Displays the RDS Menu
- (7) RDS Info
Displays RDS broadcast information

Switching to Radio Mode

Pressing the **RADIO** key will change the operating mode in order of FM1 → FM2 → FMA → AM → AMA.

Pressing the **FM** or **AM** key to change the operating mode in order of FM1 → FM2 → FMA and AM → AMA.

If [Pop-up Mode] is turned on within **Settings** ▶ [Display], then pressing the **RADIO** key will display the Radio Pop-up Mode screen.

Turn the **TUNE** knob to move the focus. Press the knob to select.

Searching Radio Frequencies

Using Seek

Press the **SEEK TRACK** key to play the previous/next frequency.

Using TUNE

Turn the **TUNE** knob to select the desired frequency.

- FM : Increases/decreased by 50kHz
- AM : Increases/decreased by 9kHz

Using Radio Mode

Selecting/Saving Presets

Press the **1**~**6** buttons to play the desired preset.

Press the **INFO** button to display the broadcast information for the frequency saved to each button.

*** NOTICE**

While listening to a frequency you want to save as a preset, press and hold one of the [1] ~ [6] preset buttons (over 0.8 seconds) to save the current frequency to the selected preset.

Auto Store

Press the  button to automatically save receivable frequencies to Preset buttons.

*** NOTICE**

While Auto Store is operating, pressing the [Cancel] button again will cancel Auto Store and restore the previous frequency.

RDS Menu

Press the  button to set the AF (Alternative Frequency), Region and News features.

*** NOTICE**

The RDS Menu is not supported within AM or AMA mode.

Scan

Radio Mode

- Press the key (under 0.8 seconds):
Previews each broadcast for 5 seconds each

*** NOTICE**

Once scan is complete, the previous frequency will be restored.
While Scan is operating, pressing the  key will cancel the scan operation.

Program Type

Press the **PTV FOLDER** key to search for the desired Program type.

Turn the **TUNE** knob left/right to search for the desired program type. Once you find the desired program type, press the **TUNE** knob.

After selecting the desired Program Type and while the Program Type is blinking (approximately 5 seconds), pressing the **PTV FOLDER** key will allow you to select a different Program Type broadcast.

TA (Traffic Announcement)

Press the **TA** key to turn the TA (Traffic Announcement) feature On/Off.

RADIO MODE

- AM100A7GG, AM110A7GG,
AM100A7GE, AM110A7GE,
AM100A7GN, AM110A7GN,
AM100A7GL, AM110A7GL

Basic Mode Screen

- (1) Mode Display
Displays currently operating mode
- (2) Frequency
Displays the current frequency
- (3) Preset
Displays current preset number [1] ~ [6]
- (4) Preset Display
Displays preset buttons
- (5) Autostore
Automatically saves frequencies with superior reception to Preset buttons

Switching to Radio Mode

Pressing the **RADIO** key will change the operating mode in order of FM1 → FM2 → AM

Press the **FM** or **AM** key to change the mode in order of FM1 → FM2 and AM.

If [Mode Pop-up] is turned on within **SETUP** ▶ [Display], then pressing the **RADIO** key will display the Radio Pop-up Mode screen.

Turn the **TUNE** knob to move the focus. Press the knob to select.

Searching Radio Frequencies

Using Seek

Press the  key to play the previous/next frequency.

Using TUNE

Turn the  knob to select the desired frequency.

- FM : Increases/decreased by 100kHz
- AM : Increases/decreased by 9kHz

Using Radio Mode

Selecting /Saving Presets

Press the  button to display the broadcast information for the frequency saved to each button.

Press the  ~  buttons to play the desired preset.

* NOTICE

While listening to a frequency you want to save as a preset, press and hold one of the [1] ~ [6] preset buttons (over 0.8 seconds) to save the current frequency to the selected preset.

Auto Store

Press the  button to automatically save receivable frequencies to Preset buttons.

Scan

Press the  key to preview frequencies with superior reception for 5 seconds each.

Press and hold the  key (over 0.8 seconds) to preview presets for 5 seconds each.

* NOTICE

- Once scan is complete, the previous frequency will be restored.
- While Scan is operating, pressing the  key will cancel the scan operation.

