💾	MicroSD card inserted.

2 Getting Started

Installing the SIM Cards and the Battery

You can install up to two SIM cards in the phone at the same time.

When installing a SIM card, ensure that the gold contact area faces down, and that the beveled edge of the SIM card aligns with that of the SIM card slot.

Before removing the battery and the SIM cards, ensure that your phone is powered off.

To enable dual-SIM mode, power on the phone, select **Menu** > **Settings** > **Dual SIM settings** > **Dual SIM open**.
Installing the microSD Card

⚠ Before installing or removing a microSD card, power the phone off. When the phone is powered back on, it indicates whether the microSD card has been installed correctly.

You can expand your phone's memory capacity by installing a microSD card. When installing a microSD card, ensure that the gold contact area faces down.
Charging the Battery

1. Connect the charger to an AC power socket.
2. Connect the charger to the charger jack on the phone.
3. Wait until the battery is completely charged.
   During the charging process, the charging icon is displayed in animation. When the charging icon becomes static, the battery is fully charged.

   📖 When you charge a completely exhausted battery, the charging icon may appear several minutes later.

4. Disconnect the charger from the phone.
5. Disconnect the charger from the AC power socket.

Phone Lock

The phone lock protects your phone from unauthorized use. By default, the phone lock is disabled. Once the phone lock is enabled, you must enter the phone unlock code each time you power on the phone. The preset phone unlock code is **1234**. You can change this code into any numeric string between four and eight digits.

If you forget the phone unlock code, contact your service provider.

PIN and PUK

The personal identification number (PIN) protects your SIM card from unauthorized use. The PIN unblocking key (PUK) unlocks a blocked

PIN. Both the PIN and the PUK are provided with the SIM card. For details, contact your service provider.

To enable the PIN lock:

1. Select **Menu** > **Settings** > **Security settings** > **SIM 1**/ **SIM 2 security** > **PIN lock**.

2. Enter the PIN and press ▔**1** (**OK**) or ⭕.

If you enter the incorrect PIN a specified number of times, the phone prompts you to enter the PUK.

If you enter the incorrect PUK a specified number of times, the SIM card will become permanently invalid. If this occurs, contact your service provider for a new SIM card.

Locking and Unlocking the Keypad

To lock the keypad, press and hold ⌨(**⁎ ⴰ #**) for about 3 seconds in standby mode. To unlock the keypad, press ▔**1** (**Unlock**) and ▔**2** (**OK**).

If the **Auto keypad lock** function is enabled and the phone is in standby mode for a preset period, the phone automatically locks the keypad.

📖 When the keypad is locked, you can press ▔**1** (**Answer**) or � to answer a call, or press ⎍ to make an emergency call.

3 Voice Services

Dual-Card Management

Your phone supports dual-card dual-standby mode, but the two SIM cards cannot be used simultaneously. When you are making a call or

using data services with one SIM card, the other SIM card cannot access network services.

Making a Call

1. In standby mode, enter the phone number.

- To make an international call, press $\boxed{* \, \text{\textit{ø}} \, +}$ twice to enter the plus sign (+). Then enter the country or region code, area code, and phone number.

- To call an extension number, enter the phone number, press $\boxed{* \, \text{\textit{ø}} \, +}$ three times to enter p, and enter the extension number.

2. Press $\boxed{}$ or $\boxed{}$ and select **SIM1/2 voice call** to dial the number.

3. Press $\boxed{\text{\textcolor{white}{x}}\textbf{\Large \textcircled{}}}$ to end the call.

- You can also make a call from the call log, contacts, or messaging screen.

  - During a call, you can press $\boxed{}$ or $\boxed{}$ to adjust the in-call volume. You can also press $\boxed{}$ **1** (**Options**) and select **Volume**, and then press $\boxed{}$ or $\boxed{}$.

Answering a Call

When there is an incoming call, you can:

- Press $\boxed{}$ or $\boxed{}$ **1** (**Answer**) to answer the call.

- Press $\boxed{}$ **2** (**Silent**) to mute the speaker, and press $\boxed{}$ **2** (**Reject**) again to reject it.

- If the Silent profile is activated, Press $\boxed{\text{\Large \textcircled{}}}$ or $\boxed{}$ **2** (**Reject**) to reject the call.

8

If the **Any key** answer function is enabled, you can press any key except ⏻, and ▬**2** to answer a call.

