# M1A1 ABRAMS

## 1:16 BATTLE TANK

### Tank

### Battery Requirement

1. Tank: 6 x AA Batteries
2. Remote: 1 x 9V battery

6 x AA  
For Tank  
(Not Included)

1 x 9V  
For Remote  
(Not Included)

### Remote

Remote - Battery Installation

### Battery and Antenna Installation

#### For Vehicle

1. Switch OFF the power
2. Unscrew the screw on the battery cover
3. Open the battery cover
4. Install AA battery pack with correct polarities (+/-) as shown inside the battery compartment
5. Close the battery cover
6. Tighten the screw on the battery cover

#### For Remote

1. Switch OFF the power
2. Unscrew the screw on the battery cover
3. Open the battery cover
4. Install 1 new 9V battery with correct polarity (+/-) as shown inside the battery compartment
5. Close the battery cover
6. Tighten the screw on the battery cover
7. Insert the antenna into the top of Transmitter, tighten it by rotating clockwise (viewing from top of Remote)

Use of alkaline batteries is recommended.  
Rechargeable AA batteries can also be used.  
Performance of the tank may vary due to rechargeable batteries.  
Some brands may not be recommended.  
Please check before use.  
Operation and running times are approximate.  
Performance of the tank may vary upon: battery used, road conditions, way of operations, etc.

Incorrect use of rechargeable batteries will lead to leakage, fire, overheating, etc.  
Please beware of the following:

- Please follow the charger instruction when charging.
- Please do not short circuit. It is very dangerous for the large current flow.
- Please do not put into fire, decompose, remodel the battery.

Incorrect use of batteries will lead to leakage, fire, overheating, etc.  
Please beware of the following:

- Please do not mix with old batteries and new batteries.
- Please correctly place the polarity - (+) and (-)
- Please make sure the power is switched off and batteries are taken out from the car and remote after play.
- Please do not short circuit, put into fire, heat and decompose the batteries.
- If leakage gets into the eye(s), please rinse the impacted eye(s) with plenty of water immediately and consult with physician.
- If leakage adheres to skin and/or clothing, please rinse the impacted area with water immediately.

**WARNING:**  
**CHOKING HAZARD—Small parts.**  
Not for children under 3 years.

#### ABOUT THE BATTERY

- Please always turn off the power switches on the car body and remote after playing. Forgetting to turn off the power will cause current flow and use up of the batteries.
- Please replace all batteries at the same time. Mixture of old and new batteries may cause leakage.
- If there is a time delay on the control, please replace the batteries with new ones.

### How to Play Switch ON the Tank / Switch OFF the Tank after playing

### Performance Tips

1. Do not drive on grass, dirt, sand, dusts, carpet or go through water
2. Do not drive in windy or rainy weather
3. Remember to switch OFF the power of the Tank and Remote after playing
4. Play on smooth surface to have the optimum performance
5. The optimum control range is up to 50ft outdoor
6. Avoid direct impact the Vehicle with obstacles
7. Switch OFF the power when not in use to prevent damage of Vehicle and Transmitter due to leakage of electrolyte from batteries
8. Remove all batteries from the Vehicle and Transmitter when not in use for long period
9. Keep fingers, hair and loose clothing away from wheels
10. The operating range can be affected by a variety of factors
  - a) Low Voltage of batteries in Transmitter or Vehicle
  - b) Interference from other items that emit radio frequency signals
11. Outdoor usage is recommended in order to get optimum control range
12. Recommend to play the vehicle on a clean and smooth surface
13. Clean the battery compartment to make sure it is free from dust to prevent poor contact of batteries

### Cautions

1. Do not attempt to disassemble the Tank or Remote
2. Do not operate the Tank with same frequency with other player(s) in same location that will interfere and make the Tank out of control.
3. Make sure the batteries are installed with correct polarities (+/-) as shown inside the battery compartment
4. Remove the package and take out all accessories before giving the Tank and Remote to child to play

### FCC label compliance statement:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruct.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed
- Consult the dealer or an experienced radio/TV technician for help

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### Declaration of Conformity

The product is in conformity with the requirement of EU Directive 1999/5/EC

### Environmental notes:

The whole product also does not belong to household waste at the end of the product life. You can return it at collection points for the recycling of electronic and electrical instruments

The symbol on the item, instruction manual, hangtag or packing is showing this clearly.

Materials should be recycled according to their respective markings.

Recycling of old devices or other re-use of materials contained therein represents an important contribution to environmental protection. Please ask at your local community for the correct collection point.

### Disposal of batteries

Batteries should not be disposed of in the household waste. As the consumer you are legally obliged to return batteries containing harmful substances and all other used batteries. You can hand in your old batteries at public collection points in your area or wherever batteries are sold.

You will find these chemical abbreviations along with a crossed-out refuse bin on batteries containing harmful substances:

- Pb-Battery contains lead
- Cd-Battery contains cadmium
- Hg-Battery contains mercury

The packaging and instruction manual contain important information.

Please keep them for future reference.

Warning! Choking Hazard. Not suitable for children under the age of 3 years due to small parts.

We reserve the right to improve/amend specifications and colors without notice.

Warning! The Antenna of vehicle is not to be inserted into socket outlets.

### CAUTION:

Remove all tags, twist-ties and plastic loops before giving toy to child.

### CAUTION:

An adult should remove components from moulding runners before giving to child.

CONFORMS TO THE SAFETY  
REQUIREMENTS OF ASTM F963.

Do not mix old and new batteries.  
Do not mix alkaline, standard (carbon-zinc),  
or rechargeable batteries.

Contents and colors may vary.