Using Audio CD Mode

Playing/Pausing CD Tracks

Once an audio CD is inserted, the mode will automatically start and begin playing.

<for RDS model>

While playing, press the **||** button to pause and press **▶** button to play.

* NOTICE

- Only genuine audio CDs are supported. Other discs may result in recognition failure (e.g. copy CD-R, CDs with labels)
- The artist and title information are displayed on the screen if track information is included within the audio CD.

Changing Tracks

Press the **SEEK TRACK** key to move to the previous or next track.

* NOTICE

- Pressing the **SEEK TRACK** key after the track has been playing for 2 seconds will start the current track from the beginning.
- Pressing the **SEEK TRACK** key before the track has been playing for 1 seconds will start the previous track.

Selecting from the List

Turn the **TUNE** knob left/right to search for the desired track.

Once you find the desired track, press the **TUNE** knob to start playing.

Rewinding / Fast-forwarding Tracks

While playing, press and hold the **SEEK TRACK** key (over 0.8 seconds) to rewind or fast-forward the current track.

Scan

Press the **SCAN** key to play the first 10 seconds of each file.

Audio CD Mode Menu

Within this mode, you will have access to the Info, Random(Shuffle), Repeat and List features.

<for RDS model>

Info

Press the **i** (Info) button to display details about the current disc.

Random(Shuffle)

Press the **⌘** (Shuffle) button to play tracks in random(Shuffle) order.

Press the button again to turn the Random(Shuffle) feature off.

- Random(Shuffle): Plays all tracks in random(Shuffle) order.

Repeat

Press the **↺** (Repeat) button to repeat the current track. Press the button again to turn the repeat feature off.

- Repeat: Repeats the current track.

List

Press the **☰** (List) button to display the track list screen.

Turn the **⊙**TUNE knob left/right to search for tracks. Once the desired track is displayed, press the knob to select and play.

MP3 CD MODE

Basic Mode Screen

<for RDS model>

(1) Mode

Displays currently operating mode.

(2) Operation State

From Repeat/Random(Shuffle)/ Scan, displays the currently operating function

(3) File Index

Displays the current file number

(4) File Info

Displays information about the current file

(5) Play/Pause

Changes the play/pause state

(6) Play Time

Displays the current play time

(7) Info

Shows detailed information about the current file

(8) Random(Shuffle)

Turns the Random(Shuffle) feature on/off

(9) Repeat

Turns the Repeat feature on/off

(10) Copy

Copies the current file into My Music

(11) List

Moves to the list screen

Using MP3 CD Mode

Playing/Pausing MP3 Files

Once an MP3 disc is inserted the mode will automatically start and being playing.

<for RDS model>

While playing, press the **||** button to pause and press **▶** button to play.

* NOTICE

If there are numerous files and folders within the disc, reading time could take more than 10 seconds and the list may not be displayed or song searches may not operate. Once loading is complete, try again.

Changing Files

Press the **SEEK TRACK** key to move to the previous or next file.

* NOTICE

- Pressing the **SEEK TRACK** key after the file has been playing for 2 seconds will start the current file from the beginning.
- Pressing the **SEEK TRACK** key before the file has been playing for 1 seconds will start the previous file.

Selecting from the List

Turn the **TUNE** knob left/right to search for the desired file.

Once you find the desired file, press the **TUNE** knob to start playing.

Rewinding / Fast-forwarding Files

While playing, press and hold the **SEEK TRACK** key (over 0.8 seconds) to rewind or fast-forward the current file.

Features of your vehicle

Scan

Press the **SCAN** key to play the first 10 seconds of each file.

Searching Folders

Press the **PTY FOLDER** (**FOLDER**) key to select and search folders.

Once the desired folder is displayed, press the **TUNE** knob to select.

The first file within the selected folder will begin playing.

MP3 CD Mode Menu

Within this mode, you will have access to the Info, Random(Shuffle), Repeat, Copy and List features.

<for RDS model>

Info

Press the **i** (**Info**) button to display details about the current file.

