OWNERS MANUAL

INSTRUCTIONS

Before beginning assembly please take the time to read instructions thoroughly. Please use the various lists in this manual to make sure that all parts have been included in your shipment. When ordering, use part number and description from the lists. Use only HOIST replacement parts when servicing. Failure to do so will void your warranty and could result in personal injury.

HOIST equipment is designed to provide the smoothest, most effective exercise motion possible. After assembly, you should check all functions to ensure correct operation. If you experience problems, first recheck the assembly instructions to locate any possible errors made during assembly. If you are unable to correct the problem, call your authorized HOIST dealer. Be sure to have your serial number and this manual when calling. When all parts have been accounted for, continue on.

TOOLS REQUIRED

Socket Wrench

1/2", 9/16" and 3/4" Sockets

Crescent Wrench

Rubber Mallet

Tape Measure

Level

Allen Wrench Set

WARNING

USE ONLY GENUINE HOIST REPLACEMENT PARTS. FAILURE TO DO SO WILL VOID WARRANTY AND COULD RESULT IN PERSONAL INJURY OR EVEN DEATH. THERE IS A RISK ASSUMED BY INDIVIDUALS WHO USE THIS TYPE OF EQUIPMENT. TO MINIMIZE THE RISK, ALWAYS FOLLOW THESE SIMPLE RULES.

1. READ & UNDERSTAND ALL EXCLUDED INSTRUCTIONS before using this equipment.
2. INSPECT EQUIPMENT BEFORE EACH USE. Replace all parts at the first sign of wear or damage. Do NOT doubt about a certain part. DO NOT use the equipment until the part is replaced. Failure to replace worn or damaged parts may result in injury.
3. FOLLOW ROUTINE MAINTENANCE SCHEDULE.
4. CONSULT YOUR PHYSICIAN BEFORE STARTING ANY EXERCISE PROGRAM. Warm up properly before engaging in weight resistance training. Stop exercising if you feel faint or dizzy.
5. TO PREVENT THE POSSIBILITY OF SERIOUS INJURY, KEEP CLEAR OF ALL MOVING PARTS. Do not attempt to free any jammed part by yourself. Obtain assistance in order to avoid possible injury.
6. Take your time and do not rush the process. Practice proper breathing. NEVER hold your breath.
7. CHILDREN SHOULD NOT BE ALLOWED TO USE THIS EQUIPMENT. To avoid possible injury, children should be kept at a safe distance when this equipment is in use. Teenagers should not use this equipment without adult supervision.
8. CALL YOUR AUTHORIZED DISTRIBUTOR if you have any questions on the proper use or maintenance of this equipment.

For personal, in home use, please follow the home maintenance schedule listed above.*

OWNERS MANUAL

HOIST FITNESS SYSTEMS GENERAL MAINTENANCE INFORMATION

Links, Pull-Pins, Snap Locks, Swivels, Weight Stack Pins:

- *Check all pieces for signs of visible wear or damage.**
- *Check springs in snap hooks and pull-pins for proper tension and alignment.**
- *If the spring sticks or has lost its rigidity, replace it immediately.**

Upholstery:

- *To ensure prolonged upholstery life and proper hygiene, all upholstered pads should be wiped down with a damp cloth after every workout.**
- *Periodically take the time to use a mild soap or an approved vinyl upholstery cleaner to deter the onset of cracking or drying. Avoid using any abrasive cleaners or cleaners not intended for use on vinyl.**
- *Replace ripped or worn upholstery immediately.**
- *Keep sharp or pointed objects clear of all upholstery.**

Decals:

- *Inspect and familiarize yourself with any safety warnings or other user information posted on each decal.**

Nuts and Bolts:

- *Inspect all nuts and bolts for any loosening and tighten if needed.**
- *Go through a re-tightening sequence periodically to ensure that all hardware is tensioned properly.**

Anti-Skid Surfaces:

- *These surfaces are designed to supply secure footing and need to be replaced if they appear worn or become slippery.**

