

Aruba AP-203R Hospitality Access Point Startup Guide

a Hewlett Packard
Enterprise company

0511978-02

Aruba 203R Series remote access points (AP-203R and AP-203RP) are high-performance dual-radio wireless devices for hospitality and branch deployments. These access points contain a dual band 802.11ac flex-radio and Ethernet ports to provide secure Wi-Fi. The wired Ethernet ports located on the back of this access point allow users to connect directly to the device when linked by an Ethernet cable.

Package Contents

The following materials are included with this product:

- 203R Series access point
- Snap-on back cover
- AC power cable

Inform your supplier if there are any incorrect, missing, or damaged parts. To return this product, repack this unit and other included materials into the original packaging before returning it to the supplier.

Software

For instructions on choosing operating modes and initial software configuration, refer to the AP Software Quick Start Guide.

Installation

This device must be professionally installed and serviced by a trained Aruba Certified Mobility Professional (ACMP), or similar Aruba-certified technician.

Environmental conditions

Operating conditions:

- Temperature: 0°C to 40°C (32°F to 104°F)
- Humidity: 5% to 93% non-condensing

Storage and transport conditions:

- -40°C to 70°C (-40°F to 158°F)
- Humidity: 5% to 93% non-condensing

To install your 203R Series access point refer to the *Aruba 203R Series Remote Access Point Installation Guide* by scanning the QR code below, or visit <http://support.arubanetworks.com>, open the **Documentation** tab, then select **Hardware Installation Guides > APs > 203R Series**.

Regulatory Compliance

Aruba access points are classified as radio transmission devices, and are subject to government regulations of the host country. The network administrator(s) is/are responsible for ensuring that this device operates in accordance with local/regional laws of the host domain. Specifically, access points must use channel assignments appropriate to the location in which the access point will be deployed.

For a complete list of Aruba access points approved for by your country, refer to the *Aruba Downloadable Regulatory Table Release Note* by scanning the QR code below or visit <http://support.arubanetworks.com>, open the **Documentation** tab, then select **Software User & Reference Guides > DRT Release Notes**.

The regulatory model names for the 203R Series are:

- AP-203R: APINR203
- AP-203RP: APINP203

Changes or modifications to this unit not expressly approved by the party responsible for regulatory compliance can void the user's authority to operate this equipment.

FCC Statement

"Improper termination of access points installed in the United States configured to a non-US model controller is a violation of the FCC grant of equipment authorization. Any such willful or intentional violation may result in a requirement by the FCC for immediate termination of operation and may be subject to forfeiture" (47 CFR 1.80).

For additional safety and regulatory information about this product, refer to the *Safety and Compliance Information for Server, Storage, Power, Networking, and Rack Products* document, visit hpe.com/support/Safety-Compliance-EnterpriseProducts and perform a search for "Enterprise Safety and Compliance."
