## Network Function

NOTICE

To access Internet streaming video services, please note the follow requirements.

1. Use of Internet services requires a working broadband Internet connection (1 to 2 Mbps for SD video, 2.25 to 4.5 Mbps for HD video and 4.5 to 9 Mbps for 1080p and 3D video.).

2. Internet-based services are not provided by Hisense, may change or be discontinued at any time and may be subject to restrictions imposed by your Internet service provider. The quality, functionality, or availability of such services may be affected by the capacity of your Internet connection. Use of video-on-demand and other Internet services may require the creation of a separate account through a computer with internet access.

3. Certain services may not be available for this TV model.

4. Video-on-demand and other Internet services may require payment of one-time and/or recurring charges.

5. You are solely responsible for any charges incurred as a result of using Internet-based content, including, without limitation, communications charges for the provision of Internet or network services and any charges incurred for third-party Internet content services, such as video on demand or subscription services. All third-party services are provided in accordance with whatever terms and conditions are established between such third-party providers and you.

6. HISENSE MAKES NO REPRESENTATIONS OR WARRANTIES ABOUT THE CONTENT, AVAILABILITY OR FUNCTIONALITY OF THE VUDU SERVICE OR OTHER INTERNET DELIVERED THIRD-PARTY SERVICES AND DOES NOT WARRANT THAT ANY OF THEM WILL BE UNINTERRUPTED, ERROR FREE OR SATISFACTORY. ANY IMPLIED WARRANTY, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF ANY THIRD PARTY CONTENT OR SERVICE, IS EXPRESSLY EXCLUDED AND DISCLAIMED. UNDER NO CIRCUMSTANCES WILL HISENSE BE LIABLE IN CONTRACT, TORT OR UNDER ANY OTHER THEORY FOR ANY DAMAGES ARISING OUT OF OR IN CONNECTION WITH YOUR USE OF ANY CONTENT OR SERVICE PROVIDED BY ANY THIRD PARTY, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

2. To use other features, press the button shown in the help bar.

3. Press the [**Return**] button to return to the upper menu, or the [**Exit**] button to close the App.

YouTube

☛ Brief introduction

The YouTube app allows you to watch original videos, music videos, feature length movies, previews and trailers on your TV screen. Search or browse recommendations with the TV remote.

☛ Operation instructions

● **To activate your YouTube account for your TV:**

Select "Sign in" and "Settings" from the toolbar on the left side of the application, then go to www.youtube.com/activate and enter the code you see on the TV screen. While you enter the code the screen should remain open, otherwise the code will no longer be valid. Once completed your account will be activated and you will be signed in.

● **To control YouTube from your tablet or smartphone:**

Please first check if your mobile device supports YouTube TV and use the same network connection. To pair your device to the YouTube screen, you will be prompted to go to www.youtube.com/pair on your mobile device. The screen guide to "Pair with TV" will appear. Enter the pairing code or enter the value of the scanned QR code on the SmartTV. While you enter the code the screen should remain open, otherwise the code will no longer be valid. Select a name for your device then click "Add TV". Once complete, the YouTube app will show that your mobile device has been paired. You can now select a video to watch on YouTube TV using your mobile device.

Opera Apps

▶ **Brief introduction**

The user can browse and launch any application from the Opera App store dashboard. These applications are based on the Opera Devices SDK and are displayed in a layout optimized for widescreen television. In the Opera TV Store, there are more than 100 high-quality, HTML5-powered TV apps available. You can choose any apps you like and either use them online or add them to "My Apps" for easy use. "My Apps" is located under the "MORE APPS" section.

▶ **Operation instructions**

1. Press the [**Hi-Smart**] button to display the home menu.

2. Press the [▲/▼/◄/►] buttons to select the Opera Apps icon and press the [**ENTER**] button to enter My Apps interface. You can select the applications you want to enter and press the [**ENTER**] button to confirm.

My Apps	✚ MORE APPS ≡ MENU
iG Receitas	vimeo	Zing TV
Viewster	Yandex	五子棋
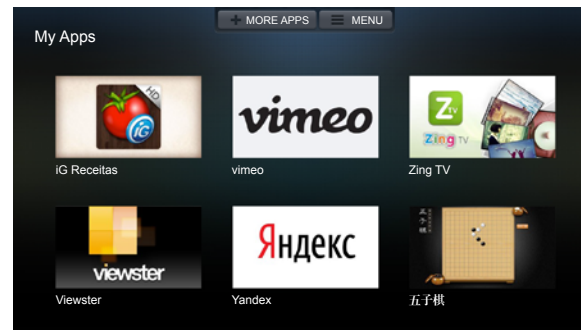

3. Press the [**Return**] button to return to the upper menu or press the [**Exit**] button to close the apps.

● **How to add more apps**

1. Press the [▲/▼] buttons to select the "**MORE APPS**" button on the top of the screen and press the [**ENTER**] button to enter it.