Belts and Cables:

- *Hoist uses only high quality belt, and mil-spec cables.**
- *Visually inspect the belts and cables for fraying, cracking, peeling or discoloration.**
- *While the machine is not in use, carefully run your fingers along the belt or cable to feel for thinning or bulging areas.**
- *Replace belts and cables immediately at the first signs of damage or wear. Do not use equipment until belts or cables have been replaced.**

OWNERS MANUAL

GENERAL MAINTENANCE INFORMATION

(CONTINUED)

Belt and Cable Tension:

*Referring to the Owners Manual, when belts or cables are used check all bolts attachments to be sure they are properly attached.

*Check slack in cables and re-adjust cable tension if needed.

Seat Sleeves, Guide Rods:

*Wipe down adjusting tubes with a dust free rag before applying lubricant.

*Lubricate seat sleeves and Guide Rods with a Silicon or Teflon based lubricant spray.

Linear Bearings:

*Referring to the Owners Manual carefully dis-assemble the bearing from its housing and place a finger full of light grease (lithium, super lube, etc.) into the inside of the bearing. Using your finger, press the grease into the ball-bearings and their tracks. repeat until the ball-bearing tracks are full of grease. Insert the shaft back into the bearing and wipe off excess grease.

WEIGHT TRAINING TIPS

Always consult your physician before starting any exercise program.

To be successful in your exercise program, it is important to develop an understanding of the basic principles of strength training. Now that you have your V-2 HOIST® Fitness System, it is only natural that you want to get started immediately. First, determine a set of realistic goals and objectives for yourself. By deciding on an exercise plan that is right for you prior to starting, you will contribute significantly to your success.

Warm up properly before engaging in weight resistance training. Stretching, yoga, jogging, calisthenics or other cardiovascular exercise can help prepare your body for the heavier workload of lifting weights.

Learn how to perform the exercise correctly before using heavy weight. Correct form is important to avoid injury and to ensure that you work the proper muscle groups.

Know your limitations. If you are new to weight training or are embarking on an exercise regimen after a long layoff, start slowly and build foundational strength over a longer period of time.

Pay attention to your breathing. Exhale when you exert is a general rule of thumb. Never hold your breath.

Use this manual to guide you through the basic exercises you can perform on your V-2 machine. To gain maximum results and avoid possible injury, consult a fitness professional to develop your complete exercise program.

Enjoy your V-2 HOIST Fitness System!

20	100	240

The above chart shows the standard weight stack for this unit. The weights listed are approximate and have been rounded off to the nearest pound. HOIST reserves the right to modify the weight stack from the one shown without prior notice.

WORKOUT VARIATIONS

The V2's versatile design allows you to customize your workout to fit your needs. Enhance your routine by performing an exercise using a different hand position or movement pattern. By varying the way you perform an exercise, you will work your muscles differently.

HAND GRIPS		
		
OVERHAND GRIP	NEUTRAL GRIP	UNDERHAND GRIP
Thumbs point inward, towards each other, in the starting position.	Thumbs are parallel, pointing in the same direction, in the starting position.	Thumbs point outward, away from each other, in the starting position.

OWNERS MANUAL

WORKOUT VARIATIONS

HAND ROTATIONS

PRONATION:

Rotating your hand with your thumb turning inward during the exercise.

SUPINATION:

Rotating your hand with your thumb turning outward during the exercise.

ARM MOVEMENTS

ALTERNATING

ALTERNATING:

Complete movement, from start to finish, using one arm at a time.

RECIPROCATING:

Continuous position switching back and forth, one arm in the start position and the other.

CROSS

Start with cables crossed. Begin motion with narrow starting position and complete motion with wide finish position.

STRAIGHT

Traditional pull down. Hands start and finish at approximately the same distance apart.

NARROW

Converging:

Hand position starts wide and finishes narrow.

Diverging:

Hand position starts narrow and finishes wide.

