SAFETY PRECAUTIONS

Read all of the instructions before using this appliance.

When using this appliance, always exercise basic safety precautions, including the following:

- 1) Use this appliance only for its intended purpose as described in this use and care guide.
- 2) This refrigerator must be properly installed in accordance with the installation instructions before it is used. See grounding instructions in the installation section.
- 3) Never unplug your refrigerator by pulling on the power cord. Always grasp the plug firmly and pull straight out from the outlet.
- 4) Repair or replace immediately, all electric service cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion damage along its length, the plug or the connector end.
- 5) Unplug your refrigerator before cleaning or before making any repairs.
Note: *If for any reason this product requires service, we strongly recommend that a certified technician performs the service.*
- 6) Do not use any electrical device or any sharp instrument in defrosting your refrigerator.
- 7) If your old refrigerator is not being used, we recommend that you remove the doors. This will reduce the possibility of danger to children.
- 8) After your refrigerator is in operation, do not touch the cold surfaces in the freezer compartment, particularly when hands are damp or wet. Skin may adhere to these extremely cold surfaces.
- 9) Do not refreeze foods, which have been thawed completely. The United States Department of Agriculture in Home and Garden Bulletin No. 69 reads: "...You may safely refreeze frozen foods that have thawed if they still contain ice crystals or if they are still cold-below 40°F".

"...Thawed ground meats, poultry, or fish that have any off-odor or off-color should not be refrozen and should not be eaten. Thawed ice cream should be discarded. If the odor or color of any food is poor or questionable, discard it. The food may be dangerous to eat."

"...Even partial thawing and re-freezing reduce the eating quality of foods, particularly fruits, vegetables, and prepared foods. The eating quality of red meats is affected less than that of many other foods. Use refrozen foods as soon as possible, to save as much of its eating quality as you can."

- 10) This refrigerator should not be recessed or built-in an enclosed cabinet. It is designed for freestanding installation only.
- 11) Do not operate your refrigerator in the presence of explosive fumes.

For Future Reference Please

SAVE THESE INSTRUCTIONS

DANGER

Risk of child entrapment. Before you throw away your old refrigerator or freezer, take off the doors. Leave the shelves in place so that children may not easily climb inside.
As per UL 250 11.2.6

Thank you for using our Haier product. This easy-to-use manual will guide you in getting the best use of your refrigerator.

Remember to record the model and serial number. They are on a label in back of the refrigerator.

Parts And Features

- | | |
|--|---|
| 1. Freezer Compartment (width varies per model) | 4. Drip Tray (style varies per model) |
| 2. Storage Shelf (quantity varies per model) | 5. Temperature Control (location varies per model) |
| 3. Full Width Shelf (quantity varies per model) | 6. Ice Cube Tray |

Installing Your Refrigerator

Unpacking Your Refrigerator

1. Remove all packaging material. This includes the foam base and all adhesive tape holding the refrigerator accessories inside and outside. Slide out and remove plastic or foam guard used to secure the compressor from shipping damage due to vibration and shock.
2. Inspect and remove any remains of packing, tape or printed materials before powering on the refrigerator.

Proper Air Circulation

- To assure your refrigerator works at the maximum efficiency it was designed for, you should install it in a location where there is proper air circulation, plumbing and electrical connections.
- The following are recommended clearances around the refrigerator:
Sides.....3/4 " (19mm)
Top.....2" (50mm)
Back.....2" (50mm)

Electrical Requirement

- Make sure there is a suitable power Outlet (115 volts, 15 amps outlet) with proper grounding to power the refrigerator.
- Avoid the use of three plug adapters or cutting off the third grounding in order to accommodate a two plug outlet. This is a dangerous practice since it provides no effective grounding for the refrigerator and may result in shock hazard.

Install Limitations

- Do not install your refrigerator in any location not properly insulated or heated e.g. garage etc. Your refrigerator was not designed to operate in temperature settings below 55° Fahrenheit.
- Select a suitable location for the refrigerator on a hard even surface away from direct sunlight or heat source e.g. radiators, baseboard heaters, cooking appliances etc.

