Simply, Brilliant

Bluetooth Light Bulb Model. LS030

Setting up your LifeSmart™ Bluetooth Light Bulb

User Guide Version 1.0

Bluetooth Light Bulb

① E27

PRODUCT INTRODUCTION

The Bluetooth Light Bulb is powered with high LED Lighting, producing over sixteen million colors in a broad range of brightness. It's a high performance lighting solution and delivers perfect ambiance to any room.

Paired with iOS or an Android smart phone, you can easily configure the Light bulb via Bluetooth using the LifeSmart™ App. Designed clear and simple for ease of use. Colors, brightness and lighting-trigger timing can all be set to your desired preference. In addition, it offers multiple atmospheric modes pre-set on general desired moods. This way you always have a one-click solution. Finally, we give you the option to let the beat of the music control your light set.

FCC STATEMENT

- ① This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - This device may not cause harmful interference.
 - This device must accept any interference received, including interference that may cause undesired operation.
- ② Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE

This equipment has been tested and found to comply

FCC STATEMENT

with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCC STATEMENT

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