OWNERS MANUAL

EXERCISE DESCRIPTION

DECLINE PRESS

1. Adjust the seat all the way forward, and lean back against the back pad. With an overhand grip, bring the the lower strap handles to a chest level starting position.
2. Press the handles straight forward until your arms are fully extended in front of you and level with your lower chest. Slowly return to the starting position.

VERTICAL BENCH PRESS

1. Adjust the seat all the way forward, and lean back against the back pad. With an overhand grip, bring the lower strap handles to a chest level starting position.
2. Press the handles forward at a slight upward angle until your arms are fully extended in front of you and level with your chin. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

INCLINE PRESS

1. Adjust the seat to a mid position, and lean back against the back pad. With an overhand grip, bring the lower strap handles to a chest level starting position.
2. Press the handles forward at a steep upward angle until your arms are fully extended in front of you and level with your eyes. Slowly return to the starting position.

DECLINE FLY

1. Adjust the seat all the way forward, and lean back against the back pad. Grip the lower strap handles and bring them to a chest level starting position.
2. Turn the handles to a neutral grip position with your arms at chest level. Extend them out to the sides with a slight bend in your elbows.
3. Rotate your arms straight forward, pivoting from your shoulders. Finish by bringing your hands together out in front of you and level with your lower chest. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

PECTORAL FLY

1. Adjust the seat all the way forward, and lean back against the back pad. Grip the lower strap handles and bring them to a chest level starting position.
2. Turn the handles to a neutral position with your arms at chest level. Extend the handles out to the sides with a slight bend in your elbows.
3. Rotate your arms forward at a slight upward angle, pivoting from your shoulders. Finish by bringing your hands together out in front of you and level with your chin. Slowly return to the starting position.

INCLINE FLY

1. Adjust the seat to a mid position, and lean back against the back pad. Grip the lower strap handles and bring them to a chest level starting position.
2. Turn the handles to a neutral grip position with your arms at chest level. Extend the handles out to the sides with a slight bend in your elbows.
3. Rotate your arms forward at a steep upward angle, pivoting from your shoulders. Finish by bringing your hands together out in front of you and level with your eyes. slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

PECTORAL CROSSOVER

1. Stand sideways to the machine, and grip one of the upper strap handles in a neutral position with the hand closest to the machine.
2. Arc your arm forward and across your body, pivoting from your shoulder. Keep a slight bend in your elbow. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

DIVERGING LAT PULLDOWN

1. Adjust the seat all the way rearward. Sit facing the machine with your knees locked under the lat hold down roller pads; adjust the pads if necessary.
2. Grip the upper strap handles in a neutral position, with your hands approximately 6" apart.
3. Pull the handles down slowly in a diverging (narrow to wide) motion. Finish at chest level with your hand slightly wider than your shoulders. Slowly return to the starting position.

WIDE GRIP LAT PULLDOWN

1. Adjust the seat all the way rearward. Attach the lat bar to the upper pulleys. Sit facing the machine with your knees locked under the lat hold down roller pads; adjust the pads if necessary.
2. Grip the bar with your hands in an overhand position, slightly wider than your shoulders.
3. Lean back slightly, and pull the bar down slowly until it touches your upper chest area. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

REVERSE GRIP PULLDOWN (1)

1. Adjust the seat all the way rearward. Sit facing the machine with your knees locked under the lat hold down roller pads; adjust the pads if necessary.
2. Grip the upper strap handles in an underhand position, with your hands approximately 6" apart.
3. Pull the handles down slowly and finish with your hands positioned slightly below your chin. Slowly return to the starting position.

REVERSE GRIP PULLDOWN (2)

1. Adjust the seat all the way rearward. Attach the lat bar to the upper pulleys. Sit facing the machine with your knees locked under the lat hold down roller pads; adjust the pads if necessary.
2. Grip the bar in an underhand position, with your hands approximately 6" apart.
3. Pull the bar down slowly and finish with your hands positioned slightly below your chin. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

ALTERNATING HIGH PULL

1. Adjust the seat all the way forward and the upper roller pads to their highest setting. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the upper strap handles in a neutral position, with your hands approximately 6" apart. Pull the handles down slowly, alternating one at a time, in a diverging (narrow to wide) motion.
3. Finish at chest level with your hands slightly wider than your shoulders. Slowly return to the starting position.

