Safety Precautions

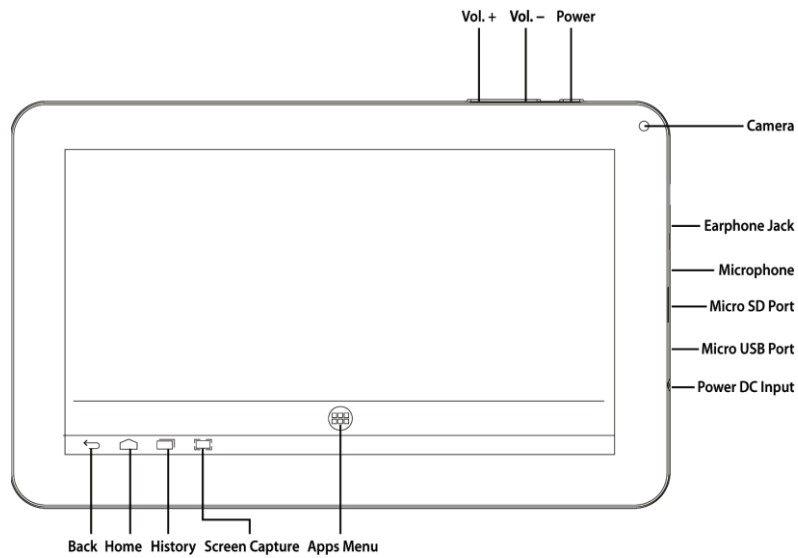

- Do not drop tablet or subject to severe impact.
- Do not use the tablet in extreme hot, cold, dusty or damp conditions. Do not expose it to direct sunlight.
- Avoid using the tablet near strong magnetic fields.
- Normal functioning of the product may be disturbed by ESD. If so, simply reset and restart the tablet following the instruction manual. During file transmission, please handle with care and operate in a static-free environment.
- Keep the tablet away from water and other liquids. In the event that water or other liquids enter the tablet, power off the product immediately and clean.
- Do not use chemicals to clean the tablet in order to avoid corrosion. Clean with a dry cloth.
- Do not install the tablet in a confined space such as a book case or similar unit. The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains etc.
- No naked flame sources, such as lighted candles, should be placed on or near the tablet.
- Attention should be drawn to environmental aspects of battery disposal.
- Use the tablet in moderate climates.
- The manufacturer is not responsible for damage or lost data caused by misuse, or modification of the tablet / battery replacement.
- Do not attempt to disassemble, repair or modify the tablet. This will void the manufacturer's warranty.
- If the tablet will not be used for an extended period of time, please charge the battery at least once per month to maintain battery life.
- Charge the battery if:
 - The battery level icon displays an empty battery
 - The tablet powers off automatically when restarted.
 - There is no response when pressing keys with keys unlocked and battery full.
- Do not interrupt the connection when the tablet is being formatted or transferring files. Interruption of this process may cause data to be lost or corrupted.
- When the tablet is used as a portable HD device, please use only per the instructions. Permanent data loss can occur if used improperly.
- Please use and install data using the attachments/accessories provided and only according to the manufacturer's instruction.

- Please refer to the information on the bottom of the tablet for electrical and safety information before installing data or operating the tablet.
- To reduce the risk of fire or electric shock, do not expose this tablet to rain or moisture. The tablet should not be exposed to dripping/splashing liquids. Never place objects filled with liquid, such as vases, glassware, etc. on the tablet.
- The battery should not be exposed to excessive heat such as sunlight, fire or the like.
- Please follow responsible procedures for battery disposal.
- If the power adapter is disconnected from tablet, the tablet will remain operable as long as the battery has sufficient charge.
- The power adapter is a CLASS II apparatus with double insulation, and no external ground is provided.
- The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
- To reduce the risk of electric shock, do not remove the cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel.
- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the User Guide provided with the tablet.
- Correct Disposal of This Product. This marking indicates that this product should not be disposed of with other household waste. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To dispose of your used tablet, please use the return and collection systems available in your area or contact the retailer where the product was purchased. They can take this product for safe environmental recycling.

