# Adjusting the picture

**To adjust the picture:**
**In TV mode, you can adjust:**

1  Press **MENU**. The *Main* menu opens.
2  Press **ENTER** or ▶ . The *Picture* menu opens.

| Picture | | TV |
|---|---|---|
| Picture mode | Standard | |
| Contrast | • ▭▭▭▭ | 50 |
| Brightness | • ▭▭▭▭ | 50 |
| Backlight | • ▭▭▭▭ | 9 |
| Saturation | • ▭▭▭▭ | 50 |
| Hue | • ▭▭▭▭ | 0 |
| Sharpness | • ▭▭▭▭ | 5 |
| Color temperature | • Normal | |

Move: ◀ ♦ ▶   Enter: OK   Exit: EXIT

3  Press ▲ or ▼ to highlight an option, then press **ENTER** or ▶ to access the option, and press ◀ or ▶ to adjust the option. You can select:

- **Picture Mode**—Selects the picture mode. You can select:
  - **Vivid** (a bright and vivid picture)
  - **Standard** (a standard picture)
  - **Game**(a finely detailed picture)
  - **Cinema**(the brightness is decreaced)
  - **Power Saver** (decrease the backlight for to save energy)

*Note: You can also press **PICTURE** on the remote control to select the picture mode.*

- **Contrast**–Lets you increase or decrease the contrast of the picture. Increase the contrast to adjust the white areas of the picture or decrease the contrast to adjust the black areas of the picture.
- **Brightness** –Lets you increase or decrease the brightness of the picture. Increasing the brightness can add more light to dark areas of the picture, while decreasing the brightness can add more darkness to light areas of the picture.
- **Backlight** –Lets you control panel overall brightness. Increasing the backlight can add more light to overall screen picture and the TV uses more power consumption. While decreasing the backlight can add more darkness to overall screen picture and the TV uses less power consumption.
- **Saturation** – Lets you adjust the intensity of the colors.
- **Hue** – Lets you adjust the overall color of the picture (only supported in TV/AV mode).
- **Sharpness** –Lets you increase the sharpness level for clearer images or decrease the sharpness level for smoother images.
- **Color temperature** –Lets you change the color temperature. You can select the color temperature from three options: **Cool, Normal** or **Warm**.

4  Press ◀ to return to the previous menu, or press **EXIT** to close the menu.

## Choosing the display format (aspect ratio)

**To choose the display format:**
1  Press **ASPECT** on the remote control repeatedly to cycle through the available display formats. Options include:

- **Normal** —Selects the 4:3 aspect ratio to show a picture with black bar on both right and left hand side.
- **Full Screen** —Shows a full-screen picture.
- **Zoom1** —Enlarges the picture but may crop the top and bottom of picture. And has less black bar on right and left than Normal aspect mode.
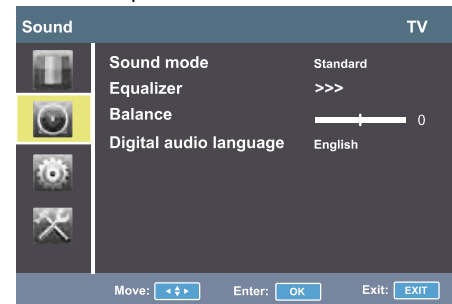

- **Zoom2** —Enlarges the picture but may crop the top and bottom of picture. And no black bar on right and left.
- **Panorama** —Stretches the picture at the edges, but maintains a good aspect ratio at the center of the screen.

**Note:** *In analog TV mode, allows you to select all aspect modes. In digital TV mode, allows you to select Normal mode and full-screen mode. Zoom and panorama modes are not available.*

# Adjusting the sound

**To adjust the sound:**
**In TV mode, you can adjust:**
1  Press **MENU**. The *Main* menu opens.
2  Press ▲ or ▼ to highlight **sound**, then press **ENTER** or ▶ . The *sound* menu opens.

| Sound | | TV |
|---|---|---|
| Sound mode | Standard | |
| Equalizer | >>> | |
| Balance | ▭▭▭▭ | 0 |
| Digital audio language | English | |

Move: ◀ ♦ ▶   Enter: OK   Exit: EXIT

3  Press ▲ or ▼ to highlight an option, then press **ENTER** or ▶ to access the option, and press ◀ or ▶ to adjust the option. You can select:

- **Sound mode** — Press [◀/▶] to select between 3 different pre-adjusted sound modes:Standard,music,and Clear voice. The Custom mode preserves your preferred sound settings after using the Equalizer available under the Sound submenu.
- **Equalizer**—Set the custom mode of sound, press▲ / ▼] button to select the sound component of 120HZ, 500HZ, 1.5K, 5K, and 10K. Press [ ◀ /▶ ] button to weaken or enlarge the sound to the proper value.
- **Balance**—Adjusts the balance between the left and right audio channels.
- **Digital audio language**— In digital TV mode,allows you to select the audio language for a program. In analog TV mode, you can't see this option

| 8 ans+ | Suitable for children 8 and older. |
| 13 ans+ | Suitable for children 13 and older. |
| 16 ans+ | Suitable for children 16 and older. |
| 18 ans+ | Adults only. |

**Note:** The V-Chip can block non rated programs as per "CEA-608-E sec. L.3". If the option to block [None], [NR], [E]or [E] programs is used in[U.S,TV ratings ]kk, [U.S.movie(MPAA) ratings]kk, [Canada English ratings]kk or [Canada French ratings ]kk accordingly "unusual resultsmay occur, and the unit may not receive emergency bulletins or other types of programming:" · Emergency Bulletins (Such as EAS messages, weather warnings and others) · Locally originated programming · News · Political · Public Service Announcements · Religious · Sports · Weather.

**Change PIN** –Change the password of the V-Chip function.
**Transparency** –Adjust the transparency of menu.

**OSD Timeout** –The time it takes the OSD to disappear when
no operations are performed. You can change it from Off, 5
seconds, 10seconds, and 30seconds.

# Adjusting the Installation

**To change the channel settings:**
 **In TV mode, you can adjust:**
1   Press **MENU**. The *Main* menu opens.
2   Press ▲ or ▼ to highlight **Installation**, then press **ENTER**
or ►. The *installation* menu opens.

| Installation | | TV |
|---|---|---|
| Language | English | |
| Channels | >>> | |
| Time | >>> | |
| Source Labels | >>> | |
| Reset AV settings | Start now | |

Move: ◄ ↕ ►    Enter: OK    Exit: EXIT

3   Press ▲ or ▼ to highlight an option, then press **ENTER** or ► to access
the option, and press ◄ or ► to adjust the option. You can select:

**Language** –You can select the menu's language among
English, French and Spanish.
**Channels**–You can select the mode of RF input and
scan the available channels.

| Installation | Channels | TV |
|---|---|---|
| Autoprogram | Start now | |
| Installation mode | Antenna | |

Move: ◄ ↕ ►    Enter: OK    Exit: EXIT

**Time** – Lets you set the exact time. You can setup
date,time,time zone and daylight saving.
**Source Labels**–Lets you name input source.
**Reset AV settings**–Change setting back to default.
(picture and sound only)
**Note:** *Menu items that are not selectable are grayed out. Menus in this
manual are described in TV mode, unless otherwise indicated.*

# Troubleshooting

Before calling for service, check the following information for possible solutions to problems you may experience. If none of these solutions work, turn off the TV, then turn it on again.

*Caution: Do not try to repair the TV yourself. Refer all servicing to qualified repair personnel.*

## Video and audio

| Problem | Solution |
|---------|----------|
| No picture (screen is not lit) and no sound. | • Make sure that the power cord is plugged in.<br>• Press **POWER** ⏻ on the TV or the remote control.<br>• Make sure that the correct video input source is selected. For more information, see "Selecting the video input source" on page 9.<br>• Try another channel. The station may be experiencing problems. |
| Dark, poor, or no picture (screen is lit), but sound is good. | • Adjust the brightness. For more information, see "To adjust the picture:" on page 12.<br>• Make sure that the correct picture mode is selected. For more information, see "To adjust the picture:" on page 12.<br>• Make sure that the antenna or cable TV is connected correctly and securely. For more information, see "Connecting an antenna, cable TV, or satellite TV box" on page 8. |
| No color, dark picture, or color is not correct. | • Adjust the color saturation. For more information, see "Adjusting the picture" on page 12. |
| Only snow (noise) appears on the screen. | • Try another channel. The station may be experiencing problems.<br>• Make sure that the antenna or cable TV is connected correctly and securely. For more information, see "Connecting an antenna, cable TV, or satellite TV box" on page 8. |
| Dotted lines or stripes appear on the screen. | • Adjust the antenna.<br>• Move the TV away from noise sources such as cars, neon signs, or hair dryers. |
| Double images. | • Try using a highly directional outdoor antenna or cable TV. |

| Problem | Solution |
|---------|----------|
| The picture has a few bright or dark spots. | • A few bright or dark spots on an LED screen is normal. It does not affect the operation of this TV. |
| Good picture, but no sound. | • Make sure that the sound is not muted.<br>• Make sure that the sound mode is set to **Stereo** or **Mono**. For more information, see "Selecting the audio mode" on page 12. |
| Audio noise. | • Make sure that there is no interference with infrared equipment such as a cordless telephone or headphones. Move the infrared equipment away from the TV to eliminate the noise. |