4 Text Input

Changing the Text Input Mode

The current text input mode indicator is displayed in the upper left corner of the screen. You can press ⊕▲# to switch between text input modes.

Indicator	Text Input Mode
ABC, abc and Abc	Multi-tap input modes
s ABC, s abc and s Abc	Predictive input modes
123	Number input mode

- Press ▬**2** (**Clear**) once to delete the last character entered or press and hold ▬**2** (**Clear**) for about 3 seconds to delete all the characters.

  - In any input mode, press ✱☸⁺ to display the commonly used symbol list.

  - In multi-tap input mode, repeatedly press 1@ₒₒ to select and enter commonly used symbols, press 0⎵Y once to enter a space, and press 0⎵Y twice to enter **0**.

  - In predictive input mode, press 1@ₒₒ to display commonly used symbols, and press 0⎵Y to enter a space.

9

Entering a Word

In multi-tap input mode, repeatedly press the keys labeled with the letters that spell the word until the desired letters are entered.

In predictive input mode:

1. Press each key once according to the spelling sequence of the desired word.
   The phone displays words associated with the sequence entered.

2. Press (symbol) to scroll to the desired word, and press (symbol) (symbol) to turn pages.

3. Press ▬1 (**Select**) or ⬚ to enter the word.

Entering a Digit

In number input mode, press the number key labeled with the desired digit.

Entering a Symbol

1. Press $(* \text{ℓ} +)$ to display the symbol list.

2. Press (symbol) to scroll to the desired symbol.

3. Press ▬1 (**OK**) or ⬚ to enter the symbol.

5 Services

You can use your phone to access Wireless Application Protocol (WAP) sites and use WAP-based services. To browse WAP pages, you must subscribe to the corresponding service from your service provider and configure your phone's relevant settings.

For details about services and charges, contact your service provider.

Network Settings

To access the WAP sites on your phone, you need to set your data account and WAP parameters first.

Setting the Connection Profile

1. Select **Menu** > **Services** > **Internet service** > **Settings** > **Data account** > **SIM1** or **SIM2**.
2. Select your service provider.
3. Edit the data account information.
4. Press ▬**1** (**OK**) to save the settings.

Setting the WAP Profile

1. Select **Menu** > **Services** > **Internet service** > **Settings** > **Select profile**.
2. Select **SIM1** or **SIM2** to set the default SIM card.

Connecting to a Network

1. Select **Menu** > **Services** > **Internet service** > **Input URL or search**.
2. Enter the URL of the desired website.
3. Press ⬭ or ▬**1** (**Options**) and select **Done** to access the website.

Chat Function

The **FaceBook** application is a social networking service (SNS) that lets you connect with family and friends.

To use Facebook, select **Menu** > **Services** > **FaceBook**, and enter your email and password. You will then be connected to Facebook and redirected to its homepage.

6 Phonebook

Creating a Contact

1. Select **Menu** > **Phonebook** > **Add new contact**.
2. Select **To SIM1**, **To SIM2**, or **To Phone** for saving the contact.
3. Edit the contact information.
4. Press ⬭ or ▬1 (**Options**) and select **Save** to save the contact.

Searching for a Contact

1. Select **Menu** > **Phonebook**.
2. Enter the first letter of the contact name in the search bar. Contacts who have names that start with this letter will be displayed.

Enter numbers in standby mode, and corresponding numbers or contacts will be displayed.

7 File Manager

The **File manager** application lets you manage files and folders stored in the phone memory or microSD card.

To manage files and folders:

1. Select **Menu** > **File manager**.

   Use 🔽 to scroll to the desired folder, and press ⬜ to open the folder, or press — **1** (**Options**) for options such as **Open**, **New folder**, **Rename**, **Delete**, and **Sort by**.

2. Use 🔽 to scroll to the desired file, and press ⬜ to open the file or press — **1** (**Options**) for additional operations. The operations applicable to files may be different from those applicable to folders.

8 Messaging

Sending a Text Message

1. Select **Menu** > **Messaging** > **New message** > **Text message**.
2. Write the message.
3. Press ⬜ and enter the recipient's phone number or add a recipient from **Phonebook**.
4. Press ⬜ and select **From SIM1** or **From SIM2** to send the message.

Sending a Multimedia Message

📖 ● Contact your service provider to determine the availability of the Multimedia Messaging Service (MMS) and how to subscribe to the service.

● Open multimedia messages with caution. Objects in multimedia messages may contain viruses and malicious software that can damage your phone.

