

Welcome to
HARMAN
 spark
QUICK START GUIDE

<p>Download the HARMAN Spark app</p> <p>1 Go to the App Store® or Google Play™ on your smartphone to download the HARMAN Spark app.</p> 	<p>Plug in the device</p> <p>4 The OBD-II port in your vehicle (in the shape shown below left) is usually located under the dashboard of the driver's seat. If you cannot find it, check other locations highlighted in the image below right. You can also refer to your vehicle owner's manual.</p> 
<p>Create your account</p> <p>2 Launch the app and tap "Get Started." You will be presented with a login page. Click on "Sign Up" link and enter the required information to create your account. Follow the prompts in the app and enter the vehicle details.</p>	<p>Register your device</p> <p>3 Using the HARMAN Spark app, scan the QR code that is printed on the device to register it. Alternatively, you can manually input the IMEI number which is printed on the device and the box your HARMAN Spark came in.</p>  <p>A rate plan is required for your HARMAN Spark. If you have not already signed up for one, go to att.com/activate.</p> <p><i>Before continuing, make sure your vehicle is parked safely in an area with AT&T network coverage.</i></p>
<p>Start your vehicle (stay parked)</p> <p>5 The HARMAN Spark device can take up to 5 minutes for initial activation. If the device does not activate within 5 minutes, please drive the vehicle for 15 minutes to complete the activation.</p> <p>You will know your device has been activated when the 4G LTE/3G LED light on the device turns solid green and the mobile app indicates successful activation.</p>	

Congratulations on successfully activating your HARMAN Spark device!

You can now start using HARMAN Spark features in the app on your smartphone.

HARMAN Spark App	HARMAN Spark Indicators	HARMAN Spark Operational States
<p>Key features</p> <p>Wi-Fi Hotspot Connect up to 5 devices to the powerful Wi-Fi hotspot built into your HARMAN Spark device and keep your passengers happy.
