

## Activating your eSIM

- 1 Use the  **Android Wear** app to connect your phone to your watch.
- 2 On the  **Huawei Wear** home screen, choose **Cellular management > eSIM service > Activate**.
- 3 Use your phone to scan the QR code provided by your carrier as instructed. Enter the security code sent by your carrier if necessary.
- 4 The eSIM account is automatically activated upon the first time you download and configure the eSIM service.  
\* To add an eSIM account, follow the onscreen instructions on your watch.

Please make sure that:

1. Your phone is connected to your watch through Bluetooth, and your phone can access the Internet.
2. Your phone and watch are powered on with the battery level higher than 40%.
3. No operation is performed on your watch during the activation process.