1. Select **Menu** > **Messaging** > **New message** > **Multimedia message**.
2. Edit the message.
   You can add pictures, audio clips, and attachments to the message.
3. Press ⃝, and enter the recipient's phone number or add a recipient from **Phonebook**.
4. Press ⃝, and select **SIM1** or **SIM2** to send the message.

9 Multimedia

Audio Player

1. Select **Menu** > **Multimedia** > **Audio player**.
2. Press ▬ **1** (**List**), and select a music file.
3. Select an audio clip.
4. Press ⃝ to play the clip.
   When the clip is being played:
- Press ⃝ to pause or continue.
- Press ⌒, ⌎, (✳ ＠ ＋) or (• ⌂ #) to adjust the volume.

14

- Press ⟪ or ⟫ to go back to the previous clip or advance to the next one. Press and hold ⟪ or ⟫ to rewind or fast-forward the clip.

5. If background playback is enabled, press `⏻` or `2` (Back) to exit the audio player screen and play the audio clip in the background.

Video Player

1. Select **Menu** > **Multimedia** > **Video player** to launch the video player.
2. Select a video clip.
3. Press ▢ to play the video clip.

   When the video clip is being played:
- Press ▢ to pause or continue.
- Press ⟪, ⟫, `(*ℓ+)` or `(+ɑ#)` to adjust the volume.
- Press ⟪ or ⟫ to rewind or fast-forward the clip.

☐ Video Player only supports video files in the MP4, avi and 3GP format.

Camera

1. Select **Menu** > **Multimedia** > **Camera** to launch the camera.
2. Press `1` (Options) to view images or configure the relevant settings.
3. Press ▢ to take a picture.

For continuous shot, press ⬭ to shoot. To use this function, press ▬**1** (**Options**), select **Camera settings** > **Cont. shot** to set take one or more shots.

4. After taking the picture:

- Press ▬**1** (**Options**), and select **Send** to send the picture or **Delete** to delete the picture.
- Press ▬**2** (**Back**) to exit the camera.

Video Recorder

1. Select **Menu** > **Multimedia** > **Video recorder** to launch the video recorder.

2. Press ▬**1** (**Options**) to configure the relevant settings.

3. Press ⬭ to start recording a video clip.

4. When recording the video:

- Press ⬭ to pause or continue.
- Press ▬**2** (**Stop**) to stop recording.

☐ After recording and saving the video, press ▬**1** (**Options**) to delete or send it. You can send it via a multimedia message (video file cannot exceed 300 KB), or Bluetooth.

Image Viewer

1. Select **Menu** > **Multimedia** > **Image viewer** to launch the image album.

2. Press ⬭ to view images.

3. Press ▬**1** (**Options**) for options such as **View**, **Image information**, **Browse style**, **Send**, **Use as**, **Rename**, **Delete**, **Sort by**, **Delete all files**, and **Storage**.

FM Radio (Optional)

Your phone comes with a built-in antenna, you can listen to the radio without a headset.

If your phone does not support the built-in antenna, you should use the headset to listen to the FM radio. Connect the compatible headset to the phone before accessing the FM radio. The headset functions as an antenna. To ensure the best possible reception and therefore audio quality, do not unplug the headset or bend the headset cable.

1. Select **Menu** > **Multimedia** > **FM radio** to access the frequency modulation (FM) radio.

2. On the FM Radio screen:

- Press ⬜ to turn the FM radio on or off.

- Press ⬆ or ⬇ to adjust the volume.

- Press ⬅ or ➡ to adjust the frequency at 0.1MHz intervals.

- Press ▬1 (**Options**) for options such as **Channel list**, **Manual input**, **Auto search**, **Settings**, **Record**, and **File list**.

> ☐ When the FM radio is playing in background, in standby mode press ⬛⏻⬛ and then ▬1 (**Yes**) to turn it off.

Sound Recorder

1. Select **Menu** > **Multimedia** > **Sound recorder**.

2. Press ⬜ or ▬1 (**Options**) and select **New record**.
   While recording, you can press ▬1 (**Pause/Conti…**) or ⬜ to pause or continue.

3. Press ▬2 (**Stop**) to stop recording and select **Send**, **Preview** or **Save**.

10 Organizer

Calendar

The **Calendar** application lets you view dates, edit schedules, and set alerts. If you create a memo in the schedule for a particular date, that date will be highlighted. To view all memos for a day, press

⬜ to select the date. Press ▬ **1** (**Options**) for options such as **View**, **View all**, **Add event**, **Delete event**, **Jump to date**, **Go to today**, and **Go to weekly view**.