Door Alignment (see fig. # 1)

1. Remove hinge cover screw.
2. Remove the top hinge cover.
3. Loosen the top hinge screws using a phillips head screwdriver.
4. Adjust the door or put a spacer in between and then tighten the screws.
5. Replace the top hinge cover.

fig. # 1

Refrigerator Features And Use

General Features

Adjustable temperature dial:

Your refrigerator will automatically maintain the temperature level you select. The temperature control dial has 7 settings plus off. 1 is the warmest. 7 is the coldest. Turning the dial to OFF stops cooling in both the refrigeration and freezer sections. At first, set the dial to 4 and allow 24 hours to pass before adjusting the temperature to your needs.

(Note: If the refrigerator has been placed in a horizontal or tilted position for any period of time wait 24 hours before plugging the unit in.)

Refrigerator Interior Shelves

To remove or replace a full-width slide-out shelf: (see fig. # 2)

1. Gently tilt the shelf up and slide forward until the shelf has been completely removed.
2. To replace the shelf, gently slide the shelf back.

fig. # 2

Defrosting Your Refrigerator (see Fig. # 3 or # 3a)

- Your freezer compartment may be full width or half width depending on your model purchased.
- For maximum energy efficiency, defrost freezer section whenever frost accumulates to a thickness of 1/4" or more on freezer walls. Note that frost tends to accumulate more during the summer months.
- To defrost freezer, remove food and ice cube tray from the freezer section. Your model may require you to place the drip tray under the freezer section (see Fig. 3). To defrost turn the temperature control dial to the OFF position. Defrosting may take a few hours. To speed up defrost time, keep the door open and place a bowl of warm water in the refrigerator.
- During the defrost cycle, water will accumulate in the drip tray. The drip tray may also need to be emptied during the defrost process. Do not leave unattended. (see Fig. 3 and Fig. 3a)
- After defrosting, empty and wipe down the drip tray, as well as the interior of the refrigerator. You may now reset your refrigerator to the desired temperature and return food.

Food Storage Information

Fresh Food

- When storing fresh food, which is not prepackaged, be sure to wrap or store food in airtight and moisture proof material unless otherwise noted. This will ensure proper shelf life and prevent the transfer of odors and tastes.
- Wipe containers before storing to avoid needless spills.
- Eggs should be stored in an upright position in their original carton to maximize shelf life.
- Fruit should be washed and dried then stored in sealed plastic bags before storing in the refrigerator.
- Vegetables with skins should be stored in plastic bags or containers.
- Leafy vegetables should be washed and drained and then stored in plastic bags or containers.
- Hot food should be allowed to cool before storing in the refrigeration. This will prevent unnecessary energy use.
- Fresh seafood should be used the same day as purchased.
- When storing meats in the fresh food section, keep in the original packaging or rewrap as necessary. Follow the suggestions below for safe storage:

| | |
|----------------------|-----------|
| • Chicken | 1-2 Days |
| • Ground Beef | 1-2 Days |
| • Cold Cuts | 3-5 Days |
| • Steaks/Roasts | 3-5 Days |
| • Smoked/Cured Meats | 7-10 Days |
| • All others | 1-2 Days |

Normal Operating Sounds You May Hear

- Boiling water, gurgling sounds or slight vibrations that are the result of the refrigerant circulating through the cooling coils.
- The thermostat control will click when it cycles on and off.

Proper Refrigerator Care and Cleaning

Cleaning and Maintenance

Warning: To avoid electric shock always unplug your refrigerator before cleaning. Ignoring this warning may result in death or injury.

Caution: Before using cleaning products, always read and follow manufacturer's instructions and warnings to avoid personal injury or product damage.

General:

- Prepare a cleaning solution of 3-4 tablespoons of baking soda mixed with warm water. Use sponge or soft cloth, dampened with the cleaning solution, to wipe down your refrigerator.
- Rinse with clean warm water and dry with a soft cloth.
- Do not use harsh chemicals, abrasives, ammonia, chlorine bleach, concentrated detergents, solvents or metal scouring pads. SOME of these chemicals may dissolve, damage and/or discolor your refrigerator.