* NOTICE

- When the 'Folder File' option is set as the default display within Display setup, the album/artist/file information are displayed as detailed file information.
- When the 'Album Artist Song' option is set as the default display, the folder name/file name are displayed as detailed file information.
- The title, artist and album info are displayed only when such information are recorded within the MP3 file ID3 tag.

Random(Shuffle)

Press the  (Shuffle) button to play files in random(Shuffle) order.

Each time the button is pressed, the feature changes in order of Random (Shuffle) Folder → Random (Shuffle) All → Off.

- Random(Shuffle) Folder : Plays all files within the current folder in Random (Shuffle) order.
- Random(Shuffle) All : Plays all files in Random(Shuffle) order.

Repeat

Press the  (Repeat) button to repeat the current file or folder.

Each time the button is pressed, the feature changes in order of Repeat → Repeat Folder → Off.

- Repeat: Repeats the current file.
- Repeat Folder: Repeats all files within the current Folder.

Copying Files

Press the  (Copy) button to copy the current file into My Music.

*** NOTICE**

Selecting another feature during copying will display a pop-up asking whether you wish to cancel copying. To cancel, select 'Yes'.

List

Press the  (List) button to display the file list screen.

Turn the  TUNE knob left/right to search for files. Once the desired file is displayed, press the knob to select and play.

*** NOTICE - USING THE USB DEVICE**

- Connect the USB device after turning on the engine. The USB device may become damaged if it is already connected when the ignition is turned on. The USB device may not operate properly if the car ignition is turned on or off with the USB device connected.
- Heed caution to static electricity when connecting/disconnecting USB devices.
- Encoded MP3 Players will not be recognized when connected as an external device.
- When connecting an external USB device, the device may not properly recognize the USB is in some states.
- Only products formatted with byte/sectors under 64Kbyte will be recognized.
- This device recognizes USB devices formatted in FAT 12/16/32 file formats. This device does not recognize files in NTFS file format.

(Continued)

(Continued)

- Some USB devices may not be supported due to compatibility issues.
- Avoid contact between the USB connector with bodily parts or foreign objects.
- Repeated connecting/disconnecting of USB devices within short periods of time may result in product malfunction.
- A strange noise may occur when disconnecting the USB.
- Make sure to connect/disconnect external USB devices with the audio power turned off.
- The amount of time required to recognize the USB device may differ depending on the type, size or file formats stored in the USB. Such differences in time are not indications of malfunctions.
- The device only supports USB devices used to play music files.
- USB images and videos are not supported.

(Continued)

(Continued)

- Do not use the USB I/F to charge batteries or USB accessories that generate heat. Such acts may lead to worsened performance or damage to the device.
- The device may not recognize the USB device if separately purchased USB hubs and extension cables are being used. Connect the USB directly with the multimedia terminal of the vehicle.
- When using mass storage USB devices with separate logical drives, only files saved to the root drive can be played.
- Files may not properly operate if application programs are installed to the USBs.
- The device may not operate normally if MP3 Players, cellular phones, digital cameras, or other electronic devices (USB devices not recognized as portable disk drives) are connected with the device.

(Continued)

(Continued)

- Charging through the USB may not work for some mobile devices.
- The device may not support normal operation when using a USB memory type besides (Metal Cover Type) USB Memory.
- The device may not support normal operation when using formats such as HDD Type, CF, or SD Memory.
- The device will not support files locked by DRM (Digital Rights Management.)
- USB memory sticks used by connecting an Adaptor (SD Type or CF Type) may not be properly recognized.
- The device may not operate properly when using USB HDDs or USBs subject to connection failures caused by vehicle vibrations. (e.g. i-stick type)

(Continued)

(Continued)

- Avoid use of USB memory products that can also be used as key chains or mobile phone accessories. Use of such products may cause damage to the USB jack.
- Connecting an MP3 device or phone through various channels, such as AUX/BT or Audio/USB mode may result in pop noises or abnormal operation.

Press the  (Copy) button to copy the current file into My Music.

*** NOTICE**

Selecting another feature during copying will display a pop-up asking whether you wish to cancel copying. To cancel, select 'Yes'.

List

Press the  (List) button to display the file list screen.

Turn the  TUNE knob left/right to search for files. Once the desired file is displayed, press the knob to select and play.

