

## US AND CANADA

### FCC AND IC STATEMENT:

This device complies with Part 15 of the FCC rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAN ICES-3(B)/NMB-3(B)

### FCC/IC RADIATION EXPOSURE STATEMENT

This equipment complies with FCC/IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

### DÉCLARATION DE LA FCC ET D'IC

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

### DÉCLARATION DE LA FCC ET D'IC SUR L'EXPOSITION AUX RADIATIONS

Cet appareil est conforme à la norme RSS 102 de la FCC/IC relative aux limites d'exposition aux radiations dans un environnement non contrôlé.

### Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

此产品含有内置锂电池，请勿将此产品暴露在强烈的日照下，火烤或过热的环境中。

## FOR JAPAN

本製品に内蔵しているリチウム充電電池はリサイクルができません。製品を廃棄するにあたり、リサイクルにご協力ください。ご使用済の製品本体を下記宛先まで着払いにてお送りください。

## FOR EU COUNTRIES

### WEEE NOTICE

The Directive on Waste Electrical and Electronic Equipment (WEEE), which entered into force as European law on 14/02/2014, resulted in a major change in the treatment of electrical equipment at end-of-life.

The purpose of this Directive is, as a first priority, the prevention of WEEE, and in addition, to promote the reuse, recycling and other forms of recovery of such wastes so as to reduce disposal.

The WEEE logo on the product or on its box indicating collection for electrical and electronic equipment consists of the crossed-out wheeled bin, as shown below.

This product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserving natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment.

For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.

### ROHS COMPLIANCE

This product is in compliance with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

### EU BATTERIES DIRECTIVE 2013/56/EU

A new battery directive 2013/56/EU on Battery and Accumulator replacing directive entered into force on the 1/07/2014. The directive applies to all types of batteries and accumulators (AA, AAA, button cells, lead acid, rechargeable packs) including those incorporated into appliances except for military, medical and power tool applications.

The directive sets out rules for collection, treatment, recycling and disposal of batteries, and aims to prohibit certain hazardous substances and to improve environmental performance of batteries and all operators in the supply chain.

The directive sets out rules for collection, treatment, recycling and disposal of batteries, and aims to prohibit certain hazardous substances and to improve environmental performance of batteries and all operators in the supply chain.

The logo des DEEE apposé sur cet équipement ou sur son emballage, qui indique la collecte des équipements électriques et électroniques, est représenté sous la forme d'une poubelle barrée, comme indiqué ci-dessous.

For products with a built-in battery that lasts for the lifetime of the product, removal may not be possible for the user. In this case, recycling or recovery centers handle the dismantling of the product and the removal of the battery. If, for any reason, it becomes necessary to replace such a battery, this procedure must be performed by authorized service centers.

In the European Union and other locations, it is illegal to dispose of any battery with household trash. All batteries must be disposed of in an environmentally sound manner. Contact your local waste-management officials for information regarding the environmentally sound collection, recycling and disposal of used batteries.

The purpose of this Directive is, as a first priority, the prevention of WEEE, and in addition, to promote the reuse, recycling and other forms of recovery of such wastes so as to reduce disposal.

You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserving natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment.

For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.

### DECLARATION OF CONFORMITY

HARMAN International hereby declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and RoHS 2011/65/EU Directive. The declaration of conformity may be consulted in the support section of our Web site, accessible from www.jbl.com.

### AVIS CONCERNANT LES DEEE

La directive relative aux déchets d'équipements électriques et électroniques (DEEE), adoptée comme loi européenne le 14/02/2014, a supposé un important changement dans le traitement des équipements électriques en fin de vie.

L'objectif principal de cette directive est de prévenir les DEEE et de favoriser la réutilisation, le recyclage et d'autres formes de récupération de ces déchets afin de réduire la mise au rebut.

Le logo des DEEE apposé sur cet équipement ou sur son emballage, qui indique la collecte des équipements électriques et électroniques, est représenté sous la forme d'une poubelle barrée, comme indiqué ci-dessous.