Tasks

The **Tasks** application lets you record important events.

Alarm

The **Alarm** application lets you set alarms to ring at specified times.

Calculator

The **Calculator** application lets you perform a variety of mathematical operations. The accuracy of certain decimals is limited, and the calculator can only be used for simple calculations.

Stopwatch

The **Stopwatch** application lets you timing in different ways.

Ebook Reader

1. In standby mode, select **Menu** > **Organizer** > **Ebook reader** to display the bookshelf.
   The phone automatically adds the ebooks stored in the default storage location (phone or microSD card) to the bookshelf.
2. Select an ebook.

3. Press ⬭ to open the ebook.

   While reading the ebook, press ▬**1** (**Options**) for options such as **Full screen on/off**, **Jump to**, **Add bookmark**, **Go to bookmark**, **Delete bookmark**, **Auto scroll on/off** and **Close**.

4. Press ▬**2** (**Back**) to close the ebook.

📖

   When reading an ebook, use ⬭ to turn pages, and use ⬭ ⬭ to change lines.

Torch

The **Torch** application lets you shine a bright light.

● In standby mode, select **Menu** > **Organizer** > **Torch**, press ⬭ or ▬**1** (**On/Off**) to turn the torch on or off.

● In standby mode, press and hold ⬭ to turn the torch on or off.

STK

Select **Menu** > **Organizer** > **STK** to enter STK function. The SIM Tool Kit (STK) function is a value-added service provided by your service provider; you can use it to send text messages, view news, and use other applications. For more information, contact your service provider.

Games

This phone comes with three built-in games. Select **Menu** > **Organizer** > **Games** to select a game.

11 User profiles

Your phone provides you with various profiles: **General**, **Silent**, **Meeting**, **Outdoor**, and **My style**. You can customize the ringtone and other settings for each profile depending on the environment and need (except **Silent**). You can activate or deactivate a profile.

To customize a profile:

1. Select **Menu** > **User profiles**.
2. Use ⌒ ⌄ to scroll to the desired profile, and press ◯ to select the profile or press ‾1 (**Options**) for the following options (except **Silent**):

- **Activate**: activate the profile.
- **Customize**: set the alert type, ring type, SIM1/2 incoming call, ringtone volume, SIM1/2 message, message volume, keypad tone, keytone volume, power on/off, and system alert.
- **Reset**: Reset to default settings.

📖 In the **My style** profile, you may **Rename** the profile name.

12 Settings

Phone Settings

Select **Menu** > **Settings** > **Phone settings**. Configure the following settings:

- **Time and date**: set the home city, time, date, auto update time, format, and time zone.

- **Schedule power on/off**: set the time at which the phone will power on or off automatically.
- **Language**: set the display language.
- **Pref. input method**: set the preferred input method.
- **Display**: set the wallpaper, time, date, network name, LCD backlight and keyboard backlight.
- **Dedicated Key**: set the shortcuts for dedicated key.

Security Settings

Changing PIN

To change the PIN, enable **PIN lock** first, and do the following:

1. Select **Menu** > **Settings** > **Security settings** > **SIM 1/SIM 2 security** > **Change PIN**.

2. Enter the PIN, and press $\bigcirc$ or ▬**1** (**OK**).

3. Enter a new PIN, and press $\bigcirc$ or ▬**1** (**OK**).

4. Re-enter the new PIN to confirm.

Changing PIN2

PIN2 is the personal identification number used for special functions provided by the network, such as billing.

SIM1 PIN2 and SIM2 PIN2 are configured separately.

To change PIN2, follow the same procedure as changing PIN.

13 Bluetooth (Optional)

Your phone supports Bluetooth. You can synchronize data between your phone and a personal computer (PC), exchange data with other Bluetooth devices, and connect a Bluetooth headset to your phone.

☐ You can turn on Bluetooth by configuring Bluetooth settings.

Connecting a Bluetooth Headset to Your Phone

1. Select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **Power** > **On** to turn on Bluetooth.
2. Select **Search audio device** to search for available Bluetooth headsets.
3. Scroll to the desired Bluetooth headset and press ▬ **1** (**Pair**) or ◯.
4. Enter the password to pair the Bluetooth headset with your phone.