*** NOTICE - USING THE iPod® DEVICE**

- iPod® is a registered trademark of Apple Inc.
- In order to use the iPod while operating the keys, you must use a dedicated iPod cable. (the cable that is supplied when purchasing iPod/iPhone products)
- If the iPod is connected to the vehicle while it is playing, a high pitch sound could occur for approximately 1-2 seconds immediately after connecting. If possible, connect the iPod to the vehicle with the iPod stopped/paused.
- During ACC ON state, connecting the iPod through the iPod cable will charge the iPod through the car audio system.
- When connecting with the iPod cable, make sure to fully insert the jack to prevent communication interference.

(Continued)

(Continued)

- When the EQ features of an external device, such as the iPod, and the audio system are both active, EQ effects could overlap and cause sound deterioration and distortion. Whenever possible, turn off the EQ feature within the external device upon use by connecting with the audio system.
- Noise may occur when an iPod or AUX device is connected. When such devices are not being used, disconnect the device for storage.
- When the iPod or AUX device power is connected to the power jack, playing the external device may result in noise. In such cases, disconnect the power connection before use.
- Skipping or improper operation may occur depending on the characteristics of your iPod/Phone device.
- If your iPhone is connected to both the *Bluetooth*® Wireless Technology and USB, the sound may not be properly played. In your iPhone, select the Dock connector or *Bluetooth*® Wireless Technology to change the sound output (source).

(Continued)

(Continued)

- iPod mode cannot be operated when the iPod cannot be recognized due to the playing of versions that do not support communication protocols, cases of iPod abnormalities and defects.
- For fifth generation iPod Nano devices, the iPod may not be recognized when the battery level is low. Please charge the iPod for use.
- Search/play orders shown within the iPod device may differ with the orders shown within the audio system.
- If the iPod malfunctions due to an iPod device defect, reset the iPod and try again. (To learn more, refer to your iPod manual)
- Some iPods may not sync with the System depending on its version. If the Media is removed before the Media is recognized, then the system may not properly restore the previously operated mode. (iPad charging is not supported.)

Using iPod Mode

Playing/Pausing iPod Songs

Once an iPod is connected, the mode will automatically start and begin playing an iPod song.

<for RDS model>

While playing, press the **||** button to pause and press **▶** button to play.

* NOTICE

iPods with unsupported communication protocols may not properly operate in the audio system.

Changing Songs

Press the **SEEK TRACK** key to move to the previous or next song.

* NOTICE

- Pressing the **SEEK TRACK** key after the song has been playing for 2 seconds will start the current song from the beginning.
- Pressing the **SEEK TRACK** key before the song has been playing for 1 seconds will start the previous song.
- Slight time differences may exist depending your iPod product.

Rewinding / Fast-forwarding Songs

While playing, press and hold the **SEEK TRACK** key (over 0.8 seconds) to rewind or fast-forward the current song.

Searching Categories

Turn the **TUNE** knob left/right to search for the desired category.

<for RDS model>

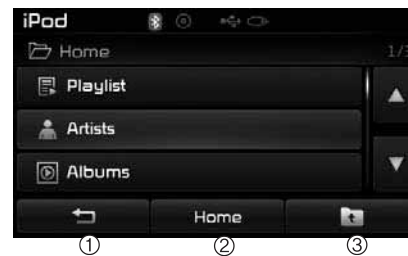

Once you find the desired category, press the **TUNE** knob to select and play.

*** NOTICE**

There are eight categories that can be searched, including Playlists, Artists, Albums, Genres, Songs, Composers, Audiobooks and Podcasts.

Category Menu

Within the iPod Category menu, you will have access to the , Home, and  features.

- (1)  : Displays the play screen
- (2) Home : Moves to the iPod root category screen
- (3)  : Moves to the previous category

*** NOTICE**

- If the search mode is accessed while playing a song, the most recently searched category is displayed.
- Search steps upon initial connection may differ depending on the type of iPod device.

iPod Mode Menu

Within this mode, you will have access to the Random(Shuffle), Repeat and List features.

<for RDS model>

Random(Shuffle)

Press the  (Shuffle) button to play songs in random(Shuffle) order. Each time the button is pressed, the feature changes in order of Random(Shuffle) Album→Random(Shuffle) All→Off.