SEATED LOW ROW

1. Adjust the seat all the way forward. Adjust the lat hold down roller pads to their lowest setting. Sit facing the machine with your feet either on the floor or on the foot brace.
2. Grip the lower strap handles with your arms straight and your hands in a neutral position. Pull the handles towards you, keeping your elbows close to your sides. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

SEATED IRON CROSS

1. Adjust the seat all the way rearward. Sit upright and grip the upper strap handles in an overhand position, palms facing outward.
2. Arc your arms down slowly, keeping a slight bend in your elbows. Finish with your arms straight out to the side, hands at shoulder level. Slowly return to the starting position.

ONE ARM ROW

1. Stand to the side of the machine, and grip one of the lower strap handles in a neutral position. Bend over slightly, using the back pad for support. Keep your knees slightly bent.
2. Pull the handle towards you at an upward angle, keeping your elbow close to your body. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

SHOULDER PRESS

1. Adjust the seat all the way rearward and lean back against the back pad. With an overhand grip, bring the lower strap handles to a shoulder level starting position.
2. Press the handles upward at a steep angle until your arms are fully extended over your head. Slowly return to the starting position.

STANDING REAR DELTOID

1. Adjust the seat all way rearward. Stand straddling the seat, grip the upper strap handles in a crossed arm, neutral position, with your palms facing outward and your elbows slightly bent.
2. Arc your arms across your body in a downward angle, pivoting from your shoulders.
3. Finish by extending your arms out to the sides at waist level. Keep a slight bend in your elbows at all times. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION BENT OVER REAR DELTOID

1. Stand to the side of the machine, and grip one of the lower strap handles in a neutral position with the hand furthest from the machine.
2. Bend at the waist, and rest your free hand on your upper thigh for support. Keep your knees bent.
3. Arc your arm upward, pivoting from your shoulder. Keep a slight bend in your elbow. Slowly return to the starting position.

LATERAL DELTOID

1. Stand to the side of the machine, and grip one of the lower strap handles in a neutral position with the hand furthest from the machine.
2. Raise your arm laterally, until it is approximately parallel to the floor. Keep a slight bend in your elbow. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

SEATED UPRIGHT ROW

1. Adjust the seat all the way forward and the upper rollers to their highest setting. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the lower strap handles with your arms straight and your hands in an overhand position. Keeping your elbows above your hands, slowly pull upward towards your chin. Slowly return to the starting position.

INTERNAL ROTATOR CUFF

1. Stand to the side of machine, and grip one of the lower strap handles in a neutral position with the hand closest to the machine.
2. Keep your upper arm close to to your side and your hand extended forward. Keep your forearm parallel to the floor.
3. Keep your body straight, and rotate your arm inward, pivoting from the shoulder. Keep your elbow in, close to your side and bent at a 90 degree angle. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION **EXTERNAL ROTATOR CUFF**

1. Stand to the side of the machine, and grip one of the lower strap handles in a neutral position with the hand furthest from the machine.
2. Keep your upper arm close to your side and your hand extended forward. Keep your forearm parallel to the floor.
3. Keep your body straight, and rotate your arm outward, pivoting from the shoulder. Keep your elbow in, close to your side and bent at a 90 degree angle. Slowly return to the starting position.

FRONT DELTOID

1. Stand to the side of the machine, and grip one of the lower strap handles in an overhand position.
2. Keeping your arm straight, raise the handle until your arm is approximately parallel to the floor. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

SEATED SHOULDER SHRUG

1. Adjust the seat all the way forward and the upper rollers to their highest setting. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the lower strap handles with your arms straight and hands in a neutral position. Keeping your arms straight, slowly pull your shoulders upwards, towards your ears. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

SEATED ALTERNATE CURL

1. Adjust the seat all the way forward and the upper rollers to their highest setting. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the lower strap handles with your arms slightly bent and your hands in an underhand position. Curl your arms upward, alternating one at a time. Slowly return to the starting position.

