SETTING UP YOUR KEYBOARD

Connecting your Keyboard:

You can easily set up your keyboard by following the instructions in this section.

- 1. Make sure the computer is turned off. Caution: Plugging or unplugging cables to the computer's PS/2 port while the computer is running can damage the computer.
- 2. Connect the receiver's cable to the computer's PS/2 port.

ADJUSTING THE KEYBOARD LEGS

The keyboard legs provided are designed to accommodate various body size, chairs, and desks while using this keyboard.

To adjust the keyboard legs, see the instructions on the underside of the keyboard. Choose the option that promotes the least bending of the wrists while typing.

INSTALLATION OF THE DRIVER:

- Step 1: Remove any keyboard drivers prior to installing your new keyboard driver.
- Step 2: Insert the device driver diskette into your floppy disk drive, and then start the SETUP.
- Step3: Follow the directions in the installation program step by step.
- Step4: Restart your computer.

 After restarting, there will be a figure of keyboard on the right bottom corner of your screen, which indicates the installation has been completed successfully.

ADDITIONAL KEYS:

The keyboard includes additional keys that enable you to use Microsoft operating systems and applications more efficiently.

ADDITIONAL INTERNET & MULTIMEDIA KEYS:

Your iConcepts keyboard includes 18 multimedia & Internet functions. Before access these hot keys, please press enable Multi-media function:

After enabling multimedia, you can use the media and internet functions

After disabling multimedia, the keyboard works under normal mode.

- · view the window below.

Choose Wheel Mode/Parameters:

· Choose wheel To Scroll and press the task button to set the speed

Troubleshooting

When your wireless mouse does not work after installation

- Make sure you have connected the receiver correctly. The receiver cable goes into the computer's PS/2 mouse port. For optimal performance, place the receiver at least 8 inches or 20 centimeters away from other electrical devices, such as the computer, the computer monitor, or external storages drives.
- Make sure that the batteries you use are new and fresh (not outdated). If you are not getting a response from the mouse or keyboard, please replace the batteries.

15.105 Federal Communications Commission (FCC) Requirements, Part 15

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the <u>instructions</u>, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ---Reorient or relocate the receiving antenna.
- ---Increase the separation between the equipment and receiver.
- ---Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- --- Consult the dealer or an experienced radio/TV technician for help.

Regulatory information / Disclaimers

Installation and use of this Wireless Keyboard Mouse device must be in strict accordance with the instructions included in the user documentation provided with the product. Any changes or modifications (including the antennas) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment. The manufacturer is not responsible for any radio or television interference caused by unauthorized modification of this device, or the substitution of the connecting cables and equipment other than manufacturer specified. It is the responsibility of the user to correct any interference caused by such unauthorized modification, substitution or attachment. Manufacturer and its authorized resellers or distributors will assume no liability for any damage or violation of government regulations arising from failing to comply with these guidelines.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.