- Random(Shuffle) Album : Shuffle Album plays album in Random(Shuffle) order.
- Random(Shuffle) All : Plays all songs in Random(Shuffle) order.

Repeat

Press the  (Repeat) button to repeat the current song. Press the button again to turn the repeat feature off.

- Repeat : Repeats the current song

List

Press the  (List) button to display the Category Menu.

<for RDS model>

Turn the  TUNE knob left/right to search for the desired category.

Once you find the desired category, press the  TUNE knob to select and play.

AUX MODE

Using AUX Mode

Press the **MEDIA** key ▶ Select [AUX]

An external device can be connected to play music.

Connecting an External Device

External audio players (Camcorders, car VCR, etc.) can be played through a dedicated cable.

* NOTICE

- If an external device connector is connected with the AUX terminal, then AUX mode will automatically operate. Once the connector is disconnected, the previous mode will be restored.
- AUX mode can be used only when an external audio player (camcorder, car VCR, etc.) has been connected.
- The AUX volume can be controlled separately from other audio modes.
- Connecting a connector jack to the AUX terminal without an external device will convert the system to AUX mode, but only output noise. When an external device is not being used, also remove the connector jack.
- When the external device power is connected to the power jack, playing the external device may output noise. In such cases, disconnect the power connection before use.
- Fully insert the AUX cable to the AUX jack upon use.

Bluetooth[®] Wireless
Technology Audio Mode**

- *Bluetooth*[®] Wireless Technology Audio Mode can be used only when a *Bluetooth*[®] Wireless Technology phone has been connected.
- *Bluetooth*[®] Wireless Technology Audio Mode will not be available when connecting mobile phones that do not support this feature.
- While *Bluetooth*[®] Wireless Technology Audio is playing, if the *Bluetooth*[®] Wireless Technology phone is connected, then the music will also stop.
- Moving the Track up/down while playing *Bluetooth*[®] Wireless Technology audio mode may result in pop noises in some mobile phones.
- *Bluetooth*[®] Wireless Technology streaming audio may not be supported in some mobile phones.

(Continued)

(Continued)

- When returning to *Bluetooth*[®] Wireless Technology Audio mode after ending a call, the mode may not automatically restart in some mobile phones.
- Receiving an incoming call or making an outgoing call while playing *Bluetooth*[®] Wireless Technology Audio may result in audio interference.

***Bluetooth*[®] Wireless
Technology AUDIO MODE
(for *Bluetooth*[®] Wireless
Technology equipped model)**

**Using *Bluetooth*[®] Wireless
Technology Audio Mode**

***Playing/Pausing Bluetooth*[®]
*Wireless Technology Audio***

Once a *Bluetooth*[®] Wireless Technology device is connected, the mode will automatically start.

While playing, press the  button to pause and press  button to play.

*** NOTICE**

The play/pause feature may operate differently depending on the mobile phone.

Changing Files

Press the  key to move to the previous or next file.

Setting Connection

If a *Bluetooth*® Wireless Technology device has not been connected, press the **SETUP** () key ▶ [Phone] button to display the *Bluetooth*® Wireless Technology connection screen.

It is possible to use the pair phone, connect/disconnect and delete features from your *Bluetooth*® Wireless Technology phone.

*** NOTICE**

- If the *Bluetooth*® Wireless Technology audio is not operating properly, check whether the feature is turned off at **SETUP** () ▶ [Phone] ▶ [Audio streaming] (Streaming Audio). If the feature is off, turn back on and try again.
- If music is not yet playing from your mobile device after converting to *Bluetooth*® Wireless Technology Audio mode, pressing the play button once may start playing the mode. Check to see that music is playing from the *Bluetooth*® Wireless Technology device after converting to *Bluetooth*® Wireless Technology Audio Mode.