Listening Precautions

- This product respects the current regulations for limiting the output volume of consumer audio devices to a safe level. By listening to your device with headphones or ear buds at high volumes, you run the risk of permanent damage to your ears. Even if you get used to listening at high volumes and it seems normal to you, you still risk the possibility of dam-aging your hearing. Reduce the volume of your device to a reasonable level to avoid permanent hearing damage. If you hear ringing in your ears, reduce the volume or shut off your device. Other types of headphones may produce higher volume levels. (At full power, the prolonged listening of the Walkman can damage the ear of the use)
- Maximum output voltage \leq 150mv
- Do not use while operating a motorized vehicle. It may create a traffic hazard and is illegal in many areas.
- You should use extreme caution or temporarily discontinue use in potentially hazardous situations created by obstructed hearing.
- Even if your headphones or earphones are the open-air type designed to let you hear outside sounds, do not turn up the volume so high that you cannot hear what is around you.
- Sound can be deceiving. Over time your hearing “comfort level” adapts to higher volumes of sound. What sounds “normal” can actually be loud and harmful to your hearing. Guard against this by setting the volume of your device at a safe level BEFORE your hearing adapts.
- Start your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly without distortion. Once you have established a comfortable sound level, leave it there.

Product Overview

Navigation Buttons

The navigation buttons at the bottom of the tablet can be used as follows:

Return to Previous Screens; Clear Pop Up Menus

Return to The Home Screen From Any Application

Display Individual Application Menu Options

Charging Your Tablet

Plug the power adapter into an electrical wall outlet; connect the adapter to the tablet to fully charge the battery before use (5 to 6 hrs).

- You can use the tablet while the battery is charging.
- You can also charge the battery using a USB cable but the charge time required is longer than when using the AC adapter. Turn off Wi-Fi and reduce screen brightness if you are charging via USB cable.

Turning Your Tablet On / Off

Press and hold the power button for 3 seconds until the splash screen appears, and then wait until the Welcome screen appears.

To turn off the tablet, press and hold the Power button until you see the option "Power Off", tap on "Power Off" and then tap on "OK".

Tip: For the sake of power saving, this tablet may sleep with the screen display locked when there is no touch action for a while (depending on the actual setting of Display-Sleep). You can briefly press the Power button to wake it up.

Unlocking the Screen

The screen will be locked after the tablet is idle for a few seconds. You need to unlock the screen by dragging the lock icon rightwards before you continue to use the tablet.

Home Screen

The Home Screen consists of five separate screens for positioning the shortcuts, widgets etc. Slide your finger left or right on the screen to go to the extended screens.

Customizing Home Screen Items

- To add a Home Screen item (shortcut, widget etc.), you can tap the application icon to display all applications and widgets. Hold your tap on an item to place it on the home page.
- To move a Home Screen item, hold your finger onto it to highlight, then drag it to the desired location, and release your finger.
- To remove a Home Screen item, hold your finger onto it to highlight, drag it to the recycle bin symbol "X" and then release your finger.

Changing Wallpaper

Hold your tap on the Home screen until a menu appears. Tap on "Wallpaper" and select a picture as the desktop wallpaper.

Changing System Settings

Tap the Settings icon on the Home Screen to open the settings menu and change relevant settings for your tablet if necessary.

Setting Up EMAIL Account

On the Application screen, tap the Mail icon 

This device has an E-mail application pre-installed. You can send or receive e-mails from the Internet at any time with this device. Make sure you have an Internet connection before using the email service.

First you need to setup an E-mail account for receiving or sending emails.

- Start up the email application by tapping the Mail application. You will be prompted to setup an account.
- Input your email address and login password.
- Your Android tablet can automatically setup many different types of email accounts automatically.
- Tap the Next button and the Mail application will try to configure your email automatically.
- If the Mail application cannot automatically configure your email account, you will be prompted to setup your email account manually.
- Tap "Manual Setup" to set the email server information manually.

- Choose the server type from POP3, IMAP or Exchange for incoming emails. To know what type of your email server is, you can consult your email service provider, network administrator or search for the proper configuration on the internet.
- Input the required information.

- Choose the server type for outgoing emails and input required server information.
- Tap "Next" to continue. Your tablet will check the server settings. When it prompts you that "Your account is set up, and email is on its way", your account is set up successfully.
- Input your name and then tap on "Done" to finish.

Managing Tasks

On the Home screen, tap the Recent Applications icon 

Your device can handle multiple tasks at the same time. For example, you can view photos while listening to music. Multitasking is helpful but inefficient if too many tasks are running. In order to save system memory and enhance system performance, you can end some tasks that you don't use at the moment.

- Tap on the Recent Applications icon and it will bring up a menu on the left hand side of the screen of applications currently running.
- Tap and hold the application you want to stop and drag it to the right.
- The application will be removed from the list and stop running.

Uninstalling Applications

On the Home screen, tap the Settings icon 

- Tap the Settings shortcut in the Home Screen to display the setting menu.
- Select "Apps" from the right hand side.

- A list of currently installed apps will appear on the right hand side.

- Tap the Application you want to uninstall.
- Tap the Uninstall button.