STANDING BICEPS CURL

1. Attach both strap handles to one lower pulley. Stand to that side of the machine, and grip both handles in an underhand position.
2. Keep your elbows at your sides, and curl your arms upward slowly. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

STANDING REVERSE CURL

1. Attach both strap handles to one lower pulley. Stand to that side of the machine and grip both handles in an overhand position.
2. Keep your elbows at your sides, and curl your arms upward slowly. Slowly return to the starting position.

OVERHEAD BICEPS CURL (1)

1. Adjust the seat all the way forward and the upper rollers to their highest setting. Attach the lat bar to the upper pulleys. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the bar in an underhand position with your arms slightly bent and your hands approximately 6" apart.
3. Bend at your elbows and curl the bar slowly. Finish with your hands positioned in front of your chin. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

OVERHEAD BICEPS CURL (2)

1. Adjust the seat all the way forward and the upper rollers to their highest setting. Sit facing the machine with your back leaning against the upper roller pads.
2. Grip the upper strap handles in an underhand position with your arms slightly bent and your hands approximately 6" apart.
3. Bend at your elbows, and curl the handles slowly. Finish with your hands positioned in front of your chin. Slowly return to the starting position.

ALTERNATING HAMMER CURL

1. Adjust the seat all the way rearward. Stand straddling the seat, and grip the lower strap handles with your arms slightly bent and your hands in a neutral position.
2. Keeping your elbows at your sides, curl your arms upward slowly, alternating one at a time. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

TRICEPS PUSHDOWN

1. Adjust the seat all the way rearward. Stand straddling the seat and attach the lat bar to the upper pulleys. Grip the bar in an overhand position with your hands approximately 6" apart.
2. Bring the bar to chest height. Keep your upper arms tight against your body, and push the bar down slowly. Slowly return to the starting position.

HAMMER PUSHDOWN

1. Adjust the seat all the way rearward. Stand straddling the seat, grip the upper strap handles in a crossed arm, neutral position, with your palms facing outward.
2. Bring the handles to chest height. Keep your upper arms tight against your body, and push the handles down slowly across your body. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

REVERSE TRICEPS KICKBACK

1. Stand to the side of the machine and grip the lower strap handle on that side in an underhand position. Bend over slightly, using the back pad for support. Keep your knees slightly bent.
2. Keep your upper arm tight against your body and extend the handle rearward, pivoting at your elbow. Slowly return to the starting position.

STANDING TRICEPS EXTENSION

1. Stand to the side of the machine and grip one of the upper strap handles in an overhand position.
2. Hold the handle behind your head, and keep your elbow close to the side of your head. Extend the handle forward, pivoting at your elbow. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION SEATED TRICEPS EXTENSION

1. Adjust the seat all the way forward, and lean back against the back pad. With an overhand grip, bring the lower strap handles to a head level starting position.
2. Keep your elbows close to your head. Slowly press the handles forward at an upward angle until your arms are fully extended in front of you and level with your eyes. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

ABDOMINAL CRUNCH

1. Adjust the seat all the way forward and the upper rollers to the highest setting. Lean back against back pad with your knees under the upper rollers.
2. Grip the lower strap handles in a underhand position, with your palms facing your body. Bring the handles to a chin level starting position, slightly in front of your shoulders.
3. Curl your body forward, approximately half way towards your knees, by pivoting from your upper abdominal area. Keep your upper arms tight against your body. Slowly return to the starting position.