**Bluetooth® Wireless Technology
(for RDS, Bluetooth® Wireless
Technology equipped model)**

**Using Bluetooth® Wireless
Technology Handsfree**

- *Bluetooth®* Wireless Technology refers to a short-distance wireless networking technology which uses a 2.45GHz frequency to connect various devices within a certain distance.
- Supported within PCs, external devices, *Bluetooth®* Wireless Technology phones, PDAs, various electronic devices, and automotive environments, *Bluetooth®* Wireless Technology allows data to be transmitted at high speeds without having to use a connector cable.
- *Bluetooth®* Wireless Technology Handsfree refers to a device which allows the user to conveniently make phone calls with *Bluetooth®* Wireless Technology mobile phones through the audio system.

 **CAUTION**

- *Bluetooth® Wireless Technology Handsfree is a feature that enables drivers to practice safe driving. Connecting the car audio system with a Bluetooth® Wireless Technology phone allows the user to conveniently make calls, receive calls, and manage the phone book. Before using the Bluetooth® Wireless Technology, carefully read the contents of this user's manual.*
- *Excessive use or operations while driving may lead to negligent driving practices and be the cause of accidents.*
- *Do not operate the device excessively while driving.*
- *Viewing the screen for prolonged periods of time is dangerous and may lead to accidents. When driving, view the screen only for short periods of time.*

*** NOTICE - USING UPON CONNECTING *Bluetooth*® Wireless Technology PHONE**

- Before connecting the car audio system with the mobile phone, check to see that the mobile phone supports *Bluetooth*® Wireless Technology features.
- Even if the phone supports *Bluetooth*® Wireless Technology, the phone will not be found during device searches if the phone has been set to hidden state or the *Bluetooth*® Wireless Technology power is turned off. Disable the hidden state or turn on the *Bluetooth*® Wireless Technology power prior to searching/connecting with the car audio system.

(Continued)

(Continued)

- If you do not want to automatically connect your *Bluetooth*® Wireless Technology phone, try the following.
 1. Turn off the *Bluetooth*® Wireless Technology feature in your mobile phone.
 - For more information on *Bluetooth*® Wireless Technology features within your mobile, refer to your mobile phone user's manual.
 2. Turn off the *Bluetooth*® Wireless Technology feature in your car audio system.
 - To turn off the *Bluetooth*® Wireless Technology feature in your car audio system, go to **SETUP** () > [Phone] and **[Bluetooth System Off]** the *Bluetooth*® Wireless Technology feature.
- Park the vehicle when connecting the car audio system with your mobile phone.

(Continued)

(Continued)

- *Bluetooth*® Wireless Technology connection may become intermittently disconnected in some mobile phones. Follow these steps to try again.
 1. Turn the *Bluetooth*® Wireless Technology function within the mobile phone off/on and try again.
 2. Turn the mobile phone power Off/On and try again.
 - 3 Completely remove the mobile phone battery, reboot, and then again.
 4. Reboot the audio system and try again.
 5. Delete all paired devices, pair and try again.
- The Handsfree call volume and quality may differ depending on the mobile phone.

(Continued)

(Continued)

- *Bluetooth*[®] Wireless Technology features supported within the vehicle are as follows. Some features may not be supported depending on your *Bluetooth*[®] Wireless Technology device.
 - Answering and placing *Bluetooth*[®] Wireless Technology Handsfree calls
 - Menu operation during call (Switch to Private, Switch to call waiting, Outgoing volume)
 - Download Call History
 - Download Mobile Phone book
 - Phone book/Call History Auto Download
 - *Bluetooth*[®] Wireless Technology device auto connection - *Bluetooth*[®] Wireless Technology Audio
- It is possible to pair up to five *Bluetooth*[®] Wireless Technology devices to the car system.
- Only one *Bluetooth*[®] Wireless Technology device can be connected at a time.

(Continued)

(Continued)

- Other devices cannot be paired while a *Bluetooth*[®] Wireless Technology device is already connected.
- When a *Bluetooth*[®] Wireless Technology device is being connected, the connection process cannot be canceled.
- Only *Bluetooth*[®] Wireless Technology Handsfree and *Bluetooth*[®] Wireless Technology audio related features will operate within this system.
- Normal operation is possible only for devices that support Handsfree or audio features, such as a *Bluetooth*[®] Wireless Technology mobile phone or a *Bluetooth*[®] Wireless Technology audio device.
- Only one function can be used at a time between the *Bluetooth*[®] Wireless Technology Handsfree and *Bluetooth*[®] Wireless Technology audio. (While playing *Bluetooth*[®] Wireless Technology audio, streaming will end upon entering the *Bluetooth*[®] Wireless Technology phone screen.)