   In the More Apps' subpage, the application is classified by All categories, New, Popular, Watch, Listen, Play, Socialize, Shop, Read, Use.

2. Press the [◄/►] buttons to select the classification and press the [▼] button to enter.

3. Press the [▲/▼/◄/►] buttons to select the applications which you want to install and press the [**ENTER**] button to enter the installing interface.

4. Press the "**ADD TO MY APPS**" button to install the applications or press the "**OPEN**" button to enter the application interface directly.

   If the applications have been installed, they will be shown in My Apps interface.

● **How to remove the installed apps**

1. Press the [▲/▼] buttons to select the "**MENU**" button on the top of the screen and press the [**ENTER**] button. A pop-up menu appears on the screen.

2. Press the [▼] button to select "**REMOVE APP**" option, select the application which you want to delete, then press the [**ENTER**] button.

- **SelfService**

1. Press the [▲/▼] buttons to select the "**MENU**" button on the top of the screen and press the [**ENTER**] button. A pop-up menu appears on the screen.

2. Press the [▼] button to select "**About**" option and press the [**ENTER**] button to view the service information.

Digital Media Receiver (HiBeam)

▶ Brief introduction

With the Digital Media Receiver you do not have to crowd around a small tablet PC or smartphone screen to share video, music or pictures with friends and family. Simply browse, discover and beam media files stored on your Android or iOS device to your TV using the Twonky Beam application. (You can seach Twonky Beam from Google play or the Apple App store).

▶ Operation introduction

1. TV side:

- Confirm the TV is connected to a local area network. (Reference the **Network Settings** section)
- Set DLNA to On. (Reference the **DLNA Settings** section)

2. Device Setup:

- Download the Twonky Beam application using the link found on the Hisense website at www.hisense-usa.com.
- Confirm the device is connected to the same local area network as the TV.
- Launch the Twonky Beam application, select the video, music or picture you want the share and beam it to the TV.
- You can control the playback using the TV remote or from the device application.

☑ NOTES

· Your DMR of TV may not be accessible when there are some prior applications working (such as Skype or firmware updating). You need to close these prior applications or waiting for the firmware updating finished, then the DMR will work.

· If a mobile device has access TV, you can set the access privileges to Allow or Deny in "Menu-Network-Applications-My Shared Devices"

▶ Media content control function buttons

When viewing video/photo, you can press these buttons on the remote control to control video/photo.

Fast forward — The previous one
Fast backward — The next one
Play/Pause — Stop
☑ NOTE

When browsing the photos, only the [▶ǁ], [◄◄] and [▶▶] buttons are available.

Digital Media Player (HiMedia)

Please note that Hisense does not assume any responsibility for any lost data and cannot guarantee perfect compatibility with all mass storage devices. Be sure to insert the USB disk/mobile hard disk with standard USB2.0 port or to connect the TV with other digital devices via DLNA (Menu >Network >Applications >DLNA).

- Press the [INPUT] button to display the Source menu, press the [▲/▼] buttons to highlight the HiMedia source, then press the [**ENTER**] button to confirm. (If you want to exit HiMedia, you can press the [INPUT] button to switch to other sources).
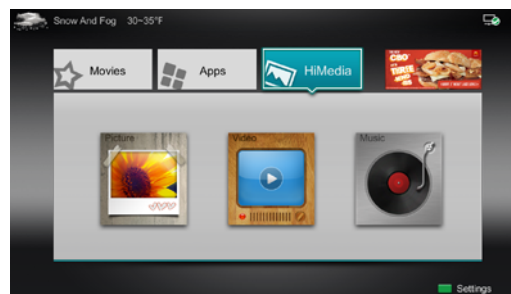

- Press the [**Hi-DMP**] button to enter the HiMedia mode directly. Or press the [**Hi-Smart**] button to enter.

- In the HiMedia screen you can press the [◄/►] select the Picture/Video/Music option, then press [**ENTER**] to enter/play the folder/file.