SEATED OBLIQUE CRUNCH

1. Adjust the seat all the way rearward. Sit upright and grip one of the upper strap handles in a neutral position, with your palm facing inward. Bring the handle to a head level starting position.
2. Curl your body to the side, keeping your arm stationary and bending only at the waist. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION TORSO ROTATION

1. Adjust the seat all the way rearward. Sit upright facing sideways. Grip one of the lower strap handles with both hands in a neutral position, with your palms facing each other.
2. Keep your upper arms tight against your body and extend your hands forward. Keep your forearms parallel to the floor.
3. Twist your upper body to the side, by rotating at the waist. Keep your lower body stationary. Slowly return to the starting position.

SIDE BENDS

1. Stand to the side of the machine, and grip one of the lower strap handles in a neutral position with the hand closest to the machine.
2. Keep your arm straight and crunch your upper body over the opposite side. Keep your lower body stationary and bend only at the waist. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

KNEE RAISE

1. Adjust the seat all the way rearward. Sit facing sideways and lift your feet off the ground, leaning back for balance.
2. Lift your knees towards your chest, keeping both feet together. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

LEG EXTENSION

1. Adjust the upper rollers to their lowest setting. Adjust the seat so that the pivot point of the leg extension / leg curl arm lines up with the pivot point of your knees.
2. Hook your legs over the upper roller pads and your feet under the lower roller pads. Extend your legs forward and hold your position momentarily. Slowly return to the starting position.

STANDING LEG CURL

1. Stand facing the machine. Adjust the seat all the way forward and the upper roller pads to their highest setting.
2. Hook one foot under the lower roller pad, and lean forward slightly using the back pad for support. Curl your leg upward and hold your position momentarily. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

INNER THIGH

1. Attach the padded cuff to a lower pulley. Stand to the side of the machine, and attach the cuff to the leg closest to the pulley.
2. Hold the back pad for balance and scissor your leg across your body. Keep the rest of your body stationary. Slowly return to the starting position.

OUTER THIGH

1. Attach the padded cuff to a lower pulley. Stand to the side of the machine, and attach the cuff to the leg furthest from the pulley.
2. Hold the back pad for balance. Keep your leg straight and slightly in front of you body.
3. Lift your leg outward and upward as far as possible, leading with your heel. Keep the rest of of your body stationary. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

GLUTE KICK

1. Attach the padded cuff to a lower pulley. Stand to the side of the machine, and attach the cuff to the leg closest to the pulley. Lean forward slightly using the back pad for balance.
2. Raise your foot up, in a backwards direction, as far as possible. Keep your hips stationary, leg straight, and toes pointed down. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

LEG PRESS (OPTIONAL)

1. Adjust the back pad so your legs are bent when your feet are placed on the foot plate. Position your knees as close to your body as possible without bending past a 90 degrees angle.
2. Slowly push your legs to a straight position and leave a slight bend in your knees when fully extended. Never allow your knees to lock during the movement. Slowly return to the starting position.

TOE RAISES (OPTIONAL)

1. Adjust the back pad so your legs are slightly bent when your feet are placed on the foot plate. Fully extend legs with your heels slightly lower than the bottom of the foot plate. Do not lock your knees.
2. Keep your knees in the position described above; flex your toes forward as far as possible. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

GOLF SWING (FUNCTIONAL)

1. Stand to the side of the machine. Grip one of the upper strap handles with both hands in a neutral position, palms facing each other. Assume your normal golf stance.
2. Hold the handle above your head, and follow through with your natural swing arc, as if you were holding a club. Keep your motion fluid as you shift your weight. Slowly return to the starting position.

TENNIS BACKHAND (FUNCTIONAL)

1. Stand to the side of the machine and grip one of the lower strap handles as if it were a tennis racquet. Use one or two hands, depending on your preference. Assume your normal tennis stance.
2. Hold the handle at waist level and follow through with your natural swing. Rotate your torso, with your knees bent. Keep your motion fluid as you shift weight. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

BOWLING / UNDERHAND PITCH (FUNCTIONAL)

1. Stand to the side of the machine, and grip one of the lower strap handles in an underhand position, with your arm down to the side.
2. Step forward with the opposite leg and follow through with your pitch. Keep your torso straight. Shift your weight forward as you step with fluid motion. Slowly return to the starting position.

