not recognized as portable disk drives) are connected with the device.
- Charging through the USB may not work for some mobile devices.
- The device may not support normal operation when using a USB memory type besides Metal Cover Type USB Memory.
- The device may not support normal operation when using formats such as HDD Type, CF, or SD Memory.
- When playing iPods, please use a dedicated iPod car cable.
- Normal operation cannot be guaranteed when other cables are being used.
- The device will not support files locked by DRM. (Digital Rights Management)
- USB memory sticks used by connecting an Adaptor (SD Type or CF Type) may not be properly recognized.
- Only use Plug type connector products, as shown in the figure below.
- To play USB MP3, the USB device must be connected to the USB port in the front multibox. The USB port in the center console storage (if equipped) is for charging only.
