OPERATION

(Figure 2)

TO INSERT OR REPLACE BATTERIES:

This phone requires 3 "AAA" or "LRO3" batteries (not included) for the Psychic Alert. Unscrew the battery door and remove the back cover from the phone. Install/replace with 3 x "AAA" batteries. Installation of batteries should be done by an adult.

TO ENSURE PROPER FUNCTION:

- Do not mix old and new batteries.
- Do not mix alkaline, standard or rechargeable batteries.
- Battery installation should be done by adult.
- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are to be removed from the toy before being charged (if removable).
- Rechargeable batteries are only to be charged under adult supervision (if removable).
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the toy.
- The supply terminals are not to be short-circuited.

Receiving a Phone Call

Salem will alert you to incoming calls with one of 4 phrases (such as "Get Ready to Answer the Phone"). This will be followed by the phone ringing. To answer the phone, pick up the handset and slide the talk switch to **ON** (Talk) position and it will work like any basic telephone. Slide the **TALK/OFF** switch to **OFF** to "hang-up" the telephone when you have completed your conversation.

Dialing a Call

Pick up the handset, slide the **TALK ON/OFF** switch to **ON** (Talk), and wait for a dial tone. Press the numeric keypad (dialing keys) for the number you want.

KEY FEATURES

Psychic Function

Salem the Cat (the feisty Warlock turned cat from Sabrina the Teenage Witch) will predict incoming calls before they happen with four different warning/alert phrases.

Low Battery Indications:

Batteries should be replaced when Salem's speech is garbled. Another indication that the batteries (which power the psychic alert function) are not working is when the ringer is in the low or high position and the phone rings (**LED** light flashes) but Salem does not make one of his four psychic alerts. The psychic alert will not work when the batteries are weak or exhausted.

Redial

If the line is busy when you call someone, or you want to call someone you just called, there is no need to dial the number again manually. When pressed, the redial button automatically redials the most recently dialed number. Slide the Talk **ON/OFF** switch to **ON**. When you hear a dial tone press **REDIAL** instead of dialing the number.

Ringer Volume Selector

Sabrina's Psychic Phone features a harmonic ringer which can be adjusted to a loud (**HIGH**) or soft (**LOW**) sound level. When you do not want to be disturbed, slide the switch to the **OFF** position. You can still make outgoing calls without being disturbed by incoming calls. When in **OFF** position, Salem respects your desire not to be disturbed and will not warn you of incoming calls unless you move the ringer indicator to **LOW** or **HIGH**.

Flash

The **FLASH** button is used to retrieve a new dial tone after ending a call. **NOTE:** The flash button is also a useful feature for special telephone services such as call waiting, if you subscribe to this service. Press **FLASH** briefly, release and perform the custom call procedure.

Volume Control

Your **Sabrina's Psychic Phone** features a dial control to regulate the volume of the reception. If you are having trouble hearing the person you are talking to, increase the volume until it is at a desirable level. If the reception is too loud, decrease the volume level until it is at a desirable level.

TROUBLE SHOOTING

No Dial Tone

- Check all modular plug connections to make sure they are securely connected.
- Problem with the wiring: Try another phone jack. If the phone works on another jack, you may have a problem with your wiring. Contact your local phone company.

Redial Function Does Not Operate

- Check if the last number you intended to call was really the last number you dialed.

Phone Does Not Ring

- Check to see if the ringer switch is set correctly. Make sure **RINGER VOLUME SELECTOR** is in either the LOW or HIGH position.
- Too many telephones may be installed on the same line. Contact your local telephone company to determine the maximum number of extensions for your calling area.

Sound Volume Is Too Low

- Check the **VOLUME CONTROL** to make sure it is not turned down too low.
- Another extension may be off the hook. Hang up extension.

Psychic Function Does Not Work:

- Check to see if the ringer switch is set correctly. Make sure the ringer volume selector is in either the LOW or HIGH position.

IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, base safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

Read and understand all instructions.

Follow all warnings and instructions marked on the product.

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool.

Do not place this product on an unstable cart, stand, or table. The product may fall causing serious damage to the product.

Slots and openings in the cabinet and the back or bottom are provided for ventilation, to protect from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should never be placed near or over a radiator or heat register. This product should not be placed in a built-in installation unless proper ventilation is provided.

Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a risk of fire or electric shock. Never spill liquid of any kind on the product.

To reduce the risk of electric shock, do not disassemble this product. Take it to a qualified service person when some service or repair work is required. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the appliance is subsequently used.

Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:

When the power supply cord is damaged or frayed.

If liquid has been spilled into the product.

If the product has been exposed to rain or water.

If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions because improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.

If the product has been dropped or the cabinet has been damaged.

If the product exhibits a distinct change in performance.

Avoid using a telephone (other than a cordless type) during an electrical storm. There may be risk of remote electric shock from lightning.

Do not use the telephone to report a gas leak in the vicinity of the leak.

SAVE THESE INSTRUCTIONS

FCC REQUIREMENTS

This equipment complies with Part 68 of the FCC Rules. On the base unit of this equipment is a label that contains, among other information, the FCC Registration Number and Ringer Equivalence Number (REN) for this equipment. If requested, this information must be given to the telephone company.

The REN is useful to determine the quantity of devices you may connect to your telephone line and still have all of those devices ring when your telephone number is called. In most, but not all areas, the sum of the REN's of all devices connected to one line should not exceed five (5.0). To be certain of the number of devices you may connect to your line, as determined by the REN, you should contact your local telephone company to determine the maximum REN for your calling area.

If your equipment causes harm to the telephone network, the telephone company may discontinue your service temporarily. If possible, they will notify you in advance. But if advance notice isn't practical, you will be notified as soon as possible. You will be informed of your right to file a complaint with the FCC. Your telephone company may make changes in its facilities, equipment, operations or procedures that could effect the proper functioning of your equipment. If they do, you will be notified in advance to give you an opportunity to maintain uninterrupted telephone service.

The telephone company may ask that you disconnect this equipment from the network until the problem has been corrected or until you are sure that the equipment is not malfunctioning.

This equipment may not be used on coin service provided by the telephone company. Connection to party lines is subject to state tariffs.

If you experience trouble with this telephone equipment, please contact the following address and phone number for information on obtaining service or repairs.

90-DAY LIMITED WARRANTY

Tiger Electronics, Ltd. (Tiger) warrants to the original consumer purchaser of this product that the product will be free from defects in materials or workmanship for 90 days from the date of original purchase. This warranty does not cover damages resulting from accident, negligence, improper service or use or other causes not arising out of defects in materials or workmanship.

During this 90-day warranty period, the product will either be repaired or replaced (at Tiger's option) without charge to the purchaser, when returned with proof of the date of purchase to either the dealer or to Tiger. Product returned to Tiger without proof of the date of purchase or after the 90-day warranty period has expired, but prior to one year from the original date of purchase, will be repaired or replaced (at Tiger's option) for a service fee of U.S.\$12.00. Payments must be by check or money order payable to Tiger Electronics, Ltd.

The foregoing states the purchaser's sole and exclusive remedy for any breach of warranty with respect to the product.

All product returned must be shipped prepaid and insured for loss or damage to:

**Tiger Electronics, Ltd. Repair Dept.
980 Woodlands Parkway
Vernon Hills, Illinois 60061 U.S.A.**

The product should be carefully packed in the original box or other packing materials sufficient to avoid damage during shipment. Include a complete written description of the defect, a check if product is beyond the 90-day warranty period, and your printed name, address and telephone number.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE TIGER IN ANY WAY. ANY IMPLIED WARRANTIES APPLICABLE TO THIS PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL TIGER BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE, OR MALFUNCTION OF THIS TIGER PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages, so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.