OVERHAND PITCH (FUNCTIONAL)

1. Stand to the side of the machine and grip one of the upper strap handles in an overhand position with the handle at head level.
2. Step forward with the opposite leg and follow through with your pitch. Keep your torso straight. Shift your weight forward as you step with fluid motion. Slowly return to the starting position.

OWNERS MANUAL

EXERCISE DESCRIPTION

PUSH / PULL (FUNCTIONAL)

1. Stand to the side of the machine. Grip one of the lower strap handles in a neutral position with the hand closest to the machine. Bring the handle to waist level.
2. Using your other hand, grip the upper strap handle on the other side of the machine in a neutral position. Bring the handle to head level.
3. Push the lower handle and pull the upper handle at the same time. Scissor your arms across the machine until your hand positions are reversed. Slowly return to the starting position.

OWNERS MANUAL

HOIST FITNESS SYSTEMS LIMITED LIFETIME WARRANTY

Hoist Fitness Systems warrants this product to the original purchaser to be free from defects in workmanship and/or materials under normal use or service. If at any time a component part is defective, Hoist Fitness Systems shall repair or replace it (at Hoist Fitness Systems option) within a reasonable period of time. This warranty does not cover costs of removal, transportation or reinstallation. This warranty shall not apply if the defect was caused by misuse, neglect or normal wear and tear.

Starting from the original date of purchase, normal wear and tear shall be considered as the following:

COMMERCIAL USE: All malfunctions of upholstery, grips, paint, and chrome that occur after one year; all malfunctions of electronic components, belts, or cables after one year; all malfunctions of pulleys, bearings, or bushings that occur after five years. The frame and all welded components are warranted for the life of the product.

HOME USE: All malfunctions of grips, paint, and chrome that occur after ten years; all malfunctions of electronic components, belts, cables, or upholstery that occur after ten years; all malfunctions of pulleys, bearings, or bushings that occur after ten years. The frame and all welded components are warranted for the life of the product.

Hoist Fitness Systems sole responsibility shall be to repair or replace the component within the terms stated above. Hoist Fitness Systems shall not be liable for any loss or damage of any kind including any incidental or consequential damages resulting, directly or indirectly from any warranty expressed or implied or any other failure of this product.

WHAT IS NOT COVERED BY THIS WARRANTY

Hoist's sole obligation under this warranty is limited to either repair or replacement of parts, subject to the additions below. This warranty neither assumes nor authorizes any person to assume obligations other than expressly covered by this warranty.

NO CONSEQUENTIAL DAMAGES. Hoist is not responsible for economic loss; profit loss; or special, indirect, or consequential damages.

WARRANTY IS NOT TRANSFERABLE. This warranty is not assignable and applies only in favor of the original purchaser/user to whom delivered. Any such assignment or transfer shall void the warranties herein made and shall void all warranties, expressed, implied or statutory, except the one (1) and five (5) year warranties described above. These warranties are exclusive and in lieu of all other warranties, including implied warranty and merchantability or fitness for a particular purpose. There are no warranties which extend beyond the description on the face hereof.

ALTERATION, NEGLIGENCE, ABUSE, MISUSE, NORMAL WEAR & TEAR, ACCIDENT, DAMAGE DURING TRANSIT OR INSTALLATION FIRE, FLOOD, ACTS OF GOD. Hoist is not responsible for the repair or replacement of any parts that Hoist determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, normal wear & tear, accident, damage during transit or installation, fire, flood, or an ACT OF GOD.

TRANSPORTATION COSTS. Hoist will accept parts covered under this warranty freight collect, provided that shipment has received prior approval. Hoist is not responsible for any other transportation costs, but will ship freight collect parts either repaired or replaced under these warranties.

WARRANTY CLAIMS. All claims should include: model number, the serial number, proof of purchase, date of installation, and all pertinent information supporting the existence of the alleged defect.