(Continued)

(Continued)

- If a connected *Bluetooth*[®] Wireless Technology device becomes disconnected for various reasons, such as being out of range, turning the device OFF, or a *Bluetooth*[®] Wireless Technology communication error, *Bluetooth*[®] Wireless Technology devices are automatically searched and connected.
- Placing the audio system within an electromagnetic environment may result in noise interference.

Pairing a *Bluetooth*[®] Wireless Technology wireless technology Device

What is *Bluetooth*[®] Wireless Technology Pairing?

Pairing refers to the process of synchronizing your *Bluetooth*[®] Wireless Technology phone or device with the car audio system for connection. Pairing is necessary to connect and use the *Bluetooth*[®] Wireless Technology feature.

Pairing Key / Key on the Steering Remote Controller

When No Devices have been Paired

1. Press the  key or the  key on the steering remote controller. The following screen is displayed.
2. Press the  button to enter the Pair Phone screen.

- (1) Device : Name of device as shown when searching from your *Bluetooth*[®] Wireless Technology device
- (2) Passkey : Passkey used to pair the device
3. From your *Bluetooth*[®] Wireless Technology device (i.e. Mobile Phone), search and select your car audio system.
4. After a few moments, a screen is displayed where the passkey is entered. Here, enter the passkey "0000" to pair your *Bluetooth*[®] Wireless Technology device with the car audio system.

5. Once pairing is complete, the following screen is displayed.

*** NOTICE**

- If *Bluetooth*[®] Wireless Technology devices are paired but none are currently connected, pressing the  key or the  key on the steering remote controller displays the following screen. Press the [Pair] button to pair a new device or press the [Connect] to connect a previously pair device.

Pairing through [PHONE] Setup

Press the  key ▶ Select [Phone] ▶ Select [Pair Phone] ▶ Select  TUNE knob

1. The following steps are the same as the steps described in the "When No Devices have been Paired" section.

*** NOTICE**

- The waiting period during phone pairing will last for one minute. The pairing process will fail if the device is not paired within the given time. If the pairing process fails, you must start the process from the beginning.
- Generally, most *Bluetooth*[®] Wireless Technology devices will automatically connect once pairing is complete. However, some devices may require a separate verification process to connect. Check to see whether *Bluetooth*[®] Wireless Technology has been properly connected within your mobile phone.
- List of paired *Bluetooth*[®] Wireless Technology devices can be viewed at  ▶ [Phone] ▶ [Paired Phone List].

Connecting a Device

Press the  key ▶ Select [Phone] ▶ Select [Paired Phone List]

- (1) Connected Phone : Device that is currently connected
- (2) Paired Phone : Device that is paired but not connected

From the paired phone list, select the device you want to connect and press the  button.

Changing Priority

What is Priority?

It is possible to pair up to five *Bluetooth®* Wireless Technology devices with the car audio system. As a result, the “Change Priority” feature is used to set the connection priority of paired phones. However, the most recently connected phone will always be set as the highest priority.

Press the  key ▶ Select [Phone] ▶ Select [Paired Phone List]

From the paired phone list, select the phone you want to change to the highest priority, then press the  button from the Menu. The selected device will be changed to the highest priority.

*** NOTICE**

When a device is currently connected, even if you change the priority to a different device, the currently connected phone will always be set as the highest priority.

Disconnecting a Device

Press the  key ▶ Select [Phone] ▶ Select [Paired Phone List]

From the paired phone list, select the currently connected device and press the  button.

Deleting a Device

Press the  key ▶ Select [Phone] ▶ Select [Paired Phone List]

From the paired phone list, select the device you want to delete and press the  button.

*** NOTICE**

- When deleting the currently connected device, the device will automatically be disconnected to proceed with the deleting process.
- If a paired *Bluetooth*® Wireless Technology device is deleted, the device's call history and phone book data will also be deleted.
- To re-use a deleted device, you must pair the device again.