- Press [**RETURN**] to return to the previous directory.
1. Press the [▲/▼] buttons to switch the media type.

2. Press the [**Yellow/Blue**] buttons to turn to the previous/ next page.

3. Press the [▲/▼/◄/►] buttons to select the folder/file you want to open and then press the [**ENTER**] button to enter/ play the folder/file.

4. Press the [**Return**] button to return to the previous directory.

▐ Playable format list

Files Format	Playable format
Photo	.jpg

Other Information

Troubleshooting

If you experience difficulties while using the TV, please check the table below for possible solutions. If the symptoms persist, please contact Hisense customer care at 1-888-935-8880.

SYMPTOMS	POSSIBLE SOLUTIONS
No sound or picture.	○ Check if the power cord is in the AC outlet and if it has electricity. ○ Check if you have pressed [POWER] button on the TV or [POWER] button on the remote control.
I have connected an external source to my TV and I get no picture and/or sound.	○ Check for the correct output connection on the external source and for the correct input connection on the TV. ○ Make sure you have made the correct selection for the input mode for the incoming signal.
When I turn on my television, there is a few second delay before the picture appears. Is this normal?	Yes, this is normal. That is the TV searching for previous setting information and initializing the TV.
Picture is normal, but no sound.	○ Check the volume settings. ○ Check if Mute mode is set "on".
Sound but no picture or black and white picture.	○ If black and white picture first unplug TV from AC outlet and replug after 60 seconds. ○ Check Color Setting if picture is black and white.
Sound and picture distorted or appear wavy.	○ An electrical appliance may be affecting TV set. Turn off any appliances, if interference goes away, move appliance farther away from TV. ○ Insert the power plug of the TV set into another power outlet.
Sound and picture is blurry or cuts out momentarily.	○ If using an external antenna, check the direction, position and connection of the antenna. ○ Adjust the direction of your antenna or reset or fine tune the channel.
Horizontal/vertical stripe on picture or picture is shaking.	Check if there is interfering source nearby, such as appliance or electric tool.
The plastic cabinet makes a "clicking" type of sound.	"Click" sound can be caused when the room temperature changes. This change causes the television cabinet to inflate or contract, which makes the sound. This is normal and TV is OK.
Black square appears in the center of my television screen?	The Closed Caption function is set in the text mode. To remove it, access Closed Caption from the menu screen and change the Mode setting from text to either CC1 or off .
On some channels getting another language or sometimes no sound at all.	That would indicate that the MTS mode on your unit is set to SAP mode. We suggest setting the MTS mode to either Stereo or Mono . For further instruction, please see Audio Adjust or MTS/SAP in your user manual. ○ SAP is Second Audio Program. It's a second audio channel that is usually used for a second language or descriptive audio for the visually impaired. ○ MTS stands for Multichannel Television Sound, a standard that allows the encoding of 3 channels of audio within a standard NTSC (analog) video signal to a television. A television that is able to receive MTS Stereo allows you to watch television with stereo sound.

SYMPTOMS	POSSIBLE SOLUTIONS
Not getting all of my cable channels on the television or I'm only getting 13 channels.	● Check the cable connection for an incoming signal. Make sure the signal is coming OK. Best way to confirm signal is to use another TV and/or contact your cable company. ● Reprogram your channels. Press [MENU] button on your TV remote control, change Input Source setting to "Cable", then use "Auto Channels Search" to reprogram your channels.
[CH Λ / V] don't work when I set the Channel to Cable? They work with the Air setting?	After switching to Cable, please auto program the channels. The TV will "remember" all the channels then the TV will allow you to surf the channels with [CH Λ/V] buttons.
Remote control does not work.	● Confirm that TV still has power and is operational. ● Change the batteries in the remote control. ● Check if the batteries are correctly installed. ● Clean the front of the remote control (LED window). ● If using a universal remote, be sure to select the TV mode on the remote. ● If the remote still does not work: 　• Remove and reinstall the batteries correctly to reset the remote or install new batteries. 　• Press the Power button to turn on the TV. With a universal remote if you have reset or changed the batteries you will need to reprogram the remote for the other units. ● Check if there is obstruction between the remote control and the TV. **TIP:** If you have a digital camera / camera phone, you can aim the front of the remote at camera lenses (at this time, the camera should set on camera mode, not play mode). Observe the camera screen while pressing a button on the remote control; you should see flashing light on the screen. If there is no light observed, the remote control is not working. You need to repair or replace the remote control.