Ce produit ne doit pas être jeté avec les ordures ménagères. Il vous incombe de mettre au rebut tous vos équipements électriques et électroniques en fin de vie en vous rendant à un point de collecte approprié en vue de les recycler. Une collecte isolée et une récupération appropriée de vos déchets d'équipements électriques ou électroniques au moment de la mise au rebut nous permettent de contribuer à la préservation des ressources naturelles. Par ailleurs, un recyclage approprié des déchets d'équipements électriques ou électroniques assure la protection de la santé humaine et de l'environnement. Pour obtenir de plus amples informations sur la mise au rebut, la récupération et les points de collecte des déchets d'équipements électriques ou électroniques, contactez votre mairie, votre service de collecte des déchets, le magasin qui vous a vendu l'équipement, ou le fabricant du produit.

In the European Union and other locations, it is illegal to dispose of any battery with household trash. All batteries must be disposed of in an environmentally sound manner. Contact your local waste-management officials for information regarding the environmentally sound collection, recycling and disposal of used batteries.

### INSTRUCTIONS DE RETRAIT, DE MISE AU REBUT ET DE RECYCLAGE DES PILES ET ACCUMULATEURS USAGÉS

Pour retirer les piles de votre équipement ou de la télécommande, inversez la procédure d'insertion des piles décrite dans le mode d'emploi.

Cette procédure est impossible sur les équipements munis d'une batterie intégrée dont la durée de vie correspond à celle du produit. Dans ce cas, les centres de recyclage ou de récupération sont chargés du démantèlement du produit et du retrait de la batterie. Si, pour quelque raison que ce soit, vous devez remplacer ce type de batterie, adressez-vous à un centre de services autorisés.

Le logotipo do WEEE em um produto ou sua caixa, indicando a coleta de equipamento elétrico e eletrônico, consiste em uma lixeira coberta por uma cruz, como mostrado abaixo.

Dans l'Union européenne et dans d'autres régions, il est illégal de jeter les piles ou accumulateurs usagés avec les ordures ménagères. Les piles et accumulateurs doivent être mis au rebut dans le respect de l'environnement. Contactez l'entreprise chargée de la gestion des déchets pour obtenir de plus amples informations sur la collecte, le recyclage et la mise au rebut écologiques des piles et accumulateurs usagés.

Este produto não pode ser descartado ou colocado junto com o seu lixo doméstico. Você é responsável pelo descarte de todos os equipamentos eletrônicos ou elétricos, enviando para um ponto de coleta especificado para a reciclagem como resíduo perigoso. A coleta isolada e a recuperação adequada dos equipamentos eletrônicos e elétricos, no momento do descarte, ajuda a conservar os recursos naturais. Além disso, a reciclagem adequada dos equipamentos eletrônicos e elétricos garante a segurança da saúde humana e do meio ambiente. Para obter mais informações sobre o descarte de equipamentos eletrônicos e elétricos, recuperação e pontos de coleta, entre em contato com a prefeitura local, o serviço de descarte, a loja em que o equipamento foi adquirido ou o fabricante.

### NOTA DO WEEE

A Diretiva de Resíduos de Aparelhos Elétricos e Eletrônicos (WEEE), que entrou em vigor como lei europeia em 14/02/2014, resultou em uma mudança importante no tratamento de equipamentos elétricos no final da vida útil.

O objetivo da Diretiva é, como máxima prioridade, a prevenção do WEEE e, além disso, a promoção de reutilização, reciclagem e outras formas de recuperação desses desperdícios, a fim de reduzir o descarte.

O logotipo do WEEE em um produto ou sua caixa, indicando a coleta de equipamento elétrico e eletrônico, consiste em uma lixeira coberta por uma cruz, como mostrado abaixo.

### INSTRUÇÕES AOS USUÁRIOS SOBRE A REMOÇÃO, RECICLAGEM E DESCARTE DE PILHAS USADAS

Para tirar as pilhas do seu equipamento ou controle remoto, inverte o procedimento de colocação das pilhas descrito no manual do proprietário.

No caso de produtos com pilha embutida que dure por toda a vida útil do produto, talvez não seja possível remover a pilha. Neste caso, centrais de reciclagem ou recuperação encarregam-se de desmanchar o produto e remover a pilha. Caso seja necessário, por qualquer razão, substituir a referida pilha, este procedimento deve ser realizado por centrais de assistência técnica autorizadas.

Na União Europeia e em outros locais, é contra a lei descartar quaisquer tipos de pilhas junto com o lixo doméstico. Todas as pilhas devem ser descartadas de forma ecologicamente correta. Entre em contato com as autoridades de gestão de resíduos para obter informações referentes à coleta de materiais de risco ambiental, reciclagem e descarte de pilhas usadas.