## Remote control

| Problem | Solution |
|---------|----------|
| Remote control does not work. | • Make sure that the TV power cord is plugged in.<br>• Make sure that there are no obstructions between the remote control and the remote control sensor on the front of the TV.<br>• Make sure that the batteries are installed correctly. For more information, see "Installing remote control batteries" on page 6.<br>• Replace the batteries. For more information, see "Installing remote control batteries" on page 6. |
| Trouble programming your existing universal remote control. | • See instructions and a table of common codes in "Programming a universal remote control to work with your TV" on page 7.<br>• Codes are subject to change. For up to date codes, go to www.dynexproducts.com.<br>• Replace the batteries. For more information, see "Installing remote control batteries" on page 6.<br>• Refer to the User Guide that accompanied your universal remote control and contact the manufacturer if problems persist. |

## General

| Problem | Solution |
|---------|----------|
| One or more channels do not display. | • Make sure that the channels are not blocked. For more information, see "Setting parental controls" on page 13. |
| Password is lost. | • Enter **0532** to access parental controls, then set a new password. For more information, see "Setting parental controls" on page 13. |
| Some settings cannot be accessed. | • If a setting is grayed, the setting is not available in the current video input mode. |
| TV cabinet creaks. | • When the TV is in use, the temperature rises naturally and may cause the cabinet to expand or contract which can cause a creaking noise. This is not a malfunction. |
| Control buttons on the TV do not work. | • Disconnect the power cord, wait a few seconds, then reconnect the power cord and turn on the TV. |

*Note: If the problem is not solved by using these troubleshooting instructions, try turning off your TV, then turning it on again.*

# Maintenance

Just like with any other household appliance, the performance and life-expectancy of your TV depends on how well you maintain it. Follow the procedures described here to clean the TV case and the LED screen.

*Cautions*:

- *Make sure that the TV is turned off and the power cord is disconnected from the power outlet before cleaning the TV.*
- *Never spray or pour any liquid directly onto the screen or the case.*

# Cleaning

- Clean your TV with a soft, dry cloth. If surfaces are extremely dirty, use a soft cloth dampened with a small amount of non-ammonia, non-alcohol-based, non-abrasive detergent solution.
- Clean the screen with a clean, soft, lint-free cloth. If additional cleaning is necessary, apply a small amount of non-ammonia, non-alcohol-based, non-abrasive detergent solution to the cloth.

# Legal notices

## FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply within the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

## FCC warning

Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user's authority to operate this equipment.

## Cables

Connections to this device must be made with shielded cables with metallic RF/EMI connector hoods to maintain compliance with FCC Rules and Regulations.

## Canada ICES-003 statement

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numerique de la classe B est conforme a la norme NMB-003 du Canada.
Standard Television Receiving Apparatus — Appareil de réception télévision ordinaire, Canada BETS-7 / NTMR-7

## Energy star

Your Hisense TV is ENERGY STAR® qualified in the "Power Saver"mode.It meets strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and Department of Energy. ENERGY STAR is a joint program of these government agencies, designed to promote energy efficient products and practices. Changes to certain features, settings, and functionalities of this TV (i.e. TV Guide, Picture, Sound)can increase or change the power consumption. Depending upon such changed settings, the power consumption may exceed the limits required for the ENERGY STAR qualification in the"Power Saver"mode.
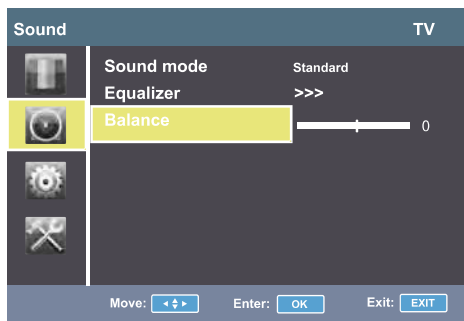

## WARNING

To prevent injury' this apparatus must be securely attached to the floor / wall in accordance with the installation instructions.
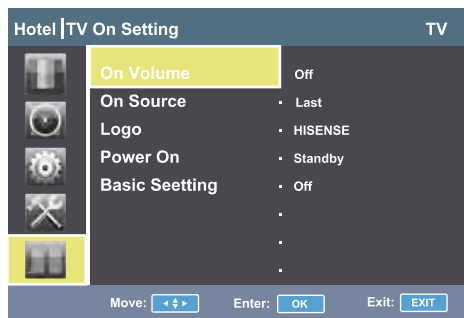

# Adjusting hotel settings

**To adjust hotel settings:**