When the Bluetooth headset is connected to your phone, the headset icon is displayed on the standby screen, indicating that you can use the headset.

☐ A Bluetooth headset is not included in the product package and must be purchased separately.

Transferring Data

1. Select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **Power** > **On** to turn on Bluetooth.
2. Select **My device** > **Search new device** to search for available Bluetooth devices.
3. Scroll to the desired Bluetooth device and press ▬ **1** (**Pair**) or ◯.

   When you pair your phone with the device for the first time, a password is required.
4. Exchange data between your phone and the Bluetooth device.

14 Warnings and precautions

This section contains important information about the operation of your device. It also contains information about how to use the device safely. Read this information carefully before using your device.

Electronic device

Power off your device when use is prohibited. Do not use the device if doing so causes danger or interference with other electronic devices.

Accessories

- Using an unapproved or incompatible charger or battery may cause fire, explosion or other hazards.
- Choose only batteries, chargers, and accessories approved for use with this model by the device manufacturer. The use of any other types of batteries, chargers, or accessories may void the warranty, may violate local regulations and laws, and may be dangerous. Please contact your retailer for information about the availability of approved batteries, chargers, and accessories in your area.

Charger safety

- Unplug the charger from electrical outlets and the device when not in use.
- Do not drop or cause an impact to the charger.
- Do not touch the power cord with wet hands or pull the power cord to disconnect the charger.
- If the power cable is damaged (for example, the cord is exposed or broken), or the plug loosens, stop using it at once. Continued use may lead to electric shocks, short circuits, or fire.

- If your device has been exposed to water, other liquids, or excessive moisture, take it to an authorized service center for inspection.
- Connect the device only to products with the USB-IF logo or with USB-IF compliance program completion.
- For pluggable devices, the socket-outlet shall be installed near the devices and shall be easily accessible.

Battery safety

- Do not connect battery poles with conductors, such as keys, jewelry, or other metal materials. Doing so may short-circuit the battery and cause injuries or burns.
- Do not solder battery poles or dismantle the battery. Doing so may lead to electrolyte leakage, excessive heat, fire, or explosion.
- Do not attempt to modify or remanufacture the battery, insert foreign objects into it, or immerse or expose it to water or other liquids. Doing so may lead to fire, explosion, or other hazards.
- Keep the battery away from excessive heat and direct sunlight. Do not place it on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode if overheated.
- If the battery leaks, ensure that the electrolyte does not make direct contact with your skins or eyes. If the electrolyte touches your skins or splashes into your eyes, immediately flush with clean water and consult a doctor.
- In case of battery deformation, color change, or overheating while charging or storing, immediately stop using the device and remove the battery. Continued use may lead to battery leakage, fire, or explosion.
- Do not put batteries in fire as they may explode. Damaged batteries may also explode.
- Do not drop the device or battery. If the device or battery is dropped, especially on a hard surface, and may be damaged, take it to an authorized service center for inspection.

- Improper battery use may lead to fire, explosion, or other hazards.
- Dispose of used batteries in accordance with local regulations.
- Do not smash or pierce the battery, or expose it to high external pressure. Doing so may lead to a short circuit or overheating.
- If the device standby and talk time shortens significantly, replace the battery.

Operating environment

- Avoid dusty, damp, or dirty environments. Avoid magnetic fields. Using or charging your device in these environments may result in circuit malfunctions.
- Do not use your device during thunderstorms to protect your device against any danger caused by lightning.
- Observe local laws and regulations, and respect the privacy and legal rights of others.
- Avoid touching the antenna when you are on a call. Touching the antenna affects call quality, increases power consumption, and reduces talk and standby time.
- Ideal operating temperatures are 0°C to 40°C. Ideal storage temperatures are 0°C to 40°C. Extreme heat or cold may damage your device or accessories.
- Do not expose your device to direct sunlight (such as on a car dashboard) for prolonged periods.
- Do not place your device or batteries on or in heating devices, such as microwave ovens, stoves, water heaters, or radiators. Batteries may explode if overheated.
- Stop using your device or applications for a while if the device is overheated. If skin is exposed to an overheated device for an extended period, low temperature burn symptoms, such as red spots and darker pigmentation, may occur.

- If your device has a camera flash, do not use it directly in the eyes of people or pets. Otherwise temporary loss of vision or damage to the eyes may occur.
- Do not allow children or pets to bite or suck the device or battery. Doing so may result in damage or explosion.

