GAME PLAY

A quick look at the game

Approximately every 30 seconds, a tone will sound. Then a visual clue will appear in the lower right corner of the TV screen. The visual clue will match the PICTURE-SIDE of one of the cards. Try to remember where the matching card is and flip it over. The visual clue will disappear and when it does, your turn is over.

The game in detail

1. Oldest player goes first and play continues to the left.
2. **On your turn when the tone sounds,** look at the visual clue shown on the screen. Then, try to remember where the card that matches the clue is and play as follows.

Flip ONE card over so you can see the PICTURE-SIDE of the card.

• *If You Flipped Over The Matching Card,* take the card and place it PUZZLE-SIDE-UP in front of you. Your turn is now over.

NOTE: A player can only make one match on a turn.

This card matches the visual clue. Take it and place it in front of you.

• *If You Didn't Flip Over The Matching Card,* turn the card PUZZLE-SIDE-UP again in its row, and flip over another card. Keep hunting through the cards, flipping and returning cards PUZZLE-SIDE-UP again, until you either find the matching card, or until the visual clue on the screen disappears. Your turn is then over.

This card does not match the visual clue. Return it puzzle-side up.

NOTE: If it's not your turn, act as timekeeper. While your opponent tries to make a match, watch the visual clue. It will disappear one-quarter at a time. When the clue has completely disappeared, tell the player that his or her turn is over.

3. As you collect cards, try to make a complete Pinocchio puzzle. In order to complete the puzzle, you must collect the 4 different cards that make Pinocchio a real

boy! You may have to collect more than 4 cards to complete the puzzle because you may get duplicates. See the completed Pinocchio puzzle below.

WINNING THE GAME

The first player to make a complete Pinocchio "Real Boy" Puzzle, wins the game. If the game ends and no player has completed a puzzle, the player who has collected the most cards wins the game.

ONE-PLAYER GAME

Play as above, trying to make 2 complete Pinocchio puzzles.