### WEEE-MITTEILUNG

Die Richtlinie zu Elektro- und Elektronikaltgeräten (WEEE – Waste Electrical and Electronic Equipment), die seit dem 14/02/2014 europäisches Gesetz ist, führte zu einer großen Änderung bei der Entsorgung von Elektro- und Elektronikaltgeräten.

Vornehmliche Aufgabe dieser Richtlinie ist die Vermeidung von Elektronikabfall sowie die Förderung von Wiederverwendung, Recycling und anderen Formen der Wiederverwertung, um solchen Abfall zu reduzieren.

Das auf dem Produkt oder der Verpackung aufgedruckte WEEE-Logo zeigt die unten dargestellte, durchgestrichene Abfalltonne und weist darauf hin, dass dieses Produkt als Elektro- und Elektronikaltgerät gesammelt werden muss.

Dieses Produkt darf nicht mit Ihrem anderen Hausmüll entsorgt werden. Sie sind dafür verantwortlich, alle Elektro- oder Elektronikaltgeräte bei einer speziellen Entsorgungsstelle (Recyclinghof) zu entsorgen, die solchen gefährlichen Abfall recycelt. Das Sammeln und richtige Wiederverwerten von Elektro- und Elektronikaltgeräten schont die natürlichen Ressourcen. Außerdem werden Gesundheit und Umwelt durch das Recycling von Elektro- und Elektronikaltgeräten geschützt. Weitere Informationen über Sammelstellen sowie die Entsorgung und Wiederverwertung von Elektro- und Elektronikaltgeräten erfahren Sie in Ihrem örtlichen Bürgerbüro, bei Ihrem örtlichen Entsorger, dem Geschäft, wo Sie dieses Gerät gekauft haben oder beim Hersteller des Geräts.

In the European Union and other locations, it is illegal to dispose of any battery with household trash. All batteries must be disposed of in an environmentally sound manner. Contact your local waste-management officials for information regarding the environmentally sound collection, recycling and disposal of used batteries.

The WEEE logo on the product or on its box indicating collection for electrical and electronic equipment consists of the crossed-out wheeled bin, as shown below.

### HINWEISE ZUM AUSBAU, RECYCLING UND ZUR ENTSORGUNG VERBRAUCHTER BATTERIEN

Die Batterien werden aus dem Gerät oder der Fernbedienung entfernt, indem Sie das in der Bedienungsanleitung erläuterte Verfahren zum Einlegen von Batterien in umgekehrter Reihenfolge ausführen.

Bei Produkten mit eingebauten Batterien, die für die gesamte Lebensdauer des Produkts vorgesehen sind, ist es für den Benutzer eventuell nicht möglich, die Batterien zu entfernen. In diesem Falle übernehmen Recycling- oder Rückgewinnungszentren die Demontage des Produkts und das Entfernen der Batterie. Sollte es aus irgendeinem Grund erforderlich werden, eine solche Batterie auszuwechseln, muss dieses Verfahren von einem autorisierten Servicecenter ausgeführt werden.

### DIRETTIVA WEEE

La Direttiva WEEE relativa ai rifiuti di apparecchiature elettriche ed elettroniche (Waste Electrical and Electronic Equipment), che è entrata in vigore come legge europea il 14/02/2014, ha portato un grande cambiamento nel trattamento delle apparecchiature elettriche alla fine del ciclo di vita.

Obiettivo prioritario della Direttiva è la prevenzione dell'abbandono dei rifiuti di apparecchiature elettriche ed elettroniche oltre alla promozione del riutilizzo, del riciclo e del recupero in altre forme dei rifiuti per ridurre lo smaltimento.

Il logo WEEE sul prodotto o sulla sua confezione che indica la raccolta di apparecchi elettrici ed elettronici consiste in un cestino su ruote con una croce sopra, nel modo illustrato di seguito.

Dans l'Union européenne et dans d'autres régions, il est illégal de jeter les piles ou accumulateurs usagés avec les ordures ménagères. Les piles et accumulateurs doivent être mis au rebut dans le respect de l'environnement. Contactez l'entreprise chargée de la gestion des déchets pour obtenir de plus amples informations sur la collecte, le recyclage et la mise au rebut écologiques des piles et accumulateurs usagés.