USING *Bluetooth*® Wireless Technology

Phone Menu Screen

Phone Menus

With a *Bluetooth*® Wireless Technology device connected, press the  key to display the Phone menu screen.

- (1) Dial Number : Displays the dial screen where numbers can be dialed to make calls
- (2) Call History : Displays the call history list screen

- (3) Phone book : Displays the Phone book list screen
- (4) Setup : Displays Phone related settings

* NOTICE

- If you press the [Call History] button but there is no call history data, a prompt is displayed which asks whether to download call history data.
- If you press the [Phone book] button but there is no phone book data, a prompt is displayed which asks whether to download phone book data.
- This feature may not be supported in some mobile phones. For more information on download support, refer to your mobile phone user's manual.

Calling by Dialing a Number

Press the  key ▶ Select [Dial Number]

- (1) Dial Pad : Used to enter phone number
- (2) Call : If a number has been entered, calls the number. If no number has been entered, switches to call history screen
- (3) End : Deletes the entered phone number
- (4) Delete : Deletes entered numbers one digit at a time

Answering Calls

Answering a Call

Answering a call with a *Bluetooth®* Wireless Technology device connected will display the following screen.

- (1) Caller : Displays the other part's name when the incoming caller is saved within your phone book
- (2) Incoming Number : Displays the incoming number
- (3) Accept : Accept the incoming call
- (4) Reject : Reject the incoming call

* NOTICE

- When the incoming call pop-up is displayed, most Audio and SETUP mode features will not operate. Only the call volume can be operated.
- The telephone number may not be properly displayed in some mobile phones.
- When a call is answered with the mobile phone, the call mode will automatically convert to Private mode.

During a Handsfree Call

- (1) Caller : Displays the other party's name if the incoming caller is saved within your phone book
- (2) Incoming Number : Displays the incoming number
- (3) Call time : Displays the call time
- (4) End : Ends call
- (5) Private : Converts to Private mode
- (6) Out Vol. : Sets call volume as heard by the other party
- (7) Mute : Turns Mic Mute On/Off

* NOTICE

If the mic is muted, the other party will not be able to hear your voice.

Call History

Press the  key ▶ Select [Call History]

A list of incoming, outgoing and missed calls is displayed.

Press the [Download] button to download the call history.

(1) Call History :

- Displays recent calls (call history)
- Connects call upon selection

(2) Download : Download Recent Call History

* NOTICE

- The call history list will display up to 30 outgoing, incoming, and missed calls.
- Upon downloading call histories, previously saved histories are deleted.
- Incoming calls with hidden caller IDs will not be saved in the call history list.
- Previously saved phone book entries are stored even if a device is disconnected and re-connected.
- The download feature may not be supported in some mobile phones. Check to see that the *Bluetooth*[®] Wireless Technology device supports the download feature.

Phone Book

Press the  key ▶ Select [Phone book]

The list of saved phone book entries is displayed. Press the [Download] button to download the call history.

(1) Contact List :

- Displays downloaded phone book entries
- Connects call upon selection

(2) Download : Download phone book entries

* NOTICE

- Up to 1,000 phone book entries can be copied into car phone book.
- Upon downloading phone book data, previously saved phone book data will be deleted.
- Downloading is not possible if the phone book download feature is turned off within the *Bluetooth*[®] Wireless Technology device. Also, some devices may require device authorization upon attempting to download. If downloading cannot be normally conducted, check the *Bluetooth*[®] Wireless Technology device setting or the screen state.
- Caller ID information will not be displayed for unsaved callers.
- The download feature may not be supported in some mobile phones. Check to see that the *Bluetooth*[®] Wireless Technology device supports the download feature.

- The download feature may not be supported in some mobile phones. Check to see that the *Bluetooth*[®] Wireless Technology device supports the download feature.

Appendix Homologation

FCC Compliance Statement.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions :

- (1) This device may not cause harmful interference, and**
- (2) This device must accept any interference received, including interference that may cause undesired operation.**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Do Not

Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

Be sure

The antenna(s) used for this device must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

IC Compliance Statement.

This device complies with Industry Canada licence-exempt RSS standard(s).
Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le present appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisee aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioelectrique subi, meme si le brouillage est susceptible d'en compromettre le fonctionnement.
