LINUS

Wireless Peanuts Band

Plays Music and Moves!

PEANUTS

OUTSIDE TEMPLATE
 2"W x 6.83"H

1XKT1046U INSIDE RED PMS200C

Slide switch to "ON" to turn on. Linus will begin to play a song. Once he finishes that song, press the play button to hear the next song.

If you own more than one Peanuts Band member, whichever band member you activate will take the lead and the others will follow. If a band member seems to be playing on his own, simply slide his switch to "OFF" and then back to "ON" and that should help the band sync up again. It is best to keep the band members near each other (within a three-foot circle) when they are synchronizing.

To operate in "DISPLAY" mode, press and hold the play button of any one member for four seconds. The band members will signal that they've switched modes. The band will then self-activate on a timed mode (two to three minutes between each song). To turn off "DISPLAY" mode, press and hold the play button on any one member for four seconds and the band members will signal that they've switched modes again. "DISPLAY" mode will shorten the battery life.

When not in "DISPLAY" mode, if the item is left on at all times, you should expect the batteries to last through a full holiday season with normal use.

Add Linus to the 2011 Wireless Peanuts Band!

Each of the characters in the 2011 Peanuts Band moves in time to the two songs that each plays individually. When put together with other members of the band, they communicate wirelessly to move in time and play along with each other's songs. As with other holiday traditions, "The more the merrier!" Put the five band members together, and enjoy all ten songs!

Linus plays "We Wish You a Merry Christmas" and "Joy to the World."