Protecting your hearing when using a headset

- To prevent possible hearing damage, do not listen at high volume levels for long periods.
- Using a headset at high volumes may damage your hearing. To reduce this risk, lower the headset volume to a safe and comfortable level.
- Exposure to high volumes while driving may cause distraction and increase your risk of an accident.

Child's safety

- Comply with all precautions with regard to child's safety. Letting children play with the device or its accessories may be dangerous. The device includes detachable parts that may present a choking hazard. Keep away from children.
- The device and its accessories are not intended for use by children. Children should only use the device with adult supervision.

Interference with medical equipment

- Follow rules and regulations set forth by hospitals and health care facilities. Do not use your device where prohibited.
- Pacemaker manufacturers recommend that a minimum distance of 15 cm be maintained between a device and a pacemaker to prevent potential interference with the pacemaker. If using a pacemaker, hold the device on the side opposite the pacemaker and do not carry the device in your front pocket.
- Some wireless devices may affect the performance of hearing aids or pacemakers. Consult your service provider for more information.

Areas with flammables and explosives

- Do not use the device where flammables or explosives are stored (in a gas station, oil depot, or chemical plant, for example). Using your device in these environments increases the risk of explosion or fire. In addition, follow the instructions indicated in text or symbols.
- Do not store or transport the device in containers with flammable liquids, gases, or explosives.

Traffic security

Observe local laws and regulations while using the device. If using the device while driving a vehicle, observe the following guidelines:

- Concentrate on driving. Your first responsibility is to drive safely.
- Do not hold the device while driving. Use hands-free accessories.
- When you must make or answer a call, pull of the road safely and park the vehicle first.
- RF signals may affect the electronic systems of motor vehicles. For more information, consult the vehicle manufacturer.
- Do not place the device over the air bag or in the air bag deployment area in a motor vehicle. Doing so may hurt you because of the strong force when the air bag inflates.
- Do not use your device while flying in an aircraft. Power off your device before boarding. Using wireless devices in an aircraft may disrupt wireless networks, present a hazard to aircraft operation, or be illegal.

Cleaning and maintenance

- Before you clean or maintain the device, power it off, and disconnect it from the charger.
- Do not use any chemical detergent, powder, or other chemical agents (such as alcohol and benzene) to clean the device or charger. These substances may cause damage to parts or present

a fire hazard. Use a clean, soft, and dry cloth to clean the device and charger.

- Keep the device and accessories dry. Protect them from water and humidity. Do not touch the device or the charger with wet hands. Doing so may lead to short circuits, malfunctions, or electric shocks.
- Avoid collision, which may lead to battery leakage, device malfunctions, overheating, fire, or explosion.
- Do not place magnetic storage media, such as magnetic cards and floppy disks, near the device. Radiation from the device may erase the information on magnetic storage media.
- Do not expose your device, battery, or charger to extreme heat or cold. These environments may interfere with proper function and may lead to fire or explosion. Battery performance is affected at temperatures lower than 0°C.
- Do not place sharp metal objects, such as pins, near the earpiece or speaker. The earpiece may attract these objects and result in injury.
- Do not dismantle the device or accessories. This voids the warranty and releases the manufacturer from liability for damage.
- If the device screen is broken in a collision, immediately stop using the device. Do not touch or attempt to remove the broken parts. Promptly contact an authorized service center.

Emergency calls

The availability of emergency calls is subject to your cellular network quality, service provider policy, and local laws and regulations. Never rely solely on your device for critical communications like medical emergencies.

Environmental protection

- The device and its accessories, including but not limited to the power adapter, headset, and battery (if included) should not be disposed of with household garbage.

28

- Disposal of the device and its accessories is subject to local regulations. Support proper collection and recycling.

FCC Regulatory Compliance

Body worn operation

The device complies with RF specifications when used near your ear or at a distance of 1.5 cm from your body. Ensure that the device accessories, such as a device case and device holster, are not composed of metal components. Keep the device away from your body to meet the distance requirement.

Certification information (SAR)

This device is also designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA).

The SAR limit adopted by the USA is 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported to the FCC for this device type complies with this limit.

The highest SAR value reported to the FCC for this device type when tested for use at the ear is 0.972 W/kg, when properly worn on the body is 0.415 W/kg.

FCC statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications to this device not expressly approved by Huawei Technologies Co., Ltd. for compliance could void the user's authority to operate the equipment.