Door Gaskets:

- Clean door gaskets every three months according to general instructions. Gaskets must be kept clean and pliable to assure a proper seal.
- Petroleum jelly applied lightly on the hinge side of gaskets will keep the gasket pliable and assure a good seal.

Power Interruptions

- Occasionally there may be power interruptions due to thunderstorms or other causes. Remove the power cord from AC outlet when a power outage occurs. When power has been restored, replugin power cord to AC outlet. If outage is for a prolonged period, inspect and discard spoiled or thawed food in freezer and refrigerator. Clean refrigerator before reusing.

Vacation and Moving Care

- For long vacations or absences, empty food from refrigerator and freezer, move the temperature DIAL to the OFF position and clean the refrigerator and door gaskets according to "General cleaning" section. Prop doors open, so air can circulate inside. When moving always move the refrigerator vertically. Do not move with the unit lying down. Possible damage to the sealed system could occur.

Troubleshooting

Refrigerator Does Not Operate

- Check if thermostat control is not in the "OFF" position.
- Check if refrigerator is plugged in.
- Check if there is power at the ac outlet, by checking the circuit breaker.

Food temperature appears too warm

- Frequent door openings.
- Allow time for recently added warm food to reach fresh food or freezer temperature.
- Check gaskets for proper seal.
- Adjust temperature control to colder setting.

Food temperature is too cold

- If temperature control setting is too cold, adjust to a warmer setting and allow several hours for temperature to adjust.

Refrigerator runs too frequently

- This may be normal to maintain constant temperature during high temperature and humid days.
- Doors may have been opened frequently or for an extended period of time.
- Check gasket for proper seal.
- Check to see if doors are completely closed.

Moisture build up on interior or exterior of the refrigerator:

- This is normal during high humidity periods.
- Prolonged or frequent door openings.
- Check door gaskets for proper seal.

Refrigerator has an odor:

- Interior needs cleaning.
- Foods improperly wrapped or sealed are giving off odors.

Refrigerator door does not shut properly:

- Re-align refrigerator door.
- Check for blockages e.g. food containers, crisper cover, shelves, bins etc.

Limited Warranty

What is covered and for how long?

This warranty covers all defects in workmanship or materials for a period of:

12 months labor

12 months parts

5 years sealed system

The warranty commences on the date the item was purchased and the original purchase receipt must be presented to the authorized service center before warranty repairs are rendered.

EXCEPTIONS: Commercial or Rental Use warranty

90 days labor (carry-in only)

90 days parts

No other warranty applies

What is covered.

1. The mechanical and electrical parts, which serve as a functional, purpose of this appliance for a period of 12 months. This includes all parts except finish, and trim.
2. The components of the sealed system e.g. hermetic compressor, condenser and evaporator from manufacturing defects for a period of 5 years from the date of purchase. Any damages to such components caused by mechanical abuse or improper handling or shipping will not be covered.

What will be done?

1. We will repair or replace, at our discretion any mechanical or electrical part which proves to be defective in normal usage during the warranty period so specified.
2. There will be no charge to the purchaser for parts and labor on any covered items during the initial 12 month period. Beyond this period

only parts are covered in the remaining warranty. Labor is not provided and must be paid by the customer.

3. Contact your nearest authorized service center. For the name of the nearest service center please call 1-877-337-3639

THIS WARRANTY COVERS APPLIANCES WITHIN THE CONTINENTAL UNITED STATES, PUERTO RICO AND CANADA. IT DOES NOT COVER THE FOLLOWING:

Damages from improper installation.
 Damages in shipping.
 Defects other than manufacturing.
 Damage from misuse, abuse, accident, alteration, lack of proper care and maintenance or incorrect current or voltage.
 Damage from other than household use.
 Damage from service by other than an authorized dealer or service center.
 Decorative trims or replaceable light bulbs.
 Transportation and shipping.
 Labor (after the initial 12 months).

THIS LIMITED WARRANTY IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE

The remedy provided in this warranty is exclusive and is granted in lieu of all other remedies.

This warranty does not cover incidental or consequential damages, so the above limitations may not apply to you. Some States do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

This warranty gives you specific legal rights, and you may have other rights, which vary, from state to state.
